JULY 1970

NO. 7

## FOREWORD

The Kentucky High Schools 1969-70 Bulletin gives pertinent information concerning the program of secondary education in Kentucky. This Bulletin lists all high schools existing in the state for the current school year. A companion bulletin is being issued later which gives similar information for the elementary schools.

This publication shows that much emphasis has been placed upon program implementation in the area of secondary education throughout the state. May we commend the local and state school personnel for their efforts to provide continuous improvement and secondary instruction in Kentucky.

It is hoped that the materials in this publication will be useful to the members of the profession as they strive to improve educational opportunities on all levels.

WENDELL P. BUTLER  
SUPERINTENDENT OF PUBLIC INSTRUCTION

## FOREWORD

The Kentucky High Schools 1955-56 Bulletin gives pertinent information concerning the program of secondary education in Kentucky. This Bulletin lists all the schools existing in the state for the current school year. A companion bulletin is being issued later which gives similar information for the elementary schools.

This publication shows that much emphasis has been placed upon program implementation in the area of secondary education throughout the state. May we commend the local and state school personnel for their efforts to provide continuous improvement and secondary education in Kentucky.

It is hoped that the materials in this publication will be useful to the members of the profession as they strive to improve educational opportunities on all levels.

## KENTUCKY HIGH SCHOOLS—1969-70

Kentucky public and private high schools are classified and accredited by the State Board of Education. This requirement is set forth in the law which requires that each school district in the state provide an accredited twelve-grade program and that rules and regulations be adopted governing the quality of this program. The law also provides that the "Superintendent of Public Instruction shall annually prepare or cause to be prepared and submit for approval and publication by the State Board of Education a list of all public and private high schools or other secondary schools in the state, showing their classifications." Accredited classifications are given each year by official action of the Kentucky State Board of Education on recommendations of the staff in the Division of Elementary and Secondary Education, State Department of Education. The Committee on Secondary schools has worked in close cooperation with the Instructional staff in an advisory capacity on arriving at the recommended ratings.

The number of high schools classified and accredited annually continue to decline. This year there are 419 high schools, ten (10) less than in 1968-69. Table I which follows shows the number of schools classified according to the type of organization and the controlling authority under which they operate.

**TABLE I**  
**TYPES OF HIGH SCHOOL ORGANIZATIONS**  
**AND NUMBER OF EACH**

| Types of Organization | County<br>District | Independent<br>District | State or<br>Federal | Private   | Total      |
|-----------------------|--------------------|-------------------------|---------------------|-----------|------------|
| Grades 7-9 .....      | 25                 | 22                      | 0                   | 1         | 48         |
| Grades 7-10 .....     | 4                  | 0                       | 0                   | 0         | 4          |
| Grades 7-11 .....     | 2                  | 0                       | 0                   | 0         | 2          |

| Grades 8-9 .....      | 2                  | 1                       | 0                   | 0         | 3          |
| Grades 8-12 .....     | 8                  | 3                       | 0                   | 2         | 13         |
| Grades 9-10 .....     | 0                  | 0                       | 0                   | 1         | 1          |
| Grades 9-12 .....     | 150                | 33                      | 4                   | 53        | 240        |
| Grades 10-12 .....    | 14                 | 10                      | 0                   | 0         | 24         |
| <b>TOTALS</b> .....   | <b>252</b>         | <b>99</b>               | <b>8</b>            | <b>60</b> | <b>419</b> |

Of the 419 schools operating, 361 are high schools offering a Program of Studies through the twelfth grade, and are considered complete high schools. The complete high schools show a decline from year to year which means that the high schools are becoming larger making it practicable to offer a broader Program of Studies for the youth of the State.

The number of high schools operating and reported annually continues to decline. This year there are 361 high schools, the lowest since 1925-26. Table I which follows shows the number of schools classified according to the type of program they offer. The following table is a summary of the data.

The number of high schools operating and reported annually continues to decline. This year there are 361 high schools, the lowest since 1925-26. Table I which follows shows the number of schools classified according to the type of program they offer. The following table is a summary of the data.

Table II shows the number of complete high schools and the change in number for a sixteen-year period from 1954-55 to 1969-70. In this period of time, the number of high schools have decreased from 526 to 361 or 165 fewer than existed 16 years ago.

The common type of high school organization conforms to either a six-year high school, grades 7-12; or a four-year high school, grades 9-12. For a number of years, the trend has been moving away from the six-year high school organization to the four-year high school plan. This year there are 84 six-year high schools and 240 four-year high schools. Last year there were 93 six-year high schools and 242 four-year high schools. By far the greatest number of these schools are organized as grades 9-12.

In Table III, there is an accumulation of information concerning the number of high schools representing the growth since 1958-59 to 1969-70. It is interesting to notice that since the school year of 1958-59 when there were 533 schools that there are now only 419 or a decrease of 114 schools in this period of time. This is evidence that the high schools of the Commonwealth of Kentucky are becoming larger and therefore offering the potentials of providing a stronger program of instruction.

**TABLE III**
