No. 4

## DOCTOR McVEY ATTENDS MICHIGAN CONFERENCE

Educational Meeting is Held During Inauguration of President Burton.

### GUEST AT UNION

President McVey has returned from a trip to Ann Arbor, Michigan, where he attended an educational conference at the University of Michigan, during the inauguration of President Burton. At this conference speakers who were representatives of the best educational thought, discussed some of the present day problems and difficulties in modern education.

Emphasis was brought to bear on the necessity of bringing into the pursuit of the courses of study the same energy and purpose that students show in campus activities, the idea being to secure earnestness of purpose and to secure a higher type of and better educated graduates.

The representatives were entertained at the Michigan Union, a building erected by the alumni of Michigan at a cost of \$1,300,000. It is used as a club by the students and faculty. It contains cafeterias, lounging rooms, billiard rooms, dancing halls, and everything that goes to make a perfect community house. In speaking of this building Doctor McVey said: "We need a building of this kind here. It would be of great benefit to the students and faculty."

## STUDENT ENROLLMENT EXCEEDS ALL RECORDS

Final Registration Reaches a Total of 1,233.

With a total of 1,233 students, registration at the University of Kentucky is twenty per cent larger this year than it has ever been.

Of the 1,233 students who have registered, 12 have left school for various reasons, leaving at present a student body which numbers 1221. Of those enrolled, 798 are men and 398 are women. There are 19 students in the graduate school.

The enrollment is divided among the colleges of the University as follows: College of Arts and Science 519. College of Agriculture 262. College of Engineering 323. College of Law 73.

## LEGAL FRATERNITY PLEDGES NEW MEN

Phi Alpha Delta, the honorary law fraternity, which was re-organized on the campus last year after an absence of several years, has pledged a number of men and will continue to take an important part in the activities in the College of Law.

The pledges are: Neal Sullivan, Jack Hewitt, R. P. Hagan, R. S. Hayes, R. I. Stewart, A. L. Ashby and Sam Cole.

The chapter of Phi Alpha Delta was established at the University of Kentucky in 1911, but due to the fact that the entire chapter enlisted in the service in the spring of 1917, it was necessary that the fraternity be re-established last year.

The members of the active chapter are: R. H. Tomlinson, Clyde Burton, M. K. Eblen, Dillard Turner, Milton Revill, Berl Boyd and Carl Lipe.

## KENTUCKY STUDENTS BEHIND THE COLONELS

Best Wishes of University Men Follow Centre to New England.

Tomorrow afternoon at Cambridge, Massachusetts, the Centre College eleven will meet the Harvard aggregation in what promises to be one of the greatest games that has ever been played. What the result will be no one can tell, but one thing is certain and that is the Colonels will fight to the last minute to bring victory to the Bluegrass State.

Although outweighed Centre has a faster team than Harvard and boasts the service of two All-Americans and one of the greatest full backs of all times. McMillan, Weaver and Roberts will cause the wearers of the crimson to use every bit of energy and strategy they can muster to stop them and even then it is doubtful if they will succeed. Centre has a wonderful team and although she has engaged in no real games this year it is plain to be seen that the Danville team has the ability to cope with any team in the country.

The students of the University of Kentucky are behind the Centre team and wish the Colonels success in their eastern venture. It will mean a great deal to Kentucky to have a team from this state trounce the New Englanders and show the world that the East is not the only section of the country where real football teams are found.

## LOUISVILLE CLUB ELECTS OFFICERS

Social Meetings Will Be Held Regularly; Refreshments to Be Served.

Officers were elected and plans made to hold meetings regularly at least once a month at the meeting of the Louisville club last Monday afternoon in the Little Theatre. The meetings will be social in nature and will probably be held in the new Stroller room or the Y. M. C. A. rooms. The next meeting will be at 3:45 p. m., November 3. Refreshments will be served. The purpose of the club is to bring together the students from Louisville and to foster a cooperation between the University and the students in the high schools of Louisville.

The following officers were elected: president, Robt. J. Raible, Arts, '21; vice president, Mary Elizabeth James, Arts, '22; secretary, Katherine Weakley, Arts, '21; treasurer, Horace Clay Miller, Eng. '23.

An assessment of twenty-five cents was declared to pay for the refreshments at the meetings.

### Junior Women

All Junior women should see Fannie Heller at once for information cards to be filled out for the 1921 Kentuckian.

## LEST YE FORGET

The campus philosopher pauses to remark: It is a good time for the Freshmen to re-read the Senior Rules. Remember Frosh, that ignorance of the law excuses no one.

## REPRESENTATIVE CO-EDS WILL BE CHOSEN FRIDAY

"Fair Kentuckians" to Be Selected at Special Chapel Next Week

### NEW PLANS THIS YEAR

The contest to select the "Fair Kentuckians" for this year's annual will be held in the chapel Friday, October 29. It has always been either a beauty or a popularity contest, but this year will be neither and yet both. In other words the most beautiful girl, the most popular girl, the cutest, best, most stylish and most talented girl in school will be voted on, and in this way the most representative group of University girls will be represented in the Kentuckian.

## Wireless To Receive Cambridge Results

When Centre and Harvard clash tomorrow the results will be heralded far and wide. First in everything as usual the University will use the newest way of receiving the results and will announce them on Stoll Field during the Kentucky-Sewanee game.

The University wireless station in the Civil and Physics Building will receive the news if it is possible to get in touch with the messages sent out from Cambridge and those attending the game here will have first hand information of two great contests. The game between Kentucky and Sewanee will hold the interest of the South, while the eyes of the entire country will be focused on the Centre-Harvard argument.

## SOPHOMORE CLASS ELECTS OFFICERS

The Sophomore class meeting, called for the election of officers was held at 3:30 o'clock, October 14, in chapel. The names of the nominees had been posted on the bulletin board in the Main building the previous week. The following officers were elected, secret ballot being used: L. R. Ringo, president; Louise Connell, vice president; Katherine Conroy, secretary; A. B. Cammack, treasurer.

## ROYAL ORDER OF FISH REORGANIZE

Interfraternity Society Makes Plans For the Ensuing Year.

"The Royal Order of Fish," an interfraternity society which was organized last year for the purpose of promoting better comradeship among the fraternities at the University of Kentucky, held its first meeting Monday, October 18.

A temporary chairman was selected to ask for suggestions in regard to the further development of the Order. A box party at the Ada Meade has been planned for Thursday, October 21.

Other forms of entertainment were arranged, such as smokers and dinners, the dates of which are to be announced later.

The "Fish" present were: Earl Wallace, Raymond Connell, Bruce Fuller, John McKenzie, Larry Thompson, Baron Faulconer, James Server, W. D. Thompson, Authur Shanklin, Irvin Scribner, Curtis Benjamin, Ed. Gregg, Richard Hagan, Charles Bourland and Homer Baker.

## CORRECTION IN LIST OF FRATERNITY PLEDGES

Due to a typographical error the list of the pledges of the Sigma Alpha Epsilon and Delta Chi fraternities were confused in the last issue of The Kernel. A correct list is given below:

### Delta Chi

O. R. Lancaster, Georgetown; John W. Cook, Smith Grove; Sam Martin, Millersburg; C. A. Carter, Wm. Worthington, Lexington; A. C. Bottoms, Lawrenceburg; J. A. Dobbs, Morgantown; Calvin Lisman, Dixon; H. C. Hoffman, Carrollton; D. A. Wolfe, Georgetown; P. B. Rouse, Paducah; L. R. Ringo, Owensboro; L. T. Smith, Bowling Green.

### Sigma Alpha Epsilon

Cresap Hays, Elizabethtown; Flem Clardy, Hopkinsville; Henry S. Jackson, Franklin; John Albright, Mt. Vernon; Earl Martin, Greenville; Edward Byars, Leitchfield; E. E. Siler, Williamsburg; Tom Hall, Henderson; John Dundon, Paris; A. T. Rice, Paris.

## SERVICE MEN TO SUE

At a meeting of the Executive Committee of the Board of Trustees of the University with a committee representing the former service men it was decided that in order to obtain a judicial interpretation of the Scholarship law the service men should file suit in the Court of Appeals.

Suit will be brought at once according to Raymond Rodgers, chairman of the service men's committee.

The points at issue are: should the University pay room rent of the men to whom scholarships were granted, and should those applications be granted, which were filed after August 20, 1920.

## SKITS ARE REGISTERED FOR AMATEUR NIGHT

Would Be Strollers Must Send in Applications by Monday.

### PRIZES FOR BEST ACTS

The chapel is already jumping up and down and clapping its hands in expectancy, for it realizes that its happiest holiday, Amateur Night, is close at hand. She knows that at 8 o'clock, Saturday, October 30, she will open her arms and welcome many to her annual celebration.

Milton Revill, president of the Strollers, and Herndon Evans, stage manager, have already received several applications from prospective actors, who would like to contribute to the festivity of the evening. Application slips may be procured at the post office and must be filled out and handed in before noon, Monday, October 25.

The bulletin board in front of the Administration building will announce the dates of try-outs Tuesday. The six best acts presented at try-outs will be chosen for public performance, Saturday, October 30, when a prize of \$5 will be awarded for the best single act and another for the best double act.

Freshmen, if the glamor of the footlights and the thrill of applause does not spur you on to ambition, perhaps the love of contest or even the need of an extra meal ticket may goad you to an effort. If you are afraid to try the rocky road to fame alone and are a disbeliever in the adage, "he travels fastest," persuade a friend to let you act as butler, maid, coachman or what-not, in his skit. You will then be classed as one in a double act. Of course if you win the prize, you will then have but the price of a meal instead of the whole ticket, but you may be a member of the Strollers, "Which, after all, is the point."

## "K" BANNER IS STILL MISSING

Students are Urged to Aid in Finding of Kentucky's Standard.

What has become of the "K" banner? Many and varied have been the theories. The banner disappeared from view some time after the football season last year and as yet has not put in its appearance this year. Perhaps some thoughtful person took it home to care for it during the summer. Perhaps some one took it to decorate his room or fraternity house. At any rate it is missed at the football games and rallies.

Every one is urged to assist in locating the banner. It has been missed on every occasion. If you know the thoughtful person who took it home to care for it, but who was not thoughtful enough to return it, please remind him that it is needed. If someone took it merely for a selfish purpose, reason with him gently but firmly.

Imagine our team on foreign fields without the encouraging sight of the old "K" banner. What can take its place on our own field? Get behind every one and help locate our sacred emblem. The success of every rally, every parade and every game depends upon its return.

## WATSON ANNOUNCES SUBSCRIPTION CONTEST FOR 1921 ANNUAL

Could you use \$24.00? Of course, then get to work and win the Kentuckian subscription contest, which starts Monday. Twenty Dollars in Gold will be given to the one who gets the most subscriptions for The Kentuckian. A second prize of \$10.00 will be awarded the one who comes next in the race, and a Kentuckian will be given to every one who sells more than fifty. Subscription blanks may be obtained from Fred Houston-Shaw or C. V. Watson, in the Kentuckian room, in the basement of the Library building.

## HIGH SCHOOL COURSE GIVEN BY UNIVERSITY

Teachers Will Be Given Instruction by Department of Extension.

### STUDY AT HOME

The General Assembly of the State of Kentucky at the session of 1920, passed an act requiring the public school teachers of the State of Kentucky to prepare themselves in high school subjects. Realizing the difficulties facing the teachers in meeting the requirements of that act, and realizing at the same time the immense problem involved in keeping the schools going and at the same time preparing the teachers in high school subjects, the University of Kentucky after due deliberation, and after receiving the approval of the State Superintendent of Schools, asked the Attorney General of the State if there were any legal difficulties in the way of the University's offering extension courses in high school subjects. On receipt of an opinion to the effect that there are no legal difficulties involved, the University has decided to announce a full four year high school course.

#### For Whom Intended.

In offering this course, it is not the purpose of the University in any way to come into competition with high schools or other institutions doing secondary work. Pupils attending high school will not be admitted to these courses without the specific consent of the superintendent, principal, or other school officer of the school where he is supposed to attend. Teachers in the service, or others who for any reason cannot attend their own schools will be admitted to the courses.

#### Credit.

Full entrance credit toward entrance to the University will be given for these courses, the amount of credit being indicated in connection with each course.

The courses will be prepared by the regular University faculty and the various departments of the University concerned will mark the papers of the students, so that the student will come into immediate contact with the professors in the various departments of the University.

#### Books.

The courses outlined in the various high school subjects will be based on the text books adopted by the State Text Book Commission for high schools.

The student will furnish his own books. The University will furnish a printed list of the books with the names of the publishers. These may be purchased from a local book store or from the publishers themselves. The University does not deal in books and cannot undertake to furnish them to students.

Each student who enrolls will fill out an application blank for high school subjects furnished by the University. On receipt of such application blank and the required fee, the University will forward to the student the beginning assignments for the particular course for which the student registers.

#### Examinations.

Students will not be required to report at the University for examinations on completion of the course. The county superintendent of schools or other school officer in the county may hold examinations and certify to the University that the examination was held in accordance with the rules and regulations published by the University for the conduct of such examinations. In all cases, the examining officer must be acceptable to the University.

Students taking correspondence courses in high school subjects may register at any time. As a rule, papers are marked throughout the year. It is possible that some courses may be suspended during the summer months. In such cases, students taking the course will be notified.

The student may proceed as rapidly as he wishes with a course, but each

## FRESHMEN ENTERTAINED AT ROTARY CLUB LUNCH

College Men Assured of Aid of Business Men; Tigert Makes Talk.

Seventy-five members of the Freshman classes of the University of Kentucky and Transylvania College were guests of the Rotary Club at luncheon Thursday.

After the meal the members of the club assured the new collegians that the business men of Lexington not only heartily welcomed them but were ready to extend every possible aid during their college careers.

The speakers were introduced by Rotarian J. W. Porter, chairman of the day. The acknowledgments of the guests were made by Professor John J. Tigert, of the University of Kentucky, and Coach Jim Park, of Transylvania. Talks on "What I Know About Freshmen" were delivered by Rotarians Ed. Bassett and Sam Halley.

The Freshmen present at the uncheon were: R. K. Lawton, Robert Tydley, Henry Stephens, C. F. Smith, Elliott Wilkson, Irving Rigdon, J. R. Snyder, Stewart Singer, Robert Miller, C. B. Shacklette, Coleman Arnold, Raymond Clark, John S. Shon, Robert B. Clem, Samuel Smith, Jr., John C. Arnold, Frank P. Linkenberg, R. W. McBeck, C. Anderson, Hugh Williams, J. W. Cummack, C. H. Wolfe, G. W. Gardner, Weber Clark, T. C. Clardy, Newton Field, Robert Vanarsdall, J. E. True, Milton Hall, John Blair, John Perryman, R. Cross, Marion Insko, Witcliff Moore, C. M. Sander, G. C. Brown, Alfred Sturgess, Henry Campbell, Ed. Wiley, Millard Wilson, Robert Miller, Sam Martin, Harvey Baker, C. L. Barnhart, W. C. Borders, George Bradley, J. G. Burrows, E. B. Cartmell, A. L. Cooper, D. H. Con, George B. Elliott, Jay E. Evans, E. R. Fryer, Orris Gearhart, G. Keene Gray, Len M. Griffin, Burt V. Halbert, Zack S. Logan, Charles L. Martin, Elgin Powell, Paul Clifford Powell, Mark T. Ratliff, Rigdon K. Ratliff, W. Bennett Roach, Vivian O. Robertson, Thomas J. Shepherd, Francis J. Simmons, Wilbur B. Sloan, J. B. Stevens, William C. Stevens, Garnett L. Tiller, Edmund H. Taylor, J. Myron Woolery.

#### As Usual.

Passenger—Is it raining, Porter?  
Porter—No, it is raining water!

course for which the student registers must be completed within one year from the date of registration. In cases of unavoidable delay the time may be extended but specific permission must be obtained from the University.

Each assignment in a course will be the equivalent of one week's work. Each full course will therefore be outlined in thirty-six assignments. Courses extending over a half-year will be outlined in eighteen assignments.

#### Fees.

It is not the purpose of the University to make money on these courses but rather to offer the service on the lowest possible working basis. There will be a uniform fee of \$7.00 charged for each year course and \$5.00 for each half year course.

A student should not enroll for more than two courses at a time. Where the student has plenty of spare time, however, it is possible that he can complete four courses in a year.

Certificates of completion will be given on completion of one year's work, and again on the completion of the second, third, and fourth years respectively.

Students may register at any time, but courses will not be ready for distribution before December 1, 1920.

These subjects offered include: English literature, American literature, rhetoric and composition, grammar, English classics, elementary and intermediate algebra, plane and solid geometry; first, second, third and fourth year Latin; American history, general history, civics; general agriculture, general science, physiography and household arts.

## Prof. Miller's Book Given Commendation

In a recent issue of the American Journal of Science Professor Charles Schuchert of Yale University gave a review of Professor Arthur M. Miller's book on the "Geology of Kentucky." Professor Miller is at the head of the Department of Geology and Forestry of this University.

In his article Professor Schuchert said: "As a result of twenty-five years of local endeavor, Professor Miller of the University of Kentucky describes the essential geology of his State." Complimenting Professor Miller's book he said: "This book will do much good in spreading a correct knowledge of geology throughout Kentucky, and will serve as a reference work for American geologists. We congratulate the author upon the successful conclusion of this his favorite study and his long labor of love for his fellow citizens."

## MISS WHERRY ADDRESSES HIGH SCHOOL TEACHERS

Miss Pauline Wherry gave a talk on social service work at a reception given by Prof. M. A. Cassidy Thursday afternoon at Senior High School in honor of the teachers of the Lexington public schools.

## CLASSICAL CLUB IS REORGANIZED

The Classical Club was reorganized in the Y. M. C. A. rooms last Wednesday. Brief autobiographical sketches of the members were given in lieu of formal introductions. The following officers were elected: E. E. Siler, president; Pauline Hogg, vice-president; Elizabeth Ellis, secretary-treasurer; Florence Edmonds was named press agent.

Although it was the club's first meeting a very interesting program had been arranged. John Davis, a graduate of 1920 and winner of the Rhodes' Scholarship, gave an instructive talk on the founder of the Rhodes' Scholarship, and what he has already learned in advance about the University at Oxford, England. Lucy Whitworth gave readings from the immortal words of Socrates.

At the conclusion of the program delightful refreshments were served, and the meeting was adjourned.

The Classical Club is designed primarily to promote scholarship in the Latin and Greek department. This club promises to be one of the liveliest organizations on the campus.

## 3,300 REGISTER AT YALE

Yale University opened its 220th year with an enrollment of 3,300 students, which is one of the largest ever recorded. This year for the first time in the history of the institution the Freshman classes of Yale College and the Sheffield Scientific School have been united under one organization.

## Serviceable Clothing Made the Justright Way At Lower Prices

We are showing a splendid assortment of distinctively new and smart patterns in high grade service giving woollens for Fall and Winter at prices that will appeal to College men who want to save money.

We call your special attention to a line of

**Ode to the Bed Bug.**

(Written in the handwriting of a girl and signed, "Anonymous").  
The bed bug is a friend of mine  
For he bites me both before and behind.  
When in the dark I lie awake,  
He comes to me for food to take.  
Note—We can't print the rest here.  
It will be read privately on request.

Don't they know that they cannot  
communicate with Mars unless they  
notify her to be on the look out for  
the signal.

A certain typesetter made a mistake  
and instead of saying "Many years of  
uninterrupted bliss" he wrote "Many  
years of uninterrupted bills."  
Was he right?

I won't get cold in the winter for I  
sit between Cook and Burnham.

Farquhar—"There are two sides to  
every question, why I could almost  
make a good speech for the Democra-  
tic party."

"Speak low if you speak love."

Trip to Market Ends at Alter—Head-  
line—Nevertheless it will have to be  
resumed.

**Honors.**

"Was your garden a success last  
year?"

"Decidedly, my neighbor's chickens  
took first prize at the poultry show."

"She has a wonderful face, she cer-  
tainly would make Mack Sennett a  
world of money!"

"Mack Sennett does not care about  
their faces."

Warning—Don't let the girls get you

down, Freshmen. It will cause you to  
be ineligible to play football next  
season.

She—"Darling, I cooked dinner all  
by myself and you never said a word  
about it."

He—"I know dearest, but I hate to  
be always complaining."

**Deeds Count.**

"When a man courts a woman it is  
deeds that count, not words."

"Yes, and especially if they are real  
estate."

Terrell—Now when a man sees a  
cow out in the moonshine and thinks  
it is a ghost, what is that?"

Hukle—"Too much moonshine."

Lavin got left in Cincinnati last Sat-  
urday and came over to Oxford in a  
taxi. He drove up to the curb and let  
the driver assist him to descend. Wat-  
son paid the bill and immediately  
Bobbie walked over to a group of girls,  
real pretty. Well you ought to have  
seen them, they acted like Wallace  
Reid had come to town.

"Do right and fear no man."  
"Don't write and fear no woman."

She, (protestingly) "Don't do that."  
He, "Why dearest, don't you crave  
affections?"

She, "Yes, but don't you think this  
rather public?"

Little girl with golden hair  
Ruby lips and darlin' eyes,  
Little girl, I'll say you're there  
But I long to know the why.  
If the price of rouge should rise  
If peroxide took a jump  
Tell me, tell me, angel eyes  
Would your beauty take a slump?

**LAW JOURNAL WILL  
RESUME PUBLICATION**

is Official Organ of Kentucky Bar  
Association.

Official announcement has been  
made by the College of Law that the  
publication of the Kentucky Law  
Journal will be resumed this year.  
During the last three years its ap-  
pearance has been irregular on ac-  
count of the unusual conditions aris-  
ing as a result of the war. The re-  
organization of the Journal is wel-  
comed by all the students in the Col-  
lege of Law and by members of the  
Bar throughout the State.

The Kentucky Law Journal will ap-  
pear as a quarterly this year, the first  
issue bearing the date of November  
15, and the last the date of June 1.  
Dillard Turner, graduate student in  
the College of Law, has been elected  
editor-in-chief. He will be assisted by  
George Gallop, Clyde Burton and Berl  
Eoyd. H. W. Sullivan was elected  
business manager, and Prof. William  
Goble will serve as faculty advisor.

For several years the Kentucky Law  
Journal, published by the students of  
the College of Law of the University  
of Kentucky has been accepted by the  
Kentucky Bar Association as the  
official organ of that organization.  
Articles for the various issues are  
written by the ablest lawyers in the  
State, by the members of the Court  
of Appeals and by the faculty of the  
University.

**ALAS!**

Where are the ears of yesterday;  
Her hair has hid them all away.  
Those shell-like ears, I once adored,  
In whose pink curves my woes I  
poured.

To hairy wads I cannot pray—  
Where are the ears of yesterday? ! !  
Someone, I think, should interfere,  
Lest other features disappear.  
Next year, perhaps, eyes will be gone  
Then chins, then noses won't be worn,  
Until regretfully we say—  
Where is the face of yesterday? \*

Paul E. Dixon, '15, is meeting with  
success in the practice of law at  
Bowling Green. He has offices in the  
Cook building.

## Engineering Notes

By E. D. Wallace

### "The Liberty Twelve"

psychological Douglas Fairbanks role, used a Wallace Reid hair-part, a Warren Kerrigan attire, and a Charlie Chaplin pantomime; the combination was interesting.

However, we have something to be thankful for. We heard the greatest violinist of Europe (and later American) play; we saw one of our most popular novelists reading what was evidently one of the Rollo books; we were informed (news to me) that a play pleasing to the eyes of the monogamous yokels of Stamford, Connecticut, is always a regular, whooping, S. R. O. knock-out in New York; and, finally, we saw half a dozen actors wearing recently-fitting dress suits, which latter is more than you might think.

But, dear me, I am becoming hypercritical, not to say hypocritical.

### PROF. FARQUHAR TO CONDUCT TOUR

Itinerary to include Principal Countries of Europe.

Prof. E. F. Farquhar, of the Department of English, has announced his intentions of conducting a party on a tour of Europe during the summer of 1921, to leave New York July 2, and to return September 12.

The itinerary will include England, Scotland, Belgium, with trips to Ypres and Flanders battlefields, Switzerland and France, where excursions will be made to Chateau Thierry, Belleau Wood and Rheims. Other special features will be coaching through the English Lake Region; steamer trips on Lake Lucerne, Lugano, Como, Geneva, and a trip to the summit of Mt. Elg.

Students, especially Seniors, are invited to join the party. The special feature of the tour is the immediate organization of those who can go, into a class for the study of the traditions, the mind and culture of the foreign peoples to be visited.

Everyone interested in this proposition may get detailed information from Professor Farquhar.

### University Presidency Is Cosmopolitan Job

University president is not only called upon to make addresses, preside at meetings of the trustees, translate Greek and Latin at sight, teach a class now and then by way of diversion, know all the classics by heart. His ability and knowledge must extend further. Dr. Frank L. McVey, president of the University, is called on the telephone almost daily with requests for information such as whether Washington or Lincoln was the greater man, who discovered America before Christopher Columbus stumbled upon it, the spelling of various and sundry words. But the climax in questions came when a voice, nonchalantly inquired: "Which is right: them molasses, or those molasses?" It was like asking whether one should eat peas with a knife or a spoon.

**Advisors to Aid Freshman Class**  
Forty committeemen assisted by 400 advisors from the senior and the junior classes will direct the steps of the present freshman classes throughout the year.

The committee appointed by the Union will try to foster Michigan spirit in the yearlings and to acquaint them with Michigan's possibilities and activities. Beginning next week the committeemen, made up of representative men on the campus, will visit their respective charges at least twice each week and seek to aid them in any way possible.

The plan will be explained at the art and engineer assemblies next week, and offices for the committee will be maintained in the Union after that date.

—Michigan Daily.

..First Freshman—Going to get the mail old lady?

Second Freshman—(Who is taking Chemistry 1.) Yep—why?

First Freshman—How about hauling mine up too?

Second Freshman—Sure what's the formula for your box?

—Carolina Tar Baby.

One of the best and most recent additions to the automobile department is the Liberty twelve aircraft engine that came to the University through the War Department. The power plant follows closely along the lines of the aviation motor developed by the Packard Motor Car Company, who before the entrance of the United States into the War, built experimental aviation motors in anticipation of our entrance.

Few persons realize the great task involved in designing this wonderful power plant and the progress made in putting it on a production basis. The Liberty motor also included eight, six and four cylinder types but production was concentrated on the twelve on account of the great power. The eight at the close of the War was being used on combat and scout planes and single seaters.

Comparative tests with European planes indicated a marked superiority for the Liberty Twelve and the signing of the Armistice found England, France, Italy and others contracting for all the Liberty Twelves available.

The motor as it stands today has twelve cylinders set in blocks of six in the shape of a "V," the included angle being forty-five degrees. It develops 420 horse power at 1700 revolutions a minute, yet it weighs only 890 pounds. The cylinders are of 5 inch bore by 7 inch stroke, of steel forgings and water jacketed of pressed steel welded on. It has a seven bearing crank shaft, "I" beam type of connecting rods, "straddle type," and die cast pistons of Hall design. The overhead valves, operated by overhead cam shaft, are 2 1/2 inches in diameter in the clear. The aluminum crank case is of the box type, a deviation from the usual construction. The change was highly commented on and enthusiastically received by European engineers on account of the fact that maximum strength is obtained in combining light weight and simplicity. Lubrication is effected by a double deck oil pump with force feed to connecting rods, cam shaft, and main bearings, but the splash system is used for wrist pins, cylinders, pistons, etc. The motor is water cooled by a pump mounted on the rear of the crankshaft with radiator at front. The ignition is furnished by two Delco distributors each unit of which fires twelve cylinders and is equipped with a safety breaker to prevent backfire. Current is supplied by special 10 ampere, 7 volt battery and a generator. Carburetion is by two Zenith duplex carburetors mounted between blocks.

Mr. Singer is Technical Graduate  
The Automobile Department is under the direct supervision of David N. Singer who is a Packard technical graduate, and while with Packard gave the first six cylinder roadster the initial road test. Mr. Singer also has a road experience of over 250,000 miles as an amateur race driver. He came to the University with the S. A. T. C. and acted as an instructor in that unit. Since that time, Mr. Singer has rebuilt several machines, including the Mercedes and the Knox which he now owns, and has specialized in big cars since leaving Detroit. His acquaintance in the Bluegrass brings him quite a following among motorists and a more efficient and capable automobile engineer would be hard to find. He invites anyone interested in automobile up-keep and repair problems to visit the laboratory and have a talk with him.

### DEAN ANDERSON TO SPEAK IN MASSACHUSETTS

At the meeting of the Engineering section of the National Land Grant College Association at Springfield, Mass., Dean Anderson will deliver an address on "The Administration of Engineering Divisions." This association is composed of all the State universities in the United States. While away Dean Anderson will visit Worcester Polytechnic Institute at Wor-

chester, Mass. Massachusetts Institute of Technology at Boston and if his arrangements permit, will attend the Harvard-Centre game at Cambridge.

### MINING SOCIETY

Norwood Mining Society met last Thursday and elected the following officers: president, John Drummy; vice president, Monroe Bauch; secretary, Oscar Little; treasurer, E. N. Winkler; program committee chairman, V. L. Johnson. The membership consists of the Junior and Senior Miners and Metallurgists.

### A. S. M. E. AND A. I. E. E.

The student section of the American Society of Mechanical Engineers and the American Institute of Electrical Engineers met last week and elected officers for the year. Those elected were: A. S. M. E.—George Hillsman, president; E. O. Shultz, secretary and treasurer; A. I. E. E.—B. O. Hines, president; W. D. Thompson, vice president, M. J. McWhorter, secretary and treasurer.

The membership consists of the Senior mechanical and electrical students.

### Caught Awake in Class.

Monroe Bauch entered the "Hall of Engineering Shame" when he was caught awake in Mine Ventilation Monday morning. Professor Norwood in due recognition of the phenomenal incident gave thanks and dismissed the classes. Bauch has since become a sonambulist.

### Lost.

A Tau Beta Pi pin—most probably in Downing's Calculus. Return to John Marking.

In Senior football practice Monday Fred Shaw sustained an injury the same as the man who was hit in South Bend.

### Thermo-Conductivity

Some of the Senior Miners and Metallurgists have made divers and sundry experiments on some of the heavier metals in an effort to determine some undiscovered physical property.

One in his mercenary greed selected nickel. In order to determine the "thermo-conductivity" of said nickel, he raised the coin to an abnormally high temperature whereupon in his eagerness to fathom its mysteries, he disregarded the icy appearance of the unsuspecting buffalo, and picked it up. Today this promising youth bears the mark of the beast that made our Western plains so famous.

### Say You.

Would that the Senior Court could sentence all bright Freshmen fresh from high school to a course in "Kelllogg's toasted Thermo."

### THE DEAR GIRLS.

Never tell a girl you'll wed her—  
if you won't,  
You'll have good cause to dread her—  
if you don't,  
She will tell you you're a brute,  
Bring a breach of promise suit,  
Or maybe begin to shoot—if you don't,  
You may think perhaps you love her—but you don't,  
And you'll soon discover—that you won't,  
And you'll wish that you were dead,  
And you'll go and paint things red,  
And you'll want to soak your head—but you won't.

—(The Tattler.)

The Chinese Students' Alliance in America held three interesting sectional meetings in the late summer. The western section met at the University of California, the mid-western section at the University of Michigan, and the eastern at Princeton. A total of 590 Chinese students attended these conferences and took part in both Chinese and English in debates and oratorical contests.

### X-RAY EXAMINATION MADE

Ishmael Amburger Victim of Unusual Accident:

Ishmael Amburger, Ag. '24, who was knocked off the running board of a car by a South Limestone street car Monday afternoon, was reported by the Good Samaritan Hospital authorities as resting very well Wednesday. His injuries are not thought to be serious. It was at first thought that several ribs were broken, but this was found to be untrue upon examination by X-ray. He is, however, badly bruised and his left leg is lacerated over a large surface. His Lexington residence is at the home of Mrs. Charles Rogers, 129 West High street.

CHALLENGED

In the November elections and in the readjustment period of the next year college men and women are faced with the greatest challenge of the age. The storm of abuse and widespread misrepresentation that have featured the political campaign necessitate a careful study of the issues by men and women qualified by intellectual attainments to weigh such momentous questions. On the decisions of the next six months rest in large measure the hope for America's leadership in world affairs, her respect at home and abroad.

The conception of duty, individual and national, by intellectual men and women will rule the masses. A proper turn in the affairs of this nation will justify the hope of the colleges and universities of the land which have labored through the ages in the production of a better citizenship. The University of Kentucky looks with pride to its sons and daughters, believing that they will be an influence for the right in the momentous times just ahead.

A. E. Ewan, '08, is a leading hardware merchant at Greenville, Ky.

"Dad" Brigman, '07, is professor of mathematics in the Louisville Male High School.

Arnold Snoddy, '11, is assistant chemist for Proctor and Gamble at the factory in Cincinnati.

Announcement has been received of the marriage of Miss Lela Kerswill, '18 and Louis H. Bauer, '19 on September 23. They are living at 2125 Transit avenue, Louisville.

H. L. Poole, '15, is farming near Central City, Ky. He plans to visit Detroit during the winter.

Charles Petrie, '14, is farming at Fairview. Mrs. Petrie, formerly Miss Helen Desha, is enjoying the simple life with him.

Clyde P. Taylor, '15, has resigned as principal of the Tikton Ky. High School to accept a commission as first lieutenant of infantry U. S. A. A daughter born to Mrs. Taylor, who was formerly Miss Frances Hampton, of Elkton, a former Sayre College student, died October 3.

Dr. A. S. Reese, captain of the Wildcats in '99 and one of the "Immortals of '98," is practicing dentistry at Elkton, Ky.

R. A. Foster, '16, is principal of John Locke Training School at Elkton. Under his administration the school opened this year with the largest attendance in its history.

S. B. (Antimony) Coleman, '09, a former Wildcat is in the automobile business at Franklin, Ky.

William Wallace, '12, and Roy (Billy) Wallace are farming at Julien in Christian county.

George R. Burgess, Louisa, one of the old crowd is following closely the performances of the Wildcats this year.

Everett S. Penick, '16, has earned his title of "Judge" having presided one day over the Todd county court. "Judge" is practicing law at Elkton, is city attorney, master commissioner and a farmer on the side.

L. A. Darling '00, has perfected a locomotive head-light which is now on the market and is expected to bring him large returns in royalties. He is with the Electric Service Supplies Company, Philadelphia, Pa.

H. B. Darling, '06, is president of the Atlantic Refining Company at Atlanta, Ga. Mr. Darling recently sold a company which he had organized to the larger corporation of which he is now president.

George C. Lewis, '13 is vice president and general manager of the Solar Engineering Corporation, of Philadelphia, which was organized early in 1920 in connection with the American Heating and Ventilating Company. This is part of a wide spread system located in twenty-three of the principal cities of the United States.

During the war, while with Hersh Brothers, of Allentown, Pa., Mr. Lewis had direct or indirect charge of the heating installations for a number of industrial plants whose main business was the making of munitions. Among these were the Bethlehem Loading Company, Bethlehem Steel Company and the Baldwin Locomotive Works.

Installations for the Bethlehem Loading Company involved the employment of 300 to 400 steam fitters for four or five months. The plant at Mays Landing, N. J. was making shells nearly three months before the Armistice was signed.

Major William T. Carpenter, '18, Coast Artillery Corps, is on special duty with the Holt Manufacturing Company at Stockton, California in connection with the making of caterpillar artillery.

Roy Thomas, '13, is supervisor of Agricultural Education in North Carolina. His headquarters is at Raleigh.

J. Peter Ricketts, '17, is farming in the Ozarks. He was married in March to Miss Grace Yancey, of Owenton, Ky.

Miss Ola Logan Figg, '19, is at Park College, Parkville, Mo.

Miss Mary Stagg, '17, was married recently in Lexington to Bert Hardman. They are living at 1530 Hillside Terrace, Akron, O.

R. R. Taliaferro, '13, is with the Carrier Engineering Corporation at Philadelphia.

Berkley Hedges, '14, formerly with Carrier, is with the Du Pont Engineering Corporation at Wilmington. He is quite active in engineering circles in Philadelphia.

J. W. Wesson '15 is supervisor of grain inspections in one of the thirty-six districts in the United States, working under the Department of Agricultural. His headquarters is in Louisville.

Ruby K. Diamond, '19, is employed as an engineer by the city of Detroit. Diamond is helping to install a new filtering system for the city.

Robert Arnold, '19, will leave Detroit soon for Pittsburg, where he has been transferred by his firm, the American Blower Company.

Miss Mary Beall, '19 is teaching mathematics in Clintonville, Indiana High School.

Charles E. Plank, journalism graduate of '19, is a reporter on the Detroit Free Press. He is covering the new municipal court, and finding his U. K. training invaluable.

Frederick M. Jackson is editor of the Kentucky Union Farmer, the official organ of the Kentucky Farmers' Union. His headquarters is in Lexington.

Prohibition of all drinks having an alcoholic content exceeding 2.8 per cent. is recommended by a Government committee in Sweden. They also propose that absolute prohibition be submitted to a vote of the people and made effective if three-fifths of the electorate favor it.

Agriculture

By Robert Mitchell

E. M. Prewitt, Department of Dairying, has returned from a trip to Logan county and the western end of the State where he went in the interest of his department. In Logan county he was successful in getting farmers interested toward forming a testing association. Thirty-five out of the necessary one hundred and fifty cows were signed up and another trip for the purpose of closing the proposition will be made in the near future. The number procured represents herds of two and three animals only, so it can be seen that much was accomplished on this trip.

In the western section of the State the counties of Calloway and McCracken, where the dairy business needs a great deal of attention for the purpose of well establishing it, were visited and conferences were held with county agents regarding the purchasing of pure bred animals. In Christian county, the testing work which has been under way for several months was inspected with the result that great improvement in the dairy industry there was noted. The herd at the Asylum, located at Hopkinsville, which is under the supervision of Professor Hooper, was inspected and a remedy for a case of cow-pox was given the herdsman.

Mr. Prewitt is greatly pleased with conditions throughout the counties of the State where steps have been taken with a view of bettering the dairy industry, and thinks that in the near future many more communities will swing into line and that the close of this year will find Kentucky several rungs higher up the ladder in the matter of production of dairy products.

Agriculture and Home Economics Society met last Monday night. The program consisted of speeches from each of the men who made the trip to the National Dairy Show. Dunn had an experience which o'er shadowed all the others. If it hadn't been for Wedekemper, Farmer might have had to come to the rescue by using his diplomatic facilities, which he carries with him at all times in order to restore peace and harmony in Indianapolis.

Two changes were made in the Constitution and By-Laws of the society. In the future instead of meeting every Monday night at 7:30 o'clock, the meetings will be held every Monday evening at 7 o'clock.

The Blue Grass Farmer, section of The Lexington Herald, of October 18, prints an article on hog cholera written by Dr. W. W. Dimmock, head of Department of Veterinary Science.

In the article Doctor Dimmock explains the diagnosis and prevention of the dreaded disease which claims as its toll a large number of hogs each year, and, "at the present time hog cholera is quite prevalent and on the increase in central Kentucky."

Doctor Dimmock is well qualified to speak upon swine diseases for he has many years of practical experiences and much training in that particular field. He was graduated from the Connecticut State College in 1901 and received his veterinary degree in 1905. In 1908 he was granted a degree in of Havana. In Cuba a law was passed several years ago which requires that a person engaged in veterinary work must be graduated from that University, but as an honor to Doctor Dimmock he was required only to stand an examination. At present he is chairman of the Committee on Differential Diagnosis of Infectious Swine Diseases for the United States Live Stock Sanitary Association.

C. W. McCampbell head of Department of Animal Husbandry at the Kansas Agricultural College located at Manhattan, visited the Experiment Station last week. Mr. McCampbell visited several farms in the Blue Grass before leaving Lexington for his home.

Those who are trying-out for places on the Fat Stock Team which leaves for the International about November 23, are making several trips a week to surrounding farms and judging ani-

mals. Some of the finest animals in the country are to be found in the Bluegrass. Professor Horlacher says that the class is doing excellent work and he is looking forward to leaving for Chicago with a team that can do as much for the University of Kentucky at the International as did the Dairy team.

Last Friday the men went to Mt. Brilliant Farm for a work-out and were entertained at dinner by Louis Lee Haggin, owner of the farm. Friday the class went to Mayfield Farm to judge hogs. Saturday the class went to the farm of B. A. Thomas in Shelby county for the study of Shorthorns and to the farm of George Woodruff to study Shorthorns, Belgian horses, and Lincoln sheep. Tuesday they visited former Senator Camden's place on the Versailles pike to judge Herefords and Saturday they will study Hampshire sheep at Walnut Hall.

D. Y. Dunn has come out for the team. In view of his work done on the Dairy Team, which placed the University in third place at the National Dairy Show, he should add strength to the class.

There are now seven men out for this work but there should be at least six more.

Professor J. J. Hooper has gone to Atlanta where he will act as referee of the Southern College Student Judging Contest to be held at the Southeastern Exposition. He is also to be the judge for all dairy breeds which will be shown there.

"Hub" Bennett, '20, visited Lexington last week.

Ray Gilbert, '20, is salesman for the Louisville Seed Company.

"How and Why Prohibition Came

to America," by Harry S. Warner, of the Intercollegiate Prohibition Association, has been translated into Japanese and a copy given to every member in both houses of the Imperial Diet, which is now in session.

The Drama

By Fred K. Augsburg

At the bottom of the heart of every comedian is the melancholy ambition lock; Mansfield insisted on playing to be a tragedian. Nat Goodwin practically ended his career with Shy-Brutus; David Warfield has long cherished the hope of being seen in "The Merchant of Venice" and even Laurette Taylor less than 18 months ago undertook to show the critics how Shakespeare should be interpreted. And now comes Louis Mann and appears in "The Unwritten Chapter," a revolutionary costume play, in which he discards his dialect and slips off his artistic past as easily as though it were a coat.

William Kavanaugh Doty, former student of Transylvania College, was a visitor on the campus recently. Doty is the author of a playlet entitled: "One Night in a Garden," which is adapted from James Lane Allen's "The Mettle of the Pasture."

Briefs From Broadway.

Frances Starr has made her season's bow to New York at the Belasco Theatre as the heroine in a dual role in a new play, "One," by Edward Knoblock.

No less than five new productions are scheduled to open in New York this week, which shows that October is a month of great activity in the theatre.

Initial scenes in "Fine Feathers," Eugene Walter's picturization of his successful stage play of the same name were screened recently at the Comedy Theatre in West Forty-first street, New York. The scenes show a typical theatre crowd watching a successful Broadway play.

Rehearsals of George V. Hobart's new play, "Sonny," which the Selwyns are shortly to produce, have begun with Emma Dunn and Lillian Lorraine in the leading roles.

Eugene Walter's new comedy drama, "The Toy Girl," will be produced in New York during election week. It is also reported that Walter has just completed a new piece for David Belasco and that "Under the Northern Light," another of his writings, will soon reach Broadway.

William De Mille will film "What Every Woman Knows," Sir James M. Barrie's noted play in which Maude Adams starred on the speaking stage.

AMATEUR NIGHT.

Applications are being received daily from those desiring to demonstrate their histrionic ability on Amateur Night. All acts must be ready to "go on" by next Monday, and applications will be received up to Monday noon.

Norma Rachel, known as "Cookie" to the members of last year's cast, was a visitor at the University recently. Miss Rachel was also in the cast of the 1918 production, "Mice and Men."

Walker Whiteside was seen at the Lexington Opera House last night in Carol Mason's dramatization of Robert Louis Stevenson's story of romance and adventure, "The Master of Ballantrae."

The following article taken from The Billboard, gives an interesting account of Mr. Sax work in establishing the Vagabond Theatre, Baltimore:

"The Vagabond Players are among the two or three oldest little theatres in the country. Its establishment fol-

lowed the visit to Baltimore in June, 1916, of Miss Constance D'Arcy Mackey, who came to direct the tercentenary Shakespeare pageant. Mrs. James Nathan and Carol Sax, who were also on the board, became inspired by Miss Mackey's enthusiasm and, ably seconded by the late Charles G. Kerr and Mrs. Clement Penrose, worked to such good purposes that the first performance of the Vagabond Players took place in November 1916.

"The incorporation of the players, was successfully undertaken last spring. There are now 75 voting members."

Do You Know That—

For the first time since its premiere twenty-one years ago, there will be no production of "Ben Hur" on tour this season. This is probably a result of the dissolution of partnership between Klaw and Erlanger, who jointly hold the rights of the play.

"Dear Me," co-starring Grace LaRue and Hale Hamilton at the Opera House last week was one of the most delightful plays seen here in recent years. The optimistic comedy is the work of Luther Reed and Hale Hamilton and is typical of John Golden, producer of the successes: "Lightnin'," "Three Wise Fools" and "Turn to the Right."

Among plays under the consideration of the committee for 1921 production of the Strollers are: "The Prince Chap," "Daddy Long Legs," "The Ideal Husband," "The Admirable Creighton," "Lady Windermere's Fan," and "The Girl with the Green Eyes."

Seldom has a Bluegrass audience seen an artist who could get her personality across the footlights as well as Geraldine Farrar did Friday night in her delightful concert at the Woodland Park Auditorium. Miss Farrar was so gracious in giving encores that after one number she responded six times. The concert was a success both artistically and financially, and Miss Goff is to be congratulated for so successfully promoting the venture in a city of this size.

TO BE OR NOT TO BE

I'd rather be a Could Be,  
If I could not be an Are.  
For a Could Be is a Maybe  
With a chance of touching par  
I'd rather be a Has Been  
Than a Might Have Been by far  
For a Might Have Been has never been.  
But a Has was once an Are.

Andy McCoy of Wichita, a Freshman in the college of Emporia, Kansas is paralyzed below the waist as a result of hazing by upper classmen. He was struck with a paddle.—The Maine Campus.

LEXINGTON ALUMNAE CLUB HOLDS MEETING

Resolutions Are Adopted on the Death of Elizabeth Waddy, Class of '14.

The Lexington Alumnae Club held the first meeting of the year, with Mrs. C. J. Smith at her home, Wednesday afternoon, October 13, and plans were started for the club's work this year. Margaret McClure, '20, was elected secretary-treasurer to succeed Margaret Tuttle, '19, who resides now in New York City. An afternoon tea, Tuesday, October 26, at Patterson Hall will open the social meetings of the club. The next plan to be developed is the benefit for the student loan fund. The tentative date for the benefit is Saturday, November 6.

The following resolutions on the death of Elizabeth Waddy of the class of '14, were adopted by the Alumnae Club:

"The Alumnae Club of the University of Kentucky was organized many years ago by a group of women, graduates of the University, for the purpose of association and the strength and influence that come of unity. Annually the club becomes more valuable because of the addition of members from the senior class. Many times the club has been called upon to give up members who went to other fields of interest and endeavor and always the parting was brightened by the hope of a coming back again."

"When the members convened for the first meeting of the season 1920-21 it was with saddened hearts they realized the absence of one for whom the hope of 'a coming back again' must be denied. In the beautiful month of July, when love and life and beauty make all akin, Elizabeth Waddy, of the class of '14, a truly loyal member of the Alumnae Club answered the call of her Creator and the Designer of all that is beautiful gathered her lovely soul to His own.

"A lull in the first meeting, a silent prayer for her, for those she loved, for ourselves and this expression, is our tribute to her memory.

"Be it resolved therefore that we extend our sympathy to her father, Dr. R. B. Waddy, and that we publish these resolutions in the columns of The Kernel, the official organ of the Alumnae Association of which the Alumnae Club is a part.

"Marguerite McLaughlin,  
"Edith Isaacs Neil,  
"Margaret McClure."

Miss Catherine Tucker who was graduated from the University last year is now teaching in Maysville High School. Miss Tucker was one of the most popular women in the University and the following article which was taken from the "Maysville High School Advocate," proves that she has been both popular and successful as a teacher:

Miss Catherine Olivia Tucker came from Lexington. She was graduated from Hamilton and from the University of Kentucky, where she held a high place in all student activities and in the hearts of all who knew her. She entered bravely into M. H. S. and started her work with vim. Very thoroughly prepared she now leads us into the mysteries of Caesar and Virgil making our heavy burdens as light as possible. Not only do the Freshmen say unhesitatingly, "Miss Tucker est pulchra," but the higher classes have been wearing broad smiles and loud neckties as well. In fact we are all beginning to fear that she will take away our hearts (as well as our chewing gum). Do be careful, Miss Tucker.

This is her first year as a teacher and since she had made the right start with us we are all going to try and repay her in every way we can.

"Miss Tucker, we are extending our hardest welcome to you and we are really very glad that you belong to M. H. S.

—Maysville H. S. Advocate.

In Selecting a University—

For a college education, there are five things to be taken into consideration:

1. The men at the head of the Institution.
2. The scholastic standing and ability of the Teaching Staff.
3. The location and advantages of environment.
4. Equipment, buildings, laboratories and libraries.
5. Cost.

In all these respects the University of Kentucky commends itself to those seeking a higher institution in which to carry on their education.

All Departments, including Liberal Arts, Sciences, Agriculture, Law, Education, Mining, Civil, Electrical and Mechanical Engineering.

The Government needs trained men and women; college training will bring the result.

FOOTBALL ATHLETICS TRACK

By Gerald Griffin and Garry Rooms

MIAMI VICTORIOUS IN BATTLE WITH WILDCATS

Kentucky Holds Big Red Team to Small Score With Crippled Backfield.

CATS BEST FIRST HALF

In one of the hardest fought games ever staged on Miami Field the blue clad warriors of old Kentucky went down to defeat before the strong Miami team last Saturday by the score of 14 to 0. From the kickoff to the final whistle the two teams battled ferociously for supremacy and it was not until the final moment that victory for the Ohioans was assured.

During the first period the Wildcats had things their way, making first down six times. Fuller received the ball, on the initial kickoff and was gone for a touchdown when he was downed by a Miami player. Then the Kentucky backfield carried the ball down to the very shadow of the goal posts where they lost it on attempting a place kick. During this quarter the Oxford boys showed a tendency to kick as soon as they received the ball, apparently afraid to run with it. This was Kentucky's banner period and they threatened to score time and again but costly fumbles deprived them of the chance to tally.

The second period was a duplication of the first with the exception that Miami held the upper hand and made seven first downs, but were unable to cross the line so gallantly defended by the men in blue.

In the third quarter Davis and Wolf, with splendid interference, carried the pigskin to Kentucky's three yard line by a series of cross bucks. At this point the Miami "Wolf" broke through center and made a touchdown. Munns kicked goal making the score 7 to 0.

At the beginning of the final period Kentucky kicked off from the twenty yard line. McGinnis received the oval and skirted sixty yards for a touchdown. This was one of the longest runs ever seen on Miami Field and was the second and final touchdown of the game. Munns again kicked goal and the score stood 14 to 0.

The entire Kentucky team fought hard and played real football but was unable to get ahead of the fast Miami bunch which is unusually strong this year and has one of the best backfields in Ohio. Pribble was the most consistent ground gainer for the Bluegrass lads, making the spectators gasp as he plowed thru the Big Red line of the Miami team. Lavin guided the team brilliantly and showed the Buckeye rooters just why he is rated by one of the Cincinnati papers as one of the greatest open field runners of the South. While unable to get away for any long runs he made several good gains and played until he dropped from sheer exhaustion. Shanklin and Fuller played good ball but were injured during the early part of the game and this kept them from playing their usual game.

The work of Kentucky's line was of the highest order and they played their opponents to a standstill. Colpitts was more than a match for the guard who played against him. The Miami guard outweighed him 50 pounds. Fest, at center was too much for the Miami lad who played opposite him. Captain Murphree and "Big Jim" Server, the incomparable pair of tackles, outplayed the opposing nabers from every angle of the game. Server outplayed the Miami booter but the wearers of the crimson were expert at running back punts and gained quite a bit of ground this way.

It was "Home Coming Day" for the alumni of Miami and an enormous crowd turned out to see Kentucky go down to defeat for the first time this season. They saw the Wildcats meet defeat with colors flying, each man

Pribble was a consistent ground gainer in last Saturday's contest.

TRACK TEAM TO BE IN TURKEY DAY MEET

Coach Buchheit is rapidly whipping the candidates for the Blue and White team into shape and expects Kentucky to be well defended on the field and cinder path this year. The fall workouts are developing some promising athletes and the competition on the squad is bringing out the best from every man.

A meet has been scheduled for Thanksgiving day at Louisville and the men who show up the best in practice will be taken to compete with strong rivals in upholding the colors of old Kentucky.

The following men make up the squad: Hayden, Shrieves, Snider, Sturges, Funkhouser, Bryant, Wolf, Stallard, Sharky, White, Mulloy, Nantz, Moore, Coleman, Porter, Smith, Spillman, Tyides, Maraney, Clark, Clar, Raible.

fighting for the honor of old Kentucky and the glory of the team.

The line-up:

Kentucky	Pos.	Miami
Zerfoss	L.E.	Essig
Server	L.T.	Angle
Baugh	L.G.	Orth
Fest	C.	Hale
Colpitts	R.G.	McNalley
Murphree	R.T.	Crouse
Heber	R.E.	Wire
Lavin	Q.B.	Davis
Fuller	R.H.	McGinnis
Shanklin	L.H.	Wolf
Pribble	F.B.	Munns

Score:  
Miami ..... 0 0 7 7—14  
Kentucky ..... 0 0 0 0—0  
Substitutions—Miami: Hawk for Hale; McDiarmid for Wire; Predmore for Crouse; Pagan for Wolf; Wire for McDiarmid; Work for Wire; Sombahl for Work; Fox for Davis; Devoss for McGinnis; Wright for Ragan; Holtzmueller for Predmore; Ewing for Angle. Kentucky—Wilhelm for Shanklin; Cameron for Heber; Rice for Zerfoss; Wiley for Fuller; Thornton for Lavin. Marty, Referee; Ress, Umpire; King, Headlinesman.

SEWANEЕ TIGERS TO INVADE STOLL FIELD

Kentucky and University of the South Are Evenly Matched.

EXPECT LARGE CROWD

Saturday afternoon at 3 o'clock the Wildcats will meet in battle the purple clad warriors from the mountains of Tennessee. Sewanee has an excellent team and has not lost a game this season. Two weeks ago Georgetown was humbled by the Tennesseans by the score of 55 to 0, but tomorrow Kentucky will wreak vengeance on the Southerners not only for our poor town-trodden neighbor but also for the last defeat, which was handed her in 1916 by the boys from the Mount.

For the last several years there has been the keenest rivalry between Kentucky and the University of the South. In the last four games the honors have been evenly divided, the Wildcats winning one, losing one and tying two. Last year when Sewanee was beaten by Kentucky it was the first time in all the history of the school that victory had not crowned the efforts of the mountain lads on their home field.

The blue clad pigskin artists are all in good shape and are eager to meet Sawanee. They are not at all disheartened over last week's defeat but on the contrary have the utmost confidence in their ability. The slight victory of Miami over the Wildcats served merely to bring to light the defects of the team which will be remedied before tomorrow's game. Several new plays will be used to insure a victory for the Blue and White.

Stoll Field will be the scene of one of the hardest fought games of the season when Kentucky brings Sewanee to her knees tomorrow. Every one is expected to turn out and make the air resound with mighty yells to strike terror into the hearts of the mountaineers and to cheer the Wildcats on to victory.

Among Our Rivals

- Centre 55; Transylvania 0.
- Georgia Tech 44; Vanderbilt 0
- Sewanee 21; Oglethorpe 13.
- Denison 21; Cincinnati 0.

CLOTHES THAT ARE A STEP AHEAD —

You'll experience a certain "well dressed" feeling the moment you try on one of our new fall suits.

Possibly it's the ultra smartness of the style, the perfect workmanship of the tailoring, or the distinctive way it fits over the shoulders.

We believe it's a combination of all these qualities, but at any rate these garments are undoubtedly the best we have ever shown.

Your satisfaction is guaranteed.

## WILDCAT CAPTAIN FAILS AS MODERN DON JUAN

### Murph Gets Thick With Stranger's Suit Case; Husband Writes.

Murderers are hanged, home wreckers are shot and those who steal kisses are slapped, but what are we to do with a guy who will pick up a woman's suitcase and deliberately walks off with it, right in broad daylight, too?

The guy in the case is none other than Eger Von Murphree, captain of the Wildcats.

Here is the way it happened. On the trip to Miami the team spent the night at a well known hotel in Cincinnati. The various members of the team slept, slumbered and snored, one, two, three, four, five and six in a room. The morning after they awoke and made a mad rush for breakfast.

"Murph," being not so rapid in the art of mastication of water, milk, toast, butter and whatnot was a little late in his debut toward the trolley car. Thusly when he saw it rushing past he snatched the suitcase, which he thought was his, and finally succeeded in catching it. Ah, how happy he was!

On the way over he enjoyed kidding a certain rural person about a grip which had fallen from the rack by telling him that it was leaking. Yet he little suspected the deadly contents of the leather bag by his side.

When he prepared to dress for the contest he opened the satchel and lo, behold—by gosh, gee, if it wasn't some of this translucent material worn by actresses and whatnots. Well there was: hose and hose—and a? and a?—and a soft filmy piece of carnation pink material that could not be used as a bathing suit, and a skirt, and a garter and another garter and, we know this sounds awful, but there was a—er—a—box of cakes.

Of course Murph could not wear the pajamas in the first half and the!—! in the second half because they would not fit so he was content to be kidded by the rest of the squad. Being afraid the cakes would not keep, the team helped him to eat them, thanks to the lady of the lost suitcase, they were fine.

"Murph" had a communication from the husband of the lady and he is going to return the grip immediately. The husband took it good naturedly and remarked, "I'll bet you enjoyed the game if you played in the pajamas." Murph has received his grip and also a lesson: "Never run off with the suitcase of another for it may mean a box of delicious cakes."

### Kentucky Sportmanship Is Commended by Miami

President McVey has received a letter from President Hughes, of Miami University, an excerpt of which follows: "I cannot pass this opportunity to congratulate you on the football team you sent up here last week. Our team was fortunate in defeating them by a small score, quite contrary to their expectation. I think they surprised themselves as much as anybody. But the game was the cleanest I have ever seen played on any field. There was only one penalty against your team, and that was for some technical violation of off-side play, I believe. Our team was penalized two or possibly three times. The game was a very hard fought contest but so far as I could see it was absolutely free from anything any one could criticize as unsportsmanlike in the least degree. It certainly was so far as your team was concerned.

It certainly is a pleasure to see a game of this kind played on a high plane as Kentucky plays, and they have won my entire admiration by their sportmanship.

May I at the same time express my appreciation of the fine spirit of the men in the football squad. They have my congratulations and best wishes.

Diamonds have been discovered in fallen meteors.

## MEGAPHONES FOR SEWANEE GAME

There will be no excuse for not making noise at the Sewanee game tomorrow because "Daddy" Boles, at the urgent request of Yell-leaders Ringo and Hukle, has wired a firm in Chicago to send 1,000 pasteboard megaphones which will be here by tomorrow and will be on sale at the bookstore. The voice amplifiers will be decorated with the yells "Su-Ky" and "Meow" on one side and a large blue K on the other. The price of these valuable implements will be very low, only a few cents and there will be no excuse for the student body not arming itself and making noise enough to strike terror into the hearts of the mountaineers of Tennessee.

## KENTUCKIANS FIRST

Among the football enthusiasts going to Cambridge for the Harvard-Centre game are many of the most loyal followers of the Blue and White. When the big game starts they will be indistinguishable from the sons of Centre. This is the magnanimity of spirit which a former president of the University was so anxious that the undergraduates and alumni should possess.

When the Wildcats and the Colonels meet on Stoll Field November 13, Home Coming Day, these excursionists to Cambridge will be in the center of the Blue and White boosters, cheering on the Wildcats in that spirit of rivalry that makes for the benefit of all engaged in the competition. Such a feeling augurs well for the two institutions and for the people of the Commonwealth.

## GREEK, 15 YEARS OLD, YOUNGEST FRESHMAN

Spiros Vineratos, 24E, only 15 years old, is the youngest Freshman on the campus. He completed the work in the gymnasium in his home town of Argostoli, on the island of Cephalonia, Greece, and came here to study marine architecture.

His father, mayor of Argostoli, came with him as far as New York, but from there he came alone. Vineratos has had only two years of English at his home, and although he can read quite fluently, he has difficulty in understanding the lectures. He has no friends or relatives in America, but he expects to remain here during the four years of his course, before he returns home.

—Muskegan Daily.

## Y. M. C. A. TIGERT SPEAKS

Dr. Tigert spoke to a large group of young men in the Y. M. C. A. rooms Sunday night. The subject of his address was "The Elements of Successful Leadership." "There is more room at the top of the ladder now than ever before," said he, "but it takes real men to fill the places. To be a real leader one must have a consuming enthusiasm, be unselfish, have high aims and be willing to cooperate with others. Service, happiness and contentment are the ultimate aims of well spent lives."

### Membership Campaign.

The Membership Campaign which started Tuesday is going strong and by the end of this week every man on the campus will have been given an opportunity to become a member of the Y. M. C. A.

### Y. M. C. A. Billiard Room

The billiard room was opened Wednesday and many students are finding in it very pleasant recreation. The association has spent \$200 on the tables and they are in excellent condition. A charge of ten cents a cue an hour is being made to keep up repairs on the tables. Mr. Peak will have charge of the room mornings and Thomas Gregory afternoons and evenings. All students are invited to come in and play at their convenience.

## BATTALION MAY GET HIGH CLASSIFICATION

Blue and White Shoulder Patches Being Considered.

The cadets of the University are making a strong endeavor to gain the rank of being classed as a "Distinguished College of Cadets," a position requiring merit in honor, scholarship, attendance and training. Commandant Freeman and Major Tucker hope to have the University cadets to be eligible for admission into this college.

A plan is being considered to provide the cadets with patches for the right shoulder of the uniforms, resembling the divisional patches worn by over seas men in the service. The design for the unit will be a white Wildcat on a blue background and will be handled through the University book store.

### Cadet Hops After Thanksgiving.

There will be one cadet hop every month after Thanksgiving, and, in addition, a Military Ball, February 22. Only cadets and especially invited guests will attend the hops this year.

DEPARTMENTAL CLUBS

By Arthur L. Hodges

Shaler Geological Society

The Shaler Geological Society held its first meeting Monday, October 11. The following officers were elected for this semester: president, Howard V. Tygrett; vice president, Lee Oldham; secretary, Ray G. Greene; treasurer, C. C. Anderson. The program committee appointed consisted of Lee Oldham, Lafayette Herring, and M. K. Cooke.

Interesting talks were made by C. E. Perry, Lafayette Herring and Ray Greene, Perry, who has been associated for the last several months with the Tennessee Geological Survey spoke on the structural conditions of Tennessee. Herring gave an account of the subsurface conditions affecting the co-called "beaver" sand in the various parts of Warren county where he did some work this summer. Greene, who was employed by the Standard Oil Company in the mid-continent oil field gave an interesting account of the condition causing the accumulation of oil in Kansas. The next meeting will be held Monday night, October 25 at 7:00 o'clock.

Henry Clay Law Society

The meeting of the Henry Clay Law Society held on Thursday, October 14, was attended by a majority of the law students who seem to be taking more interest in the society. The Constitution, which was evidently lost during the war, had to be replaced, so another Constitution was adopted. Following this, a short but very interesting program was held, as follows: Burchett addressed the society on the subject: "The benefits of a good law society." In which he portrayed the prospects for the year and told of some of his past experiences in different societies with which he has been connected.

The gist of his speech was that everybody in the society must work together towards accomplishing some ideal. Boyd gave a worthy discussion of the "Absent voters law," in which he told of the proceedings to go through in case students are away from their legal domicile. Contrary to every speech that has been made in regard to the coming election he made a real non-partisan appeal.

The last number on the program was an essay on "Law versus Mob Violence," in which the lawless outbreaks in the United States during the last two years were portrayed and an appeal was made to the American people to obey the law. The society meets in the Science Building every other week at 7:30 on Thursday evening.

PRE-MEDICAL SOCIETY

The Pre-Medical Society met Monday night in the Science Building and organized for the year. Doctor Fryor made a short talk to the society and read an interesting letter from Virginia Helm Milner, president of the society last year, who is now at John Hopkins University. Miss Milner was very popular on the campus an her

many friends were glad to hear that she liked her work. She said that her respect for the pre-medical course here was increasing daily. W. G. Walker, vice president of the society last year presided at the meeting until the election of the president. The following officers were elected: W. R. Wilson, president; Mary Gibson, vice-president; Esther Fertig, secretary; J. O. Nall, treasurer; C. V. Watson, publicity secretary; Ted Griffin, Walter Coleman and Mary Sweeney were named as program committee.

Y. W. C. A.

The Y. W. C. A. met at Patterson Hall Sunday, October 17, to discuss the "Personal Membership Basis." Fannie Heller, Edna Snapp, Lulu Blakey and Bernice Young each gave a short discussion of the different phases of this new membership basis. According to its requirements a girl does not need to be a church member to become a member of the Y. W. C. A. She must, however, take the following pledge: "It is my purpose to live as a true follower of the Lord Jesus Christ." The meeting closed with a reading by Lucille Yungblut.

SOCIETY

University Woman's Club

The first autumn meeting of the Woman's Club of the University was held at Patterson Hall Friday afternoon. The hostesses were the members of the executive board, Mrs. Shelby T. Harbison, Mrs. Charles Judson Smith and Mrs. A. M. Harrison.

Miss Adealade Crane, who has returned to Patterson Hall as director after spending a year in Asia Minor with the Commission for Relief in the Near East, gave a vivid account of her thrilling experiences in being besieged and shelled by the Turks, and a description of the work which is being done among the starving people by Americans.

After her interesting address tea and cakes were served by the hostesses. There was a large attendance of old and new members, and the prospects for work and enjoyment this year are very bright for the club.

Identification.

A neighbor, seeing the seven-year-old daughter of a geologist playing with a bedraggled but cherished kitten, asked her what her pet was called.

"Well," replied the precocious youngster, "that depends. Father calls her a segregation from an intrusive magma of doubtful genesis; mother refers to her as the basement complex; Sister Helen insists that she is a typical example of secondary impoverishment, but I just call her my dear little kitty."

—Exchange

Burma University, of Ragoon, is building a new plant, and the government will pay one-half of the cost of construction. The Baptist Church, which controls the institution, is paying the remainder of the cost.

HISTORY OF SMITH HALL NEW WOMENS DORMITORY

Formally a School for Girls With Many Famous Graduates

The old Gordon property, now Smith Hall, Harrison Avenue, recently purchased by the University of Kentucky for an additional woman's dormitory is a beautiful home over a half a century old. For years this property was Christ Church Seminary for girls. Later, it was converted into Gordon's School for Boys.

In an interview Miss McCauley said: "This home, one of the oldest and finest in Lexington, was built by my father, John McCauley, years before the Civil War, when houses were constructed in the right way. It stood on six acres of the best land and surrounded by one of the finest orchards. The foundation of the house was left to settle for months, and throughout was finished with handsome wood-work.

For years this property was Christ Church Seminary with Doctor Silas Lotten at its head. Many prominent persons were educated there. Her devotions to her former teachers, the Lottens, lasted through life.

Professor Gordon later bought this property and used it as a school for boys.

This property, now Smith Hall, is under the direction of Miss Berkeley, who as the supervision of twenty girls.

Seven Ages of Man.

- First age—See the earth.
Second age—Wants it.
Third age—Starts to get it.
Fourth age—Decides to be satisfied with half of it.
Fifth age—Becomes still more moderate.
Sixth age—Now content to get a strip six feet by two.
Seventh age—Gets the strip.

It may be that England can't carry out her policy in Ireland because she is kept too busy carrying out constables. — Davidsonian.

Military News

By Katherine Conroy

West Point Appointments

Senator A. O. Stanley has two appointments open for entrance to the U. S. Military Academy, at West Point, and Hon. King Swope, of the eighth District and John W. Langley, of the tenth District each have one open. University men from either the eighth or the tenth Districts who are interested in getting an appointment may apply to Senator Stanley.

"Morale" is the subject on which Dr. John J. Tigert of the Psychology Department of the University will lecture to the Freshmen men in chapel, Monday, October 25. This is a subject of interest to everyone and all who wish to hear the address are urged to come.

The following cadet captains have been tentatively selected: Company A, Silas Wilson; Company B, J. J. Gibson; Company C, Gerald Griffin; Company D, Wm. R. Hutchinson; and Company E, Harold Enlow. The selection of these officers is subject to change, and the final list of non-commissioned officers will be announced later, after giving the men a trial and determining their merit in each grade.

CADETS GIVEN CHAPEL SEATS

Seating arrangements for the cadets in chapel have been completed and a diagram of the numbered seats will be found on the bulletin board in the Alumni building. According to the arrangement, formation will not be held on the campus, but instead each cadet will attend individually and be checked by the number of the seat he occupies.

Get Your Discharge

Miss Graddy requests all ex-service men who sent their discharges to the Registrar to call for them at once.

Some Tight.

Late Arrival: "What's the score?"
Early Arrival: "Nothing to nothing."
L. A.: "Must be a good game, huh?"
E. A.: "Dunno. Ain't started yet."

PATT HALL PERSONALS

Thompson Van Deren, Alleen Lemons, Katherine Megibbon and Mary and Minnie Peterson spent the week-end at their homes in Cynthiana.

Louise Meyer of Louisville was the week-end guest of Angie Hill.

Mary Colvin and Louise Stuart spent the week-end at their homes in Frankfort.

Anna Laura Atwood and Anna Mae Covington of Danville spent the week-end with Lorraine West.

Lucile Blatz of Louisville spent the week-end with her sister, Dorothy Blatz.

Zerelda Noland, who is teaching at Athens, spent the week-end with Elizabeth Brown.

Mrs. Fred Kraft, Virginia Kraft and Louise Will of Louisville were the week-end guests of Elizabeth Kraft.

Lucy Dean, who is teaching in the Richmond schools, spent the week-end with Bernice Young.

Mrs. S. R. James of Louisville was the week-end guest of her daughter, Mary Elizabeth James.

Margaret Short spent the week-end with Miss Allender of Lexington.

Mr. and Mrs. Wells and Geneva Wells, of Frankfort, spent the week-end with Laurine Wells.

Margaret Ford spent the week-end with Miss Allender in Shelbyville.

Gertrude Wallingford, and Margaret Jameson spent a few days at their homes in Cynthiana.

Mrs. J. G. Peak and Miss Mildred Reese spent the week-end with Jessie Fry Moore.

Mrs. N. L. Weakley, enroute to Philadelphia, stopped with her daughter, Katherine Weakley, for a few days.

Fannie Heller spent the week-end at her home in Paris.

MODEL HIGH WINS.

The University High School, known as Model High opened the season last Saturday by overwhelming the Carlisle High School team 61 to 0. As the score indicates the lads from Carlisle were no match for the fast Lexington aggregation coached by George Ruchheit. Model High expects to have the most successful season it has ever had and they will be a serious contender for the State High School Championship.
