My dear, Annie

years of the 31. Dec was rec'd last night, & we were pleased to hear of the good health of the children & that you had a pleasant Christmas. The holidays passed off here with the usual noise of guns & crackers - keeping your mother & me awake nearly all the night of New Year, & to add to the confusion, at midnight, as the ~~minute~~ hand of the clock pointed to one minute past 12, & the new born year was fairly launched on the stream of time. The Bells of all the Churches & even the old foggy of the Court house burst out into a merry peal of about 15 minutes duration. setting to defiance any hope of sleep or even of closing the eyelids - We however lived through it all & your mother has been improving ever since - she is now able to sit up 3 or 4 hours in the course of the day & amuses herself by working on some of her unfinished Scrap Books - my nursing is getting rather lighter, having to rise only once at night & treat her a bowl of cocoa, to recruit her wasted flesh - However she looks better than you would expect after a hard campaign of six weeks continuance - she still feels a tingle of the

of the ill effects of the disease, in nocturnal pains
of the limbs & joints, but they have not swelled, as
they sometimes do —

Should your little ones, by ill luck, take the scarlet
fever, tell the doctor to keep them in a cool room
with little or no fire — plenty of cold air to breathe
& cold water to drink — do not give any purges
until the disease is over — if the throat is sore, &
full of phlegm, an Emetic of Ipecac — may be use-
ful — & if ulcerated or inclined to aphthae, use a
solution of chlorate of potash — one of the best of
remedies for the throat, & for the fever, Tincture
of Veratria virida — well known to intelligent modern
Physicians — To allay the itching of the skin, rub
or coat it, with the fat of Bacon, or Lard, applied
with a feather, all over the Eruption — every 4 or
5 hours — also bathe them with tepid water —
The throat, if swelled may be bathed with sweet oil, or the
same Bacon fat, & covered with one thickness of cotton
plannel — If the eruption is full all over the body, it
is better than a partial one —

Probably Dr. Newton, would treat the disease better
than your old Doctor Van — It is a disease, like the
measles & other eruptive affections, which must run
their course, & the less you interfere with it the better —
Probably the woman at Hallett, did little but keep them cool
& give water for drink — common sense is a valuable arti-
cle in all diseases, as well as other affairs — we send a big pile
of love to your John & the little ones — yours — S. P. Hilditch —

Dear Sir,

We beg to hand you a conveyance from ourselves to the Kentucky Coal Oil Co, of certain mining privileges, together with the original documents conferring these privileges, and shall thank you to hand over these documents to Mr May, on his giving you stock certificates of the Ky Coal Oil Coy for Forty shares in name of our S C. - or a written obligation to do so, without reservation, within fourteen days from this date.

We also hand you copy of this conveyance which you can give to Mr May or his legal adviser should they wish for such - this will obviate the necessity of your giving up these documents until the above conditions are complied with.

Yours truly

J. W. Cairns

[Feb. 4, 1859]

Whereas J. W. Cairns of Arkland Ky obtained on the 17th day of March 1858 certain privileges to mine Coal and in Lands owned by R. M. Biggs of Arkland, which privileges together with their accompanying restrictions, are fully set forth in an Instrument made by the said R. M. Biggs on the above named day.

And whereas the said J. W. Cairns have located the boundaries of these within which the said privileges exist in the Mount Savage Land belonging to the said R. M. Biggs as follows. Beginning at a point twenty poles North East by Compass, from the mouth or entrance of a coal drift, being the most westerly drift from which Welch & Devore recently mined coal under a contract made with J. W. Cairns - thence West-north-west fifty poles - thence South South West three hundred and twenty poles - thence East South East fifty poles - thence North North East three hundred and twenty poles, to the place of beginning - being one hundred Acres. more or less.

And whereas the said J. Cairns has associated himself with certain other Parties for the purpose of manufacturing Coal Oil in Arkland, and of carrying on this business under the name or designation of the Kentucky Coal Oil Company.

And whereas the said J. W. Cairns agreed by an Instrument dated at Louisville June 5th 1858, to make over to the Kentucky Coal Oil Company certain specified debts, and also the above specified Mining privileges for a consideration named in said Instrument.

Therefore, the said J. W. Cairns hereby make over and transfer to the Kentucky Coal Oil Company, the

purchase of Mining land which was made to the said
J & W Cairns by the said H. M. Biggs, as above recited.

to witness whereof we have hereunto
set our hand and seal this fourth day of
February in the year 1859.

J & W Cairns (Seal)

Hurietta March 21. 1859-

My dear "Butties,

I took out my writing materials several days ago to answer your letter by Benny, B. but was so unwell that I lay'd them aside: but this Monday, Morn. I will try to scratch a few lines.

I am pleas'd with your arrangements, to make the first visit, for I do not think that I am well enough at present to go from home; I seem to have all the Maladais that the human family is heir to; I try to bear it patiently, thinking it is all right & for my quads.

We are rather a ypoor set here at present; your father is very unwell, sore eyes, toothache & swelling face etc. George & Mary have very bad colds & coughs; but Mr. Groop is the worst of the whole; he looks very badly, he had an attack of Pleurisy, about a month ago & has not entirely recover'd from it; he thought he must go on for his goods before he was able to; he was quite sick in Feb^r - he has better'd looking very badly; your father is very fearful that he will go into a decline, but I do not dare to give it a seconds thought; what should we do with those Children?

Had an attack of Colic, & a few days after very severe turn of Distemper by way of variety, while B. was with you but I hope we shall all be well by the time you get here.

B. was much pleased with his visit at your house he thinks you are nicely fix'd. He is enough he says for any body.

But the Girls I do not think he thought quite equal to Lydia C. - I must tell you some of the particulars Monday Morn. Doug. came in with the package from y.

B. was very much engag'd wanted to get away on Thursday, but he did not leave until this this morning.

Wednesday Morn. he came in very early to give me the particulars of his Ashland visit, & see if I would not ride over & spend the day, but I was too unwell.

But before he bid me goodbye he told me the particulars how he took a Boat Monday Morn. for New York & he had done cash business or in other words had stow'd Lydia & she must keep it whilst until it comes out from other sources. - So we shall see him again probably next Fall, & the New house will be ready for the Guests.

I am not acquainted with her myself, but your father is, & he recommended her to Henry, he is highly delighted, he says B. is a lucky fellow if he can get her.

Aunt Susan is recommended to B. very highly but I do not know as that had much influence, as her principal object in life is in the Management of the cooking Stove, & B. says that she seldom leaves it for any body. O, by the by, they are about leaving town & going back on their farm. She is so homesick here: they can't have but two Coals here, & she can't have half as much cream as she wants. for she wants every thing of the richest kind B. says.

Tell Mr. Means Mr. W. was much pleas'd with the communication respecting the Coal Oil business: he & Mr. Marston have purchased some Coal lands with in a few Miles of here & are making arrangements to go to work immediately.

Mr. S. has gone on for his family, will be here in a few days: he was in the eve' before he left to see if we could not sell him our houses on 4th Street - but we thought we had rather let J. W. have it than trust a broker - Mrs. Grant?

The changes in this world & particularly in that family. Mrs. W. was in a few weeks since to get ready to send to her Sister, now she is expecting here to remain. Give my respects to Mrs. Adams, tell her I shall be very happy to see her with you. Write me about what time you expect to come. You had better not get on to the New Ship as that does not reach here until Sunday after noon. Yrs. Ever - D. H.

Mr Means;

Permit me to trouble you with a short note To day I saw J. S. Birker & he is now ready to strike a dividend in the case of Isaac Lempletons estate, and says I will pay from Eighty to eighty five cents on the Dollar. But I am not able to pay up from the fact the man I sold to can not pay me. And I want to know if you would take my note for the one you hold Lempleton, I will give you my note well indored with ten percent until we can make a sale of the land: which

I think we can shortly
do

I am not in the habit
of begging but I do ask
this as a favour so
that I can keep out of
court with the Clerk
the Administrator

Please answer by
return Boat

Yours

J. M. Habington

Should this meet your
approbation your note
being in the hands of
John Ellison I will
make it satisfactory
with him

I have the authority to dispose
of to you 50 bonds (\$50,000) upon
which such has now been brought in
the Federal Court for the benefit
of part of the \$210,000 of bonds executed
by the J. C. & M. Camp to the
Lex & Big S. R.R. Co. I can send
you an assignment to you without
recourse on the present holder,
Abraham Cales, at ~~the~~ thirty percent
the dollar of principal & interest.
This would be a fine speculation to
you as you are a heavy stockholder
I can use the bonds in payment
of your stock at par. If you
do not want the whole of them
then Mr. Campbell or some other friend
of yours can show the payments.
Must be in cash, upon delivery
of the bonds. I must hear from
you shortly, what you will do.
I have the right to dispose of any
other bonds now owned by J. C.

Franklin's in Suit in this Court. I
cannot dispose of them at less than
50 cts to the Dollar, Interest to be paid
in full & costs of Suit. I would be
pleased to hear from you by our
Circuit Court. Respect

Maine April - Saturday 1859

My Dear Husband
I suppose you would like to hear
from your family as to their safe arrival at the
old homestead - Well we are here, but we had
a trouble time of it. The Liberty made very good
~~speed~~ till she reached Parkhurst and then
she concluded to rest herself a while as it
seems she is in the habit of doing from four to
six hours - but this time she only stopped
three hours - which brought us to Maine at
9 o'clock in the evening - it was raining cats &
dogs - and George was not there - but Mr. Ely
Hall took pity on me and said he would
walk up home with me - so Maria & I and the
baby took the umbrella & lantern & Mr. Hall took
Master Tom Hildreth & we started - Mr. Hall had
to go to the National for an umbrella so ~~that~~
made that part of the trip in the rain & we were
all wet as cats when we reached Father

Father had spoken to the Commodore's driver to go to the boat for me - but he did not hear the boat whistle and so did not go - I didn't know that the Bus would come at night so didn't try to get it - but as the children did not get cold I suppose or made out tolerably and ought to be thankful it was no worse. I couldn't get to wash them on the boat and they got such a good wetting coming up home that they it answered very well for a bath - I expect poor Mr. Hall's arms must have been lame enough next day carrying such a heavy boy as Healdath so far - Mother had Sarah Sabolt the nurse girl I had last summer here waiting for me - and she seems to do nicely with the baby so far - But has the bowel complaint from drinking more water - & screams murder if I get out of his sight a minute - If I go to church tomorrow he probably will cry till I get back - Such affectionate children are sometimes rather troublesome -
Father has given me some very superior water melon seeds - of two variety, the Lenny Lind - & China Seed kind - & is going to get for me another kind called the West India melon which are something entirely ^{new} and perfectly delicious & bring small & of another shape from ^{the} melon are not apt to be stolen by small boys who don't know what they are - Father says to get your snaple trees

with stems an inch or two & a half in diameter & these bring in leaf will not hurt them - & to get them & have them set out immediately - and it is time to plant - Beets - melons, ^{plant one large melon & other melons} Bush Beans - broad & - but too early yet for Squashes - Please plant me some more cucumber seeds it is in the newspaper parcel in the seed bag - Saw one bill for the West India melons - Three seeds I send ~~are~~ ^{are} the ones 2 & 3 years old - Maria's Mother intends moving to Kansas next week she has just carried her clothes down this afternoon - so perhaps she may be able to marry soon, as girls are scarce there - Give my love to Caroline tell her to keep things in order - Mother will go down with me & I think I will bring Sarah Sabolt down & let her stay & go back with Father & help me with the children while Mother is there - so I can take some comfort in her visit & have my parties - write to me immediately & talk me how Esther's Father says most likely Dr. Tasha will cure her Tom was in to see me this afternoon ^{you} - ^{very} -
But says John go - gee - he thinks you are still sitting in the buggy as you brought us to the boat -

The Auditor of Public Accounts.

Subjoined we publish an article from an intelligent gentleman upon the importance and absolute necessity of the Auditor of Public Accounts being regularly trained to his business. The writer was himself for many years a clerk in the Auditor's Office, and is therefore well qualified to treat the matter intelligently. We have before alluded to some of the facts contained in this article, but they cannot be too frequently presented to the people.—No one doubts Mr. Page's ability and integrity and fidelity; the entire State is acquainted with the prompt and efficient manner in which he has discharged the duties of his office. His opponent, however amiable and clever he may be, and however capable in other respects, knows nothing whatever of the duties of the office to which he aspires, and is utterly and totally wanting in the necessary experience. The State on a former occasion tried the experiment of placing a worthy and laborious, but inexperienced man in this position, and dearly paid for the folly of the Governor who made the appointment. Let the voters of the State profit by this salutary lesson and vote for the man whom all admit to have been one of the most exemplary officers that ever lived. Let their regard for the interests and welfare of the State overcome their partisan animosities, and common sense will teach them to vote for THOS. S. PAGE for Auditor.

Col. A. G. HODGINS:

Dear Sir—How will the election go this year in Old Kentucky? I have some good friends on both tickets, clever, estimable gentlemen, and were I back among "the old folks at home," I should have to deposite what is termed here a *scratched* ticket, there being some candidates on each ticket that I could not consent to oppose; and, another reason, I am of opinion that political considerations should not influence the choice in some of the officers to be voted for in August, the duties which they are expected to discharge being clerical and arithmetical, but not in any wise political; I should therefore consider it best for the prosperity and financial honor of the State that such offices should continue to be filled by men who have learned the duties and business as a trade, men of tried capacity, large experience, and undoubted faithfulness.—The necessity of this rule is fully appreciated and noted upon at Washington, the same veteran engineers, the actual workers, who have grown

gray in the service, are kept in charge of the financial machinery of the Government through successive and adverse administrations. If this were not done, the accounts of the Government would soon get into irretrievable confusion. I am led to this remark in thinking particularly of the office of Auditor of Kentucky. I was a clerk in this office for nine years—the last five of which I was the first clerk or assistant Auditor. I know something therefore of the importance of this office to the State, its duties and responsibilities, and the *experience*, as well as capacity, necessary to discharge them properly.—When I went into this office, Col. ———, was Auditor, a gentleman of amiable qualities, closely attentive to his duties, hardworking and thoroughly honest. Previous to his appointment as Auditor, he had been selected by an intelligent constituency to represent them for a number of years in both branches of the State Legislature; he was a neat penman, had had considerable experience in accounts, and was considered by his friends as peculiarly fitted and competent to discharge the duties of the office. But, as is well known, his efforts were a complete failure; although working night and day, and bending his whole mind to the accomplishment of the duties which he had undertaken, he was wholly unequal to the task—the public business was ruinously retarded—and as his administration progressed, errors arose on every side, various omissions existed—the records of the office rapidly fell into confusion, and the various accounts became mixed, inaccurate and incomprehensible. The statements of the finances of the State, necessary to be furnished the Governor and Legislatures, were meager and unreliable, and the settlements with the different accounting officers, and with the State Treasurer, were frequently erroneous from the same cause. I speak of what I *know*—and in the same connection it gives me pleasure to testify, that no man could have labored more earnestly or faithfully to learn the duties, and correct the evils which were springing up around him than Col. ——— did; but the truth is, he was too old to learn, he did not lack general capacity, nor industry, nor integrity, nor an earnest, persevering desire to discharge his official duties faithfully; but the duties of this office are *peculiar, complicated and extensive*; and it requires a regular apprenticeship from boyhood up, to comprehend them thoroughly and to enable the head of the Department to so systematize the various and complex branches and details of the business, as that every point shall be fully met, and despatched not only with promptness, but with clearness and accuracy.

In 1839, the accounts of the State were in such confusion that the Legislature felt compelled to make such provision as would cause Mr. Page to be recalled, it being then universally conceded that he was the only man in the State who possessed the *practical knowledge* and capacity necessary to adjust and straighten up the books in the Auditor's office. The office of 2d Auditor was created, and all the heavy, complicated, as well as most important business pertaining to the old office of Auditor, was assigned to the new office. Mr. Page was at once called to fill this office, and commenced his duties. Going back to the date when he left the office (some six years before,) he again took up the financial history of the State, exactly where he had left off, and, re-arranging, adjusting and cor-

recting the accounts as he progressed, he made out entire new sets of books, covering the whole time of his absence, and thus, by his indefatigable exertions, and thorough, practical skill, order was brought out of chaos, the accounts and records reduced to harmony and accuracy, the Department thoroughly systematized, and has been conducted smoothly and efficiently, under his *perfect* management, ever since. Many thousands of dollars were gained by the State, in errors corrected, under this overhauling and re-adjustment of the accounts, while the utter darkness into which the record of the financial condition of the State was tending, if it had not been thus arrested and redeemed, would have led inevitably to immense losses, if not to actual bankruptcy and ruin. I write this intending no sort of disparagement either to a former Auditor, or to any one who may now be aspiring to that office, but as my honest conviction, resulting from considerable experience and knowledge of the business, that it *does require a long and thorough apprenticeship in that office to be able to discharge the duties properly and with safety to the State.*

The solvency, and hence the integrity and character of a State, depend upon a proper management of its finances; no State in the Union stands higher than Kentucky in this particular; her accounts are all kept up to the hour, under perfect rule and system, the Governor or the Legislature can at any time have full and reliable data upon which to act, and without which they can neither act wisely nor successfully. When it is remembered that all the claims against the State, all the expenses of every character and from each county, have to be passed upon by the Auditor, and a correct account of them kept by him; that every cent of revenue accruing to the State from every source, down to the taxing of a silver spoon, has all to be estimated by him, and collected from the different accounting officers; and every species of property going to show the growth and prosperity of the State, land, negroes, horses, cattle, even down to the number of hogs over six months old, have all to be enumerated, and the increase or decrease, in number and value, as compared with other years shown;—when these things are all properly understood and considered, men will agree with me, that *here, in this office*, the financial balance wheel of the State is placed, and will see the importance of that smoothness and regularity which I have suggested, and which *long experience and thorough skill* alone can give.

Kentucky is indebted to Mr. Page for her present admirable revenue system, for the various checks and balances which have been adopted by the Legislature from time to time, at his suggestion, for the collection of the revenue, and for the protection of the Treasury in the payment of claims, &c. By his thorough knowledge of all the laws governing the department, the complete system which he has established in the arrangement, classification, and record of the accounts; the promptness, clearness and unerring accuracy with which these accounts are booked; and above all by his unremitting *personal attention* to the business, thousands of dollars, above the salaries and expenses of the office, are saved to the State every year. Where there is such skill, experience, vigilance and management, illegal or improper claims are *never paid*, nor legal claims *twice paid*, neither

can errors or omissions creep in to pervert the record, and deplete the Treasury. The vast economy of such a system, so perfectly and managed, can hardly be estimated—by stopping every possible leak, it economises on every hand, and in every quarter; the want of just such a system and management, is causing several of your sister States now, to groan under taxes four fold the rate of yours—I speak from experience, *present and painful.*

For the reasons which I have here stated, and which you will pardon me for having extended to a greater length than I intended when I commenced, were I back in Kentucky, no matter how politicians might be disposed to rule it, for myself, and acting under the experience of the past, I should discard all political considerations so far as *this office* is concerned, and vote for the man *best qualified to fill it*; knowing as I do, that upon the thorough capacity of its Chief, and the prompt and faithful discharge of the important duties assigned him, the prosperity, as well as the financial integrity and character of the State mainly depends. Truly, &c.

¶ We copy the subjoined paragraph from the Hopkinsville *Mercury*, of the 26th of September last. The hope of the *Mercury* has been disappointed, as Mr. Page has opposition in the person of Grant Green, Esq., of Henderson. Every one who is at all acquainted with the affairs of the Auditor's Office knows that Mr. Page is the best officer the State ever had. If all the Democrats who are ready to admit his superiority over his opponent will vote for him, he will be elected by a hundred thousand majority:

THOS. S. PAGE.—We announce this excellent officer as a candidate for re-election as Auditor of Public Accounts. He will have no opposition we presume, as all parties unite in admiring his correctness, industry, integrity and amenity of manner. An old Democratic officer who has transacted business with him for half a life time, says he is one of the most remarkable officers he ever knew.

¶ We publish the following from the *Can-nellon (Ind.) Reporter*, a Democratic paper, in commendation of our present Auditor, and recommend it to the people of Kentucky for their consideration:

We regret to notice that our Democratic friends in Kentucky have not nominated T. S. Page for State Auditor. We have no knowledge of Mr. Page's political opinions, but have had occasion to know that, as an accounting State officer, he has no superior and perhaps no equal in the country; and we have also had occasion to know that when the people select a person to keep the public accounts, they show but little wisdom in selecting one who has no knowledge of accounts, because he happens to have served with credit in the Mexican war and is a popular partisan.

In Indiana we, of both parties, have followed this pernicious custom, and the result is that we pay nearly twice as heavy a tax as is paid in Kentucky. No one can understand or place any confidence in our public accounts, and every opportunity is offered to our public officers to fill their pockets without detection out of the hard earnings of the people. Our notion is, that when a State or an individual is lucky enough to get a first rate book keeper, it is good policy to keep him even if his political or religious creed slightly differs from our own.

A friend that you buy with presents will be bought from you.

Dear Uncle

I thought I had written to you before. I suppose you have heard of the great fire here. It took the whole square nearly. There were twenty buildings lost in the fire. Ma. was away from at the time so she did not find out. There is hardly any news to tell you.

It will be three weeks before school will be out then I will come down and see you if (that ~~is~~ mean word) Ma will let me. There was a little boy shot accidentally by another little boy the bullet went through the scalp & came out below the eye. he. There was a man got run over by the cars cut his arms off & broke his legs there has been two ~~women~~ women two boys one girl drowned. since we come up here.

Please excuse my bad writing and spelling too. My love to all the folks & a kiss for the baby.

Congratulate Father on his being an S.L.D.
I suppose we may all be little corporals
I would like to see Pres. Speech very much
when you write to him - tell him I have
lost the printed directions for the freezer
but I think it was to use one third salt
two thirds ice & break the ice very fine -
Give my love to Father & George & Mr. Ross
Tell Mary that when I told Bub. he was
going on Steamboat to see Grandma Means
he would always say & "May Goes too"
as she is not forgotten yet -
Will Means & Miss Cancell are to be married
in about two months - I suppose I shall not
go to the wedding as I can't take the
children & don't like to leave them at home -
The roads are so bad that I did not get
up to the Rock to see Mrs. Lumpstead
while I was at Union - Tell Rita I
will write to her soon
Yours +
Hattie

Ashland July 20th 1857-

Dearest Mother
I expect you think I am a long
time writing to you but the weather has
been so warm I could hardly keep cool
long enough to write think let alone
writing - The children have both been most
awfully cross - the baby is very much broken
out with the prickly heat she has not
stopped squalling for the last week - I expect
she would make your headache if you
are visiting one now - I suppose you
will say it is all owing to the flannel
the poor child is suffering in having to wear
maybe it is - but as long as she keeps well
I shall still keep it on her - I suppose
though it may do you some good to know
that most of the time she goes barefoot
and in the very warmest part of the day
when the thermometer has stood at 102 - I

have sometimes taken of her flannel skirt,
though I still make them both wear their
flannel shirts. Last week I got up on Thursday
morning at five o'clock, and as it seemed
very cool then I concluded I would pack up
and go + make Mother Mead a visit - so we
went down on the Boston + came home on the
Saturday afternoon - we had a blazing hot
time of it - Thermometer up to 102 - 101 - &c
Their house is much warmer than ours
the rooms are so low and the big piles of
pig iron around the house getting heated
up seem like a furnace + they don't get
cool till next morning - The boat was
very warm indeed - poor Bessie broke out
as red as could be all over + with the heat
I was very much afraid she would get
sick - but she seems well and more the
worse for her trip - Esther is coming home
this week we did not know of it - or we
would have waited so as to have seen her
she is getting well very fast now -
Last Wednesday our neighbor Mr. Cairney
of the oil works died from something
like a sunstroke - he started to walk
to the cars from the furnace some six
miles - with his brother - + his brother came

on a horse in advance of him - + he fell down
+ when they went to assist him - he was
speechless + soon died - his poor old Mother
+ brother + son are very much afflicted -
I pity his secret wife - I suppose we never shall see
her now - We had a very pleasant time
the fourth of July - The Sunday School had a
dinner - speech or - one in the Park - everybody
almost in town was there and it was so
cool that very thing went off very agreeably -
I suppose you are deep in the spirit of Blackberry
Jam - I never jammed Elmer and a half gallon
week before last - I have no girl now but
Caroline - I tried the little Dutch girl - but
she was so dirty I soon got tired of her - The
baby stands alone and I think will soon
walk and does better without a smull than
with one - I wish you would inquire of
Kate Chingworth + Miss Seymour + see if
they know of any steady good girl that I
could get - I would give \$150 or more if
necessary to one that could do my work -
Caroline will stay till ~~the~~ the last of Oct -
and then I suppose I shall have a hard
time to get any one else - I don't want any
thing engaged but a good one for I can get
plenty that are dirty + lary about here - I

My dear Father,

I received your letter of the 11th a day or two since, nearly two weeks on the way, as usual; so sends the next one by this way of Cincinnati, and see if it will not come sooner.

I will commence with your help as Mrs. Sohier says.

Mary Doubolt is still anxious to go & live with you, I told her that I thought you would be willing to give her \$1.50 per week. She only gets 75 c. now. Her ab. has been down to see if you would take her too - she would go for 75 c. per week. I told her that I thought by your last letter that you would not want her as you thought that you could get along with one girl. - I expect that she finds it very difficult to get employment; she gets business occasionally at the Chair factory, but they don't pay money.

You may write your wishes in your next respecting her.

As it respects Miss Sophronia Wilson, I call'd on Mrs. Clark as I had seen her before. She came to see me at Mr. Thompson's, just as I was leaving Mrs. Newton observed that Miss Wilson was there & had been quite sick, had not set up much that day: - Being so much of a stranger I never saw her but once did not ask to see her. Bessie's visit with me your time was rather limited as the ball was about ringing for some evening exercise; the weather was so warm that I did not go again. Please explain it to Aunt Amanda.

I am sorry for you that your mellow is disturbed after
all your troubles. Tell Mr. M. to take a nice specimen of
one and fix it on your piece for them with a little tartar emetic
& he will find out who is sick next day, & let it be known and
I think it probable he will keep his mellow after that.

Dr. Rigney's wife died on Monday last; she had been
sick about a month with some inward affection - sweet
sour & dyspepsia, they did not consider her dangerous but
a short time before her death. - the family will miss her very
much as she was always at home.

Marie Et. Dupont feels quite relieved to say as the Misses
Bullocks left here yesterday - they said they recollected
you perfectly, & would have been very happy to have
seen you. - I met M. yesterday at Hannah's to a social
circle that I attended & she had just returned from the boat
was very much fatigued. We had a very large circle as usual
to Mrs. Cottons. Hannah didn't let her mother know that
they were coming until some time in the forenoon. She
would talk some but seem'd a good deal excited & agitated.
Mary Abbott has just been in to see me she is very anxious to go &
live with you. She will stay until you come up next year.
She thinks you offer great wages - which no doubt is a great
inducement to her. She is so good nature'd that I think you will
like her.

So Will as you call him, is really going to get married
I do hope he will get a good wife after waiting so long.

I call'd up to see Mrs. Newton last week, she was very
lonely, her sons away, & one of her girls - Mrs. Newton had
gone to Cleveland: I sent for her to come & spend the afternoon
with me which she did & appear'd to enjoy it very much.

I do wish that you & the children & Mr. Means could be
with us now to help us out appears, as we have a fine share
of them now - I think Tommy's eyes would shine if he could
take a peep at some of the piles of them, & I don't know
but it would attract Mr. Means's or have a tendency that way.

You must keep an eye on the Ohio that leaves here on Monday,
if it is probable that you can get them we should be very glad
to send you some.

How do you think Lucy, Anna's energy would compare with yours
or yours with hers, she has an infant six weeks old been quite unable
since its birth. So Mr. Anna basked up his carriage took her & the nurse
& five children one of those hot days & come up here on a visit stay'd
a day or two then went to Newport Mrs. Nye kept two of the oldest children
return'd with one very sick with scarlet fever. So Mrs. Anna had to
leave her here for a few days. the child is better & she left to day in a boat.

That would be well a pleasure trip, five children the oldest not quite seven.

Much kind love to all enquiring friends,
not forgetting Mr. Means. - Yours ever, D. O. C.

Gen^l Wm^t Agency of "Howe's Scales,"
Buffalo November 1st 1859.

Messrs Russell & Meaus }
Dear Sirs }

I beg leave to hand you enclosed, my Circular descriptive of Howe's Scales &c., asking your candid examination of the same. It has been suggested to me, by my friends, to address you on the subject, as I am desirous of setting up some of our scales for use, in places where they are not already introduced, before establishing Local Agencies.

And I would therefore intimate to you, that I am disposed to make more favorable terms now in consideration of Advance orders, than I can afford to give hereafter.

The certificates given in my Circular will show that these scales are in use, and approved by leading Merchants, Manufacturers, & R. R. Managers, and that they have gained a position for accuracy, durability and every desirable quality, unsurpassed where they are known, by any other Scales. The reports of the Vermont State Fairs in '57-'58-'59 are sufficient, in the absence of further evidence, to show that we do not claim too much for "Howe's Scales".

My prices for Scales, Safes & Bells, are the lowest given by their several Proprietors, and my facilities are such, that I can deliver these goods on such terms, (and especially with reference to freight charges to your own doors), as can hardly fail to please you, and will entitle me to your orders.

Allow me to ask the favor of a reply as to your own wants, present, or remote, and to add, that, if on reasonable trial of our Scales, they fail to satisfy you - They will be taken away without charge by me.

Awaiting your reply,
I am Sir, Yours respectfully,

James G. Dudley

Dear Stephen

We received your letter with great pleasure.

We always delight to receive your letters, ^{from friends,} it is as if you stopped in and said good morning aunt!

Good morning morning Maggie! Good morning little Lizzie! Good morning Uncle! etc.

I have lately visited Dr. Wilcox and had a good time with that true gentleman, and his lady Dr. George, and the little lady who wanted to come down (Miss Mary,) and got a patent squash, the seeds of which I shall put in my treasure, until the time arrives to put them in the garden.

We are all in pretty good health, except that I sigh

groom a little in consequence
of old age. Your aunt keeps
quite cheerful, and mighty bu-
sy. Maggie sews abundantly and
breaks no needles yet. Little
Lennie studies Grammar and
Geography, and helps his Grand
Ma.

I saw the happy man, and his
Bride, Matthew, Thomas and John
Means.

Give our love to your family
and your uncle's family and
Madame Willson.

Let us have a line often.

Yours Oyer Burgess

~~shall give you news so soon as I can
and give you a letter in case
I am not busy to write to you~~

Your great Grand Parents were
married in Ireland. The name

JOHN'S LITHOGRAPH & PRINTING

I had my Christmas Turkey Tuesday before Christmas
I had Aunt Amanda & her family and Belle and
her family here to dine with us - Christmas day I
had a goose - John told some of his friends that
I had a five year old gander and that it took
all the week before to cook it so it could be
eaten on Christmas - which was rather a scandal
on the old fellow - as it only took it two days to cook -
the first day I boiled it & the second day I
roasted it and it took all ~~the day~~ ^{Friday} afternoon to
pick it - so there was only parts of three days
to make it eatable - I expect we will not indulge in
goose again very soon - I have been making
mince pies today and have opened your bottle
of currant wine on the occasion and find it very
nice - Johnny means to home spending his
vacation and says he thinks Manilla is quite
gay compared with Auckland so I suppose he will
go back well satisfied -

Auckland Dec 31st 1859

My Dear Mother

I have been trying to find time
to answer your letter for several days but I
have been so busy that I can hardly find time
to breathe - The days are so short and I have
to be in the cooking department so much that
almost before I know it the day is over and it
is dark - as you say in your letter with so young
a girl I must have to be in the kitchen more
than I can admit - but the worst of it is that
I have to take in the children with me & they
get so dirty and are apt to take cold - I
think we must have an influenza in the house
or something for such a coughing as there is all
the time all over the house all the time day & night
all of us but John has very bad colds - The children
are right sick with this - I have had Dr Van
Ran three times to see Hilary - and I suppose

He is out of danger now - but he still coughs incessantly and so does Bessie and they are both so cross - crying all the time nearly - Wednesday Hilbert seemed stupid all the morning but I thought it was nothing but his cold - but Wednesday afternoon he had a spasm which lasted about two minutes and frightened me nearly to death - we sent for the Dr. & he came and said he had worms which with his cold & his bowels not being moved for three days and his cutting teeth - altogether made his stomach in such a disordered state was the cause of it he gave him some Castor oil and powder and he soon seemed much better - but he still has a very bad cold - it seems so strange how they could get such colds when they have not been out doors at all and I have been up about a dozen ^{times} every night to see them well covered up and they are dressed in flannel as warm as can be - but the Dr. says the worst cases he has had this winter have been persons who have not been at all exposed to the weather - I have been very busy getting Hilbert's winter clothes made and have just finished them - have made him four coats and seven pair of breeches - so I think he will do well for the winter - he likes to wear them

very much and is more quite happy unless he has that belt on you gave him - I suppose I must wish you a merry Christmas and a happy New year - I see by the Home News that the gentlemen are to make their New year calls on Monday - so I can imagine you sitting up in state on Monday entertaining your numerous friends in and treating them to cake & goodies of all kinds - I am glad that this year I have none of that trouble - for I fear the children's noses & crying would not be agreeable - I suppose Father will call on Mrs. Buell & Mrs. Nahum Ward and all the other Ladies that are particular favorites Fannie Lamson has been boarding at the hotel about a week but I have been so busy at home I could not get down to see her - Give my love to Father - George & Mary Hoag - Tell Father to please send me a bit of the wild geranium if he has a chance this winter or spring - I did not get any when I was up as I meant to - and ^{and more} that is the best thing I can give the children for coughs - I am afraid to give them much paragonic as it seems to bind their bowels - I hope you will keep well this winter but I am most afraid to hear from you always for fear you have been sick - you must be as careful of yourself as possible - John sends his love - Write soon to your Mother -
