Dear Sir

I have not as yet received the map of the survey on which Hazard is built nor have I the accurate information you desire about that tract or two others I hold - the Bates tract on Millstone 2200 acres and a 500 acre tract on Thornton which joins it

If I do not receive the map and better information to-night I shall write what I do know and give the best sketch of the tracts I can give

Very Respectfully
 L. Turner Maury
