

Dear Mr Dodge

I am trying to get business cleared up well as I can, There are several points you will need to consider, 1st will you continue the Land surveys? Duffield wants to run all timber, what about it? Further purchases of Land, How far shall we go? To get advantage of our surveys and protect what we have it will be necessary to buy out some persons and places, Will you employ Mr Baker as agent to assist, protect Lands Timber etc and look after logging? He says he will charge us \$100<sup>00</sup> pr month, Will you wish nobody to survey any Railroad lines returning, If we can I advise the Land survey continue, Duffield understands this business better than any one we have employed, The
