Dear Janis,*

The students in my government documents class in Library Science were unanimous in their praise for the helpfulness of the Government Documents Department staff. They felt that the difficulty in using documents was mostly offset by the willingness of the staff to help. They were most appreciative. You and your staff gave each student a good role model for their own practice as a librarian.

Perhaps they are silent with their praise, but they leave the library with an appreciation for and a very good impression of the government documents staff at M.I. King Library.

Sincerely,

Cheryl Jones

ACTS Orientation Manual is Printed and Ready to Go.

The Orientation Manual prepared by the ACTS Orientation Committee is (at last) completed and printed. We are sending one copy to each department and branch library, addressed to a staff person. Please circulate this manual (and the answer booklet that goes with it) to all interested persons in your department. Anyone who would like their own copy may pick one up from Andrea Bryant in the Business and Economics Information Center. At the ACTS Annual Meeting on August 22nd, we will vote on whether we should go ahead with the Orientation Program and begin giving this manual to new staff persons.

For Books are not absolutely dead things, but doe contain a potencie of Life in them to be as active as that Soule was whose progeny they are; nay, they do preserve, as in a violl, the purest efficacie and extraction of that living intellect that bred them. I know they are as lively, and as vigorously productive, as those fabulous Dragons teeth; and being sown up and down, may chance to spring up armed men.
