EXECUTIVE COMMITTEE 1961-62

Dr. Harry C. Denham, president, Maysville, Ky.
 L. Berkley Davis, Immediate Past President, 22 Stone Creek Park, Owensboro, Ky.
 B. A. Shively, Vice President, Athletics Department, University of Ky., Lexington
 Helen G. King, Director of Alumni Affairs, 522 Sayre Ave., Lexington, Ky.
 Mrs. Jane Irvin Morris, 1553 Leestown Pike, Lexington (Term expires 1964)
 George Griffin, London, Ky. (Term expires 1964)
 James B. Allen, Winchester, Ky. (Term expires 1964)
 Richard G. Wells, Jr., Pikeville, Ky. (Term expires 1964)
 Dr. Glenn U. Dorroh, 301 Clinton Rd., Lexington, Ky. (Term expires 1964)
 C. C. Clarke, 1203 South Green St., Glasgow, Ky. (Term expires 1963)
 Dr. O. B. Murphy, 743 West Cooper Drive, Lexington, Ky. (Term expires 1963)
 J. Paul Nickell, 302 Hart Road, Lexington, Ky. (Term expires 1963)
 McKay Reed, Jr., 1925 Spring Drive, Louisville 5, Ky. (Term expires 1963)
 William M. Gant, Masonic Bldg., Owensboro, Ky. (Term expires 1963)
 William R. Black, 300 N. 38th St., Paducah, Ky. (Term expires 1962)
 Smith D. Broadbent, Jr., Cadiz, Ky. (Term expires 1962)
 Richard E. Cooper, Somerset, Ky. (Term expires 1962)
 Guy A. Huguélet, Jr., 1469 Lakewood Drive, Lexington, Ky. (Term expires 1962)

Mrs. Hampton C. Adams, Old Keen Place, Versailles Pike, Lexington (Term expires 1962)
 Robert H. Hillenmeyer, Hillenmeyer Nurseries, Lexington, Ky. (Board of Trustees)
 Dr. Ralph J. Angelucci, 2101 Nicholasville Rd., Lexington, Ky. (Board of Trustees)
 Mr. James A. Sutherland, Bloomfield, Ky. (Board of Trustees)
 William H. Townsend, First National Bank Bldg., Lexington, Ky. (Life Member, Honorary)

APPOINTIVE MEMBERS

Mr. Hilary J. Boone, 320 Holiday Rd., Lexington
 Mr. William D. Calvert, Maysville
 Mr. R. R. Dawson, Bloomfield
 Dr. George Estill, 209 East Second St., Maysville
 Mr. Herndon J. Evans, The Lexington Herald, Lexington
 Mr. Gilbert Kingsbury, 210 Edgewood Rd., Ft. Mitchell
 Mr. Samuel Manly, III, 1009 Ky. Home Life Bldg., Louisville
 Mr. Clay Maupin, University of Kentucky, Lexington
 Mr. Newton W. Neel, City Engineer's Office, Henderson

The UK Alumni Executive Committee meets monthly, September through July, at a time and place appointed for the convenience of the committee.

EXCERPT FROM A LETTER

Dear Helen:

"All of us will miss 'Margie' a person—yet she will always retain a vivid and directing place in our memory. I have just been recalling some of our experiences going back to the days when I was a member of her class in her department at the time she and Mr. Grehan organized it then when she, Herbert Graham and W. C. Wilson started perfecting the University of Kentucky Alumni Association in the early twenties. Again I was closely associated with her and those who helped her in expanding the Lexington Alumni Club until it became state-wide, then a national organization.

There are many incidents that my memory recalls. Always I am reminded that there are thousands perhaps, of University of Kentucky men and women to whom she extended a helping and directing hand and who now are having the same experiences as am I. The University of Kentucky Alumni Association and her remaining friends (of whom there are so many) will miss her personality and charm physically but always retain her influence and love."

Sincerely,

G. Lee McClain, III
 Bardstown, Ky.

A UNIVERSITY IS A PLACE

IT IS A SPIRIT . . . V

All too infrequently, the lives of many generations of undergraduates are touched by the magic personality of one individual, whose influence is so far-reaching, so dramatic and so valuable that the influence is felt and remembered as long as life lasts.

Such is the story of Marguerite McLaughlin.

From 1914 until she was assigned to a change-of-work status by the University in 1952, Margie McLaughlin, as she was so affectionately known by University of Kentucky students and alumni, contributed her time, her devotion, her loyalty and her leadership to the institution from which she was graduated and of which she was an essential and dynamic part, until her death.

Other columns of the ALUMNUS will relate her achievements and her contributions, but to those of us whose destinies she guided from undergraduate days until the moment of her passing, she always will be a legend of love and tenderness and compassion and understanding.

Margie, whose devotion and determination over a period of more than half a century made it possible for the University of Kentucky Alumni Association to thrive and to function through bad years and good, said her goodbye to life on the afternoon of Alumni Homecoming Day, November 25, 1961. How appropriate, that God, in His infinite tenderness, should call her to her eternal home within the sound of cheers from thousands of homecoming alumni of the University she served and loved.

We will think of her always as one who was young at heart, and while time and nature and age take toll of that which is mortal, the spirit of Margie McLaughlin will continue to burn in the hearts of those whose lives she touched with the unquenchable flame of immortality.

WHAT DO YOU KNOW ABOUT YOUR ALMA MATER

By DR. J. ALLAN SMITH

Head of the Department of Public Information and Educational Aids, College of Agriculture and Home Economics

Did you know that the University of Kentucky is a "land grant" institution? Many persons don't. Even among educators that awareness sometimes is dim. And many who could say yes to this question still would have to admit that they know very little about what it means to be a "land grant" university or college.

"Land grant" refers to the fact that public lands were granted to the states by the federal government a hundred years ago to aid in the founding of colleges "for the people." These were to be colleges to enable the sons of the "industrial classes" to obtain an education that would be on a par with the education of the sons of the privileged and that would fit them for the common pursuits of life. Provisions for the grant of lands were contained in the Morrill Act, signed into law by President Abraham Lincoln, July 2, 1862.

In Kentucky the legislature accepted the provisions of the Land-Grant Act, as the Morrill Act has commonly been known, by creating "The Agricultural and Mechanical College of Kentucky" as a college in Kentucky University, which in turn was a consolidation of Transylvania College of Lexington and Bacon College of Harrodsburg. The A&M College was housed on a farm tract bought by Kentucky University, and consisting of Ashland (the Henry Clay estate) and Woodlands with the main building near what is now Woodland Auditorium, in Woodland Park, Lexington. This experiment of attaching a state college to a private or sectarian university didn't work, and after about a dozen years the State A&M College was separated from Kentucky University and moved to the present location. It was not until 1908 that the A&M College became the State University, and at the same time Kentucky University assumed the former name, Transylvania University, in order that confusion in names might be avoided.

Other states went through varying experiences in establishing their land-grant colleges or universities, but eventually there were founded at least one in every state, the total being sixty-eight. Several states, especially those in the South, have two such institutions. In Kentucky, both the University of Kentucky and Kentucky State College are land-grant institutions.

What do these sixty-eight land-grant institutions stand for? What is their significance in American higher education today? In number they are less than 4 percent of American colleges and universities, yet they enroll 20 percent of the nation's undergraduate college students. They have 40 percent of all engineering students, 45 percent of all home economics students, and 80 percent of all

agriculture students. About 40 percent of all doctoral degrees awarded by American colleges and universities are earned at land-grant institutions. Of 36 living American Nobel Prize winners who went to college in America, 23 are graduates of land-grant universities.

These figures show something of the size of the land-grant colleges and universities, but their significance goes far beyond mere size. To a large degree they have led the way in freeing American higher education from dominance by the so-called classical studies which had stranglehold a century ago, in fostering the elective system, in opening college doors to women students, and in bringing into good repute courses in the various physical and social sciences, in engineering, commerce, education, home economics, and a large number of special fields pertaining to the various professions and occupations of life.

As a result, the large public universities of today are much more than places where the young attend classes and get a college education. They are service institutions in the broadest sense of that term. Today we see that the campus of the University of Kentucky is the state of Kentucky, that the University directly serves the people in all walks of life.

Neither in Kentucky nor in the other states did the land-grant college or university blossom into its present significant role without long years of struggle. The land-grant idea was born of protest, and it contained within itself a seed of greatness beyond the imaginings of its founders, but it was slow in growth and only gradually did it gain strong popular support.

The purpose of the Morrill Act, or the Land-Grant Act as it was popularly called, was to provide for the endowment, support and maintenance of at least one college in each state "where the leading object shall be without excluding other scientific and classical studies and including military tactics, to teach such branches of learning as are related to agriculture and the mechanical arts . . . in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life."

To carry out this purpose the states, upon their acceptance of the provisions of the Act, were each to be granted 30,000 acres for each member of Congress. States not having lands of the public domain within their own borders were granted scrip for western lands. The land could either be kept as an investment or sold. If sold, the money was to "constitute a perpetual fund the capital of which shall remain forever undiminished

R ALA MATER AS A LAND-GRANT UNIVERSITY?

THE OLD A&M COLLEGE OF KENTUCKY IN 1882

... and the interest of which shall be inviolably appropriated" to the support of the college.

Kentucky, having ten congressmen, received scrip for 300,000 acres of land. The legislature, feeling obliged to realize whatever sums could be gained to start a college, put its scrip on the market. Unfortunately, many other states were doing the same. Also, the Homestead Act of 1862 had taken the edge off the market for western lands. So the price broke, the market was dominated by speculators, and some states received less than 50 cents an acre for their grants. Kentucky received 50 cents an acre.

The \$150,000 endowment realized from the public lands was disappointingly small. Nevertheless, the interest from it served as a start, and in Kentucky, as in so many of the other states, no Agricultural and Mechanical College would have been established at that time, and probably not for many years, without the priming of the pump by the grant of public lands.

And so The Agricultural and Mechanical College of

Kentucky was founded on February 22, 1865. Considering that the "leading object" of such schools was to "teach such branches of learning as are related to agriculture and the mechanic arts," it seems curious that no course in agriculture was offered before 1880, though each boy in school was required to work part time on the college farm.

The same was essentially true of instruction in the mechanic arts. The first course in engineering was not offered until 1885-86.

In 1910, the Extension Department of the Kentucky Agricultural Experiment Station was organized with Thomas R. Bryant, UK alumnus and now Emeritus Associate Director of Extension in charge.

Similar movements were under way in all the states, and in 1914 Congress passed the Smith-Lever Act creating the Cooperative Extension Service in Agriculture and Home Economics. This act provided for the appropriation of federal funds, to be matched by state and county funds, for carrying on extension work in the counties.

In each state the work was to be administered by the land-grant college.

In Kentucky the first county agricultural agents were employed in 1912, the first home agents in 1913, and by 1929 there was a county farm agent in every one of the 120 counties, and a home agent in 50. Today there are extension agents in all Kentucky counties, and assistants or associates in many. In total there are 215 county farm agents and 138 county home agents in Kentucky. All these extension agents are UK staff members.

And so, in agriculture, there came about the fortunate conjunction of resident teaching, organized research, and off-campus extension within the land-grant college. This combination has formed an element of strength and progress in American agriculture which has been the envy of foreign countries and has led in recent years to the modeling of many foreign agricultural institutions after the American land-grant college.

In providing women a place in college education the land-grant colleges have taken a leading role. However, in their early plans for land-grant colleges neither Turner nor Morrill included the education of women. Woman's place was considered to be in the home, where higher education was not needed, though by 1862 several state universities had opened their doors to women, notably Iowa, Utah, and Washington. By 1870 Michigan, Illinois, California, and Missouri all had a few women enrolled, and during the 70's a majority of the eastern schools adopted the practice.

Admission of women aroused strong opposition, with much heated debate. From the standpoint of the administrators there was the question of housing, at a time when many of the colleges were struggling with the problem of obtaining dormitories for the boys. There was the argument that women were not strong enough physically to stand up under the strain of academic work. Suitable courses were lacking: few considered the possibility that women might want to study the same subjects as men. But on the part of the general public the overriding question was the moral issue. It was thought by many that the enforced familiarity in a mixed college would corrupt the manners and morals of both the boys and the girls.

Despite all the controversy, coeducation moved forward. To provide suitable courses for women students, Iowa State College took the lead by establishing a course in "Domestic Economy" in 1869. Kansas began its domestic economy course in 1873, and in 1874 Illinois developed a systematic and thorough program in that subject.

In Kentucky, however, it was not domestic economy which first attracted women to enroll in the A&M College, but the establishment of a Normal Department for the training of teachers. This department, which eventually became the College of Education, was formed in 1880,

and before the end of the 1880-81 session 43 women had enrolled. The first woman graduate was Belle Clement Gunn, with the B.S. degree, in 1888.

In 1905 the first class in domestic science, as it was then called, was organized in Kentucky A&M College. The classes, held in the basement of the girls' dormitory, were devoted exclusively to the subject of foods. In 1910 the Department of Home Economics was added to the College of Agriculture. In 1916 it was separated from the College of Agriculture but was restored in 1917, where it has since remained. In 1941 the name of the College of Agriculture was changed to College of Agriculture and Home Economics, and in 1953 the Department of Home Economics became the School of Home Economics.

From such beginnings, through many struggles, the land-grant colleges and universities, imbued with an undying ideal of service to the people, have come far. Today your Alma Mater, which was started ninety-eight years ago as a spindling adjunct to a floundering private institution, is a stalwart university enrolling more than 10,000 students annually in ten colleges and a graduate school, with an annual budget upward of twenty million dollars.

Yet the striving for higher quality goes on. Speaking at the Centennial of the American Association of Land-Grant Colleges and State Universities last fall, Theodore W. Schultz of the University of Chicago pointed out that there are now more than three times as many undergraduates and eight times as many graduate students as in 1930, but that it is "very misleading to think of this growing demand for higher education as if it were simply a demand for more of the same instruction that was being supplied in the past. The demand is especially strong for quality in higher education."

With quality of educational product the University of Kentucky has always been concerned, but with increased financial support in recent years it has become possible for the University to step forth more boldly in a quality program. Toward this aim the University raised its academic standards in 1958, with the requirement that a student must maintain at least a "C" average in order to remain in school. In 1960 a program of careful counseling of low-ranking entering students was begun, with the hope of channeling into other endeavors those who obviously are not of collegiate calibre. These measures, along with improved ability to attract and retain capable instructors, are already proving effective in creating and maintaining a scholastically impressed student body at the University of Kentucky.

Truly the UK Alumni can take pride today in their Alma Mater as a land-grant university with a rich tradition of service to the people and a forward look to better and greater service in the future—to the continued fulfillment of the vision of the Land-Grant founders of a system of colleges on a par with the best.

Alumni-Sponsored Seminar, June 8-9

"Can America Compete?"—Problems of the U. S. in World Economy will be the topic of the Fifth Annual Alumni Seminar to be held June 8-9. Distinguished alumni and members of the UK faculty will participate in this program to which all alumni and the general public are cordially invited.

"The European Common Market" will be the subject of an address by Dr. John B. Hutson, '17, President of Tobacco Associates, Washington, D.C. Dr. Hutson has served as an assistant secretary-general to the United Nations. He is a former president of the Commodity Credit Corporation and is a specialist on tobacco exports.

Dr. Louis Ware, '17, Chairman of the Board, International Minerals and Chemical Corporation, will speak on the subject: "U. S. Grants—Bargain or Burden." Dr. Ware has had a distinguished career in the agricultural and chemical industries. A graduate of the College of Engineering, he began his career in the copper mines of Arizona, and for many years he was in charge of large mining operations for Guggenheim Brothers in Chile.

Mr. Stanley L. McElroy, '50, special assistant to the administrator of the Agency for International Development, Washington, D. C., will also make a major address. After graduation from the University, Mr. McElroy joined International Business Machines Corporation and was a member of that firm until his recent appointment.

Several other distinguished speakers will participate in the program along with outstanding members of the UK faculty.

Dr. Max J. Wasserman, visiting professor of international economics, Patterson School of Diplomacy and International Commerce, is chairman of the Seminar Committee.

The seminar sessions on Friday, June 8th, will be held in the Guignol Theatre of the Fine Arts Building.

We Move and Expand

The alumni-faculty club located at Carnahan House has moved to Spindletop Hall on the Iron Works Road near Lexington. The move was made necessary by the growth of the organization to its present membership of 775 individuals and families.

Mr. Warren Dorsey, former manager of the Lexington Country Club, has been employed as the new manager. Mrs. Dorsey will serve as assistant manager.

The 40-room mansion is valued at \$1,000,000. Mrs. Pansy Yount, Beaumont, Texas, former owner of Spindletop Farm, has given furniture valued at \$61,330. Included are numerous pieces made to order to grace the manor house upon its completion in 1937. Much of the furniture was designed for use in the oak-panelled Saddle Horse Room which is expected to be the hub of social activity in the new clubhouse.

The Board of Directors has employed Curtis Harrison, interior decorator, to plan the decor for the mansion.

A filtering system has been ordered for the swimming pool which should be ready for use this summer. The picnic area has been enlarged and parking facilities are available for members.

Carnahan House will be used by the University for conferences, seminars, and other University-related activities.

In addition to the major addresses, the program will include panel discussions. The Saturday morning session, June 9th, will be held at Spindletop Hall on the Iron Works Road.

World economics should be an interesting and challenging subject to all Americans. All alumni are invited to return to the campus for this seminar which will be intellectually stimulating, inspiring, and informative.

More detailed information will appear in the May *Alumnus*.

Distinguished Grad Named Head of VPI

DR. T. MARSHALL HAHN '45

Dr. T. Marshall Hahn, '45, a native of Lexington, has been appointed President of Virginia Polytechnic Institute, Blacksburg, Virginia. Dr. Hahn, a distinguished physicist, received his doctoral degree from Massachusetts Institute of Technology in 1950. He returned to UK upon the completion of his advanced degree and served as professor of physics until 1954 when he resigned to become head of the Department of Physics at VPI. In 1959 he was appointed Dean of Arts and Sciences at Kansas State University, Manhattan, Kansas and served in this position until his recent appointment as VPI's president.

He is a member of Phi Beta Kappa, Sigma Xi, Omicron Delta Kappa, the American Association for the Advancement of Science, and is a fellow of the American Physical Society. He has served as a consultant to the U. S. Atomic Energy Commission and has been a research assistant at the Oak Ridge National Laboratory.

He is married and is the father of three children.

University Affairs

DR. MAURICE A. CLAY, '35, Lexington, is the newly appointed director for the national office of Omicron Delta Kappa, men's leadership fraternity. The office is now located on the UK campus.

Omicron Delta Kappa, men's leadership fraternity, dedicated its newly opened national office of administrative secretary on Friday, January 12th. Dr. Maurice Clay, '35, UK associate professor of physical education is director of the national office. Dr. R. D. McIntyre, UK professor of marketing and a member of the national council of ODK for 25 years, is now a permanent honorary faculty advisor to the Kentucky Circle.

Founded at Washington and Lee University in 1914, Omicron Delta Kappa became a national organization in 1917. The Kentucky Circle has been active for 37 years and has

tapped more than 600 members. Requirements for membership are character and meritorious attainments in all-round leadership in college and university life although scholarship is a strong secondary membership requirement.

The new administrative secretary, Dr. Clay, received his M.A. and doctorate degrees from UK. He was a member of the faculty of the College of the Ozarks, Clarksville, Arkansas and now is director of the professional curriculum in the Department of Physical Education. In 1960 Dr. Clay was a Fulbright Lecturer to the National University of Colombia in Bogota.

W. Emmet Milward, '26, Lexington, first president of the Kentucky Circle, presided at the dedication dinner. Army Secretary Elvis J. Stahr, Jr., '36, was a special guest. ODK National President, Dr. G. Herbert Smith, president of Willamette University, Salem, Oregon, gave the principal address.

The Spindletop Research Institute is no longer a part of the University. Acting on the recommendation of President Frank G. Dickey, the Board of Trustees has turned over its authority to Spindletop Research, Inc. which will operate the institution. Beardsly Graham, manager of Satellite Research Planning for Missile and Space Co., Lockheed Aeronautical Corporation of California, will act as president of the new Spindletop Research Corporation.

Dr. Dickey said that the nature of the institute's research does not adapt itself to the academic life of the University.

Dr. E. E. Litkenhous, who served as a research consultant for the development of the Spindletop Research Institute, will continue to serve on the University staff.

Under present conditions, the University will have no responsibility for the building or programs of the institute.

In lieu of Christmas gifts, the R. R. Dawson Bridge Company, Bloomfield and Lexington, has given two \$500 scholarships for students in the College of Engineering. Preference in awarding these scholarships will be given sons and daughters of practicing engineers. The University scholarship committee will select the winners.

Dr. W. D. Salmon, '20, professor of animal husbandry and nutrition at Auburn University, Auburn, Alabama, has presented a gift of \$500 to the UK Alumni Association. The money will be used to establish a graduate scholarship or fellowship in animal nutrition or agricultural bio-chemistry. Dr. Salmon received an honorary Doctor of Science degree from UK in 1958 and is a nationally known nutritionist.

A UK alumnus, who wishes to remain anonymous, has presented his bonus check of \$500 to the Alumni Century Club Fund.

A graduate program leading to the doctor of philosophy degree in biochemistry at the University has received approval. Approval of the program brings to 18 the major fields of study at UK in which the doctor of philosophy degree may be earned.

DR. LYLE R. DAWSON, head of the department of chemistry, was granted a patent recently on a fundamental process for extracting and purifying plutonium.

For his work, which was kept secret 15 years, Dr. Dawson was awarded the U. S. War Department's Certificate of Merit in 1946. The patent, encompassing 13 variations of the process and utilizing 40 solvents, was turned over to the Atomic Energy Commission by Dr. Dawson.

The Kentucky Law Journal, published by the UK College of Law, started its 50th year of publication in December. The 10th oldest law journal in the United States, published quarterly by the students of the College of Law, it is also the oldest law publication in the Southern Law Review Conference. The first edition was published during the 1912-13 school year.

Seventy-five junior and senior high school teachers throughout Kentucky and surrounding states will attend science institutes next summer at UK as a result of a \$91,300 grant awarded by the National Science Foundation. Dr. John M. Carpenter, head of the Department of Zoology, and coordinator of the program, announced that 25 teachers will be admitted to each of three summer institutes: Fundamental Biology for Secondary School Teachers; Chemistry for High School Teachers, and Physical Science for Junior High School Teachers. Public school teachers accepted for the institutes will each receive \$75 per week plus \$15 for each dependent. Preference will be given to teachers planning to use the modern methods taught in the summer institutes when they return to their own schools. The institutes will be held from June 19-August 10.

DR. MORRIS SCHERAGO, head of the department of microbiology,

has been made a diplomate of the American Board of Microbiology—the first Kentuckian to be awarded the honor. Dr. Scherago is nationally acclaimed for many discoveries including a blood test which denotes both prevalence and severity of tuberculosis in humans. He has written some 100 articles for scientific journals and the College of Arts & Sciences named him its "distinguished professor of the year" in 1951.

The University will ask the 1962 General Assembly to appropriate funds for the establishment of a Wood Utilization Center to find more uses for the state's timber resources.

DR. J. G. RODRIGUEZ, UK entomologist, has been awarded a three-year, \$30,500 National Science Foundation grant to study the nutrition of plant-feeding mites.

The REV. DONALD A. LEAK, executive director of the University of Kentucky YMCA, has been appointed to serve in a dual capacity as coordinator of religious affairs at UK. "The coordinator will help the University carry forward its concern that a mature religious experience be made available for all members of the community," President Dickey said.

The new chemistry-physics building now under construction on Rose Street is slated for completion in October, 1962. The four-story structure costing \$5,218,000 will contain three times the space the chemistry and physics departments have in their present quarters. The new building will have laboratory space to accommodate 2,800 students in chemistry and about 2,000 in physics. Research facilities will also be available for faculty members and graduate students.

Alumnae of Theta Sigma Phi, women's journalism honorary, have established a scholarship in memory of Miss Marguerite McLaughlin, charter member of the chapter. Contributions may be sent to the School of Journalism, University of Kentucky, Lexington, Kentucky. Miss Florida Garrison, chairman of the Theta Sigma Phi Scholarship Fund, said that checks should be made payable to the School of Journalism Foundation of Kentucky, Incorporated.

College and university alumni workers from nine southern states met in Lexington in January for the annual District III conference of the American Alumni Council. Miss Helen King, director of alumni affairs, is chairman of the district. Bruce C. Cotton, vice president for external affairs at Transylvania College, was conference chairman. Waldo C. M. Johnston, Yale University, president of the American Alumni Council made a major address.

The following university presidents addressed the conference: Dr. Frank G. Dickey, UK; Dr. Irvin Lunger, Transylvania College; Dr. Frank Rose, University of Alabama; and Dr. A. D. Holt, University of Tennessee.

Headquarters for the meeting was the Phoenix Hotel.

The students of the University of Kentucky Northwest Center at Henderson, Kentucky have established a scholarship in memory of their teacher, Jim Armstrong, who died December 19, 1961.

Contributions in his memory may be made in care of the James W. Armstrong Memorial Fund, University of Kentucky Northwest Center, Henderson, Kentucky.

Sport News

A NEW DAY DAWNS

Citizens and alumni from throughout the Commonwealth and, indeed, from throughout the nation, have taken a personal and, in numerous instances, a voluble and vocal part in the University's and the Athletics Association's recent problem of selecting a new football coach.

Happily, the question has been decided and the KENTUCKY ALUMNUS welcomes home a young man of character, ability and integrity in the person of Charlie Bradshaw, a former Wildcat and Kentucky coach. We wish for Coach Bradshaw a satisfying, successful and long career as head football coach at his Alma Mater and hereby pledge to him our devotion, our best efforts and our unqualified support.

Naturally, when changes come about, personal friendships are involved and emotions are mixed and many loyal friends of the University have become personally involved in the change.

We, the professional alumni workers, who have our fingers on the alumni pulse, recognize that regrets over the loss of old friends and associates and rejoicing over the advent of a new regime may, for a time at least, engender reluctance. However, THIS IS YOUR UNIVERSITY, and we are urging you to remember this and to support it and your athletic program in the days and years ahead.

The Executive Committee of the University of Kentucky Alumni Association goes on record herewith in strong and enthusiastic support of administration policies and principles and pledges to the University, the Athletics Association and the new coach and his staff, its unqualified interest and devotion.

BRADSHAW NAMED HEAD COACH

By KEN KUHN
Director of Sports Publicity

The personification of qualities of inner toughness, outwardly serious demeanor, quiet determination, confidence and integrity. . . . That's Kentucky's new Head Football Coach in a nutshell.

Youthful Charlie Bradshaw, 37-year-old ex-Wildcat player and assistant coach, fulfills all these qualities that are the background for success and goes a step further. . . . He's an inspirational leader who exudes the toughness that it takes for those around him—staff and players—to get the job at hand done in a way that will pay off with success.

"If I didn't think I could get the job done, I wouldn't be here," Bradshaw told members of the UK Athletics Board who tapped him January 10 as the successor to Blanton Collier. (NOTE: Collier, coach of the Wildcats since 1954, will return to his former association with the Cleveland Browns).

That example of simple determination exemplifies Bradshaw. He believes in the direct approach and has indicated he will not hesitate to instill similar determination in the Wildcat footballers during the next few years. Every sign points to the new regime as more demanding to some degree in its relations with the squad on the football field, but Bradshaw sees his reputed "tough guy" approach a little differently than most people. "There's a lot of difference between toughness and unnecessary roughness," he explains. "We are going to be tough, I can assure you. Football is the type of game where you have to be tough in to win and, if it takes roughness to teach toughness, that's what they will get. I believe young men will 'put out' just about as much as you demand of them and we intend to demand a great deal."

Bradshaw's football philosophy was schooled into him by Paul (Bear) Bryant and Collier—two of the nation's top grid masters with different approaches to success.

Charlie grew up in Montgomery, Ala., and started playing football at the age of 15 in Sidney Lanier High. Upon graduation, he was attracted to the University of Kentucky and attended one semester in 1942 without seeing any grid action on the team.

He withdrew from the University after the first semester to enter the Marine Corps, in which he served

President Frank G. Dickey talks with newly appointed grid Coach Charlie Bradshaw.

for three years and saw 19 months of action in the Pacific Theater. Following his discharge from the Marines, Bradshaw returned to UK and played end on Coach Bryant's first three (1946-47-48) Wildcat aggregations.

Attempting to get in his allowable fourth year of competition as a graduate student in 1949, Bradshaw was ruled ineligible by SEC Commissioner Bernie Moore after three games. He remained on the Bryant staff during the remainder of that season as a student assistant coach and then, in 1950, returned to his home town high school (Sidney Lanier in Montgomery) as coach and co-ordinator of a junior high football program.

Bradshaw retained this position until chosen as an aide on the first Collier staff at Kentucky in 1954. After five years as end coach and then offensive backfield coach, Charlie moved to Alabama to become offensive coach for Bryant. The Alabama offense ranked second in the SEC last season and contributed greatly to the Crimson Tide's success in becoming the undefeated national champion.

True to his promise to surround himself with "the best young assistants available . . . Christian men of in-

tegrity, honesty and forcefulness," Coach Bradshaw selected the following staff:

Matt Lair, who played on the same Wildcat teams as his new boss and served with him on the Collier staff, was named as assistant head coach and will concentrate on the defensive line which he tutored when here previously. First UK aide ever to bear the title of Assistant Head Coach, Lair is a North Middletown, Ky., native with 13 years of coaching experience. His last assignment was as line coach at Texas Tech.

Homer Rice was selected as offensive coach in one of Bradshaw's first moves. He enters the collegiate field after a highly successful career in high school ranks. During the past eight years, he guided Ft. Thomas (Ky.) Highlands and annexed state AA championships in 1960 and 1961 to cap off undefeated seasons. Previously, he was a successful coach at Wartburg and Spring City, Tenn., high schools.

George (Chink) Sengel remains on the staff as end coach and is a name long familiar to Wildcat fans as a former All-State end at Louisville Manual High and UK wingman in 1942 and 1946-47. He replaced Howie

Schnellenberger (now at Alabama) as Kentucky's end coach in January, 1961, after experience ranging from a freshman assistant at UK to head coaching jobs at Florida high schools and assistant at Louisville Male.

Chuck Knox, also a holdover who was on the Collier staff only last season, stays as offensive line coach. He is a native Pennsylvanian with extensive experience in the Keystone State high school field and came to Kentucky from Wake Forest, where he was a staffer for two seasons.

George Boone, one of the most determined players ever to don a Wildcat uniform, retains a position on the Bradshaw staff as an assistant assigned primary responsibility with the defensive line. George, who came to Kentucky as an unknown Bardstown St. Joseph's grad without a scholarship, proved his worth to gain both a scholarship and a place on the Collier staff—first as a student assistant and last year as a full-time defensive line tutor.

Bob Ford, former standout player and coaching assistant at Memphis State as well as Alabama and Georgia, joins the staff in the capacity of defensive coach. Ford's services were widely sought by leading universities and he was the last man to be added to the Bradshaw staff. He spent two years at Memphis State before seeing military service for two years in Korea. After his discharge,

Ford joined the Bryant staff at Alabama and worked with Bradshaw two seasons. His last job was that of defensive line coach at Georgia.

Dave Hart, taking over backfield coaching responsibilities, had deep roots and great success in the Pennsylvania hot-bed of football talent. In serving as a coach at St. Vincent College and two Pennsylvania high schools, Hart compiled an overall record of 86 wins, 18 losses and three ties. His last assignment was at Johnstown High where his teams had the longest win streak in state AA play (27) and he earned "Coach of the Year" honors.

Ralph Hawkins, new assistant backfield coach and recruiter, brings to the staff a rounded experience as a collegiate and professional player and coach in both high school and college ranks. He played both quarterback and halfback under the late Jim Tatum at Maryland, played professionally with the New York Titans, coached high school ball in Arlington, Va.; and last year was on the Southern Methodist staff.

Bud Moore, who picked up his initial playing and coaching experience under Bryant and Bradshaw at Alabama, becomes assistant line coach and recruiter. He was a star end and tackle on the Tide elevens in 1958-60 and served on the staff last spring. In the 1961 season, he coached at Gadsden (Ala.) High school.

Kentucky Basketball

Kentucky's Wildcats, fat and sassy on an amazing drive that saw them take 13 victories in their first 14 starts to gain No. 2 national ranking (AP Poll) and first place in the Southeastern Conference standings, took a much-needed respite from the cage wars in late January to survey their accomplishments and prepare for a stretch drive toward an unprecedented 20th league crown and fifth national title.

The break in the torrid schedule pace, taken primarily to do battle with the books in semester-end examinations, lasted until Jan. 28 when the forces of master-builder Adolph Rupp hit the road on a week-long "do-or-die" trip to take on Georgia Tech, Georgia and Florida in that order.

All told, the scintillating Kentuckians (13-1) had just 10 games standing between them and the best season record posted in regular season play by a Wildcat five since the perfect record outfit of 1954. Other good pre-tournament marks of recent years saw the '59 Wildcats chalk

up 23 wins against two defeats before a sensational upset by Louisville in the NCAA Regional and a 22-2 record posted in 1955 prior to a loss in regional play to Marquette.

At the 14-game turning point, the current Kentucky team stood as one of the two best in the past eight seasons. The 13-1 mark of the "Fearless Five" of '62 was matched only by an identical record in the 1959 campaign and surpassed in recent years only by the 14-0 standard compiled in 1954. The Wildcats' lone setback up to the point in the season came in the second game when powerful Southern California edged them, 79-77, after surviving a comeback that saw UK forge a three-point lead after being nine points down in the late stages.

Kentucky victories came at the expense of such high calibre competition as Miami (Ohio), St. Louis, Baylor, Temple, Tennessee, Kansas State, Yale, Notre Dame, Virginia, Georgia Tech, Vanderbilt and Louisiana State.

Looking back, the amazing Wildcat record in what was supposed to be a rebuilding year has to be cred-

ited to the coaching genius of Rupp and the stellar play primarily of sensational sophomore Cotton Nash and steady senior Larry Pursiful.

There have been other surprises—such as the unheralded development of defensive and rebounding ace Bob Roberts and bothersome guard Scott Baesler plus the fast rounding in form of Carroll Burchett and Albin Feldhaus—but the bulk of credit has to go to Nash and Pursiful.

The handsome, 6-5 Nash, who operates in the pivot but is equally effective from longer ranges, has posted a sparkling, 22.4 average and ranked as the leading scorer in the conference and promote his candidacy for All-America honors. As Kentucky entered loop lay, Nash seemed to shake off early-season inconsistency and shows a 30.5 average for four SEC outings. Coach Rupp echoes the feelings of many opponents by calling him "the greatest sophomore in America today."

Pursiful, a 6-1 guard described by sportswriter as "quicker on the court than Palladin," sports a 19.7 scoring average that does not fully reflect

value as Kentucky's leader and playmaker. Although a marked man in every opponent's game plans, he manages to destroy most teams with an unmercifully accurate jumper from 20 to 25 foot ranges.

Although Kentucky has come much farther faster than even its most optimistic supporters figured in what was supposed to be a rebuilding year following the loss of four starters, the road ahead was littered with many obstacles to upset rosy dreams of another conference and national title.

• • •

GEORGE BLANDA, '51, quarterback of the Houston Oilers Professional Football team, has been named 1961 United Press International player and coach-of-the-year in the American Football League. A former UK quarterback, Blanda was elected by a wide margin in the annual UPI poll of three regular AFL writers from each league city. He is married to the former Betty Harris, '47.

• • •

S. A. (DADDY) BOLES, Lexington, died of a heart attack at his home on December 4. A member of the University faculty or staff for 45 years, he served as athletic director from 1917 through 1933. In this post he helped bring Coach Adolph Rupp to Kentucky in 1930. He also served as head football and head basketball coach. In 1918, Boles helped inaugurate the Kentucky State High School Basketball Tournament and was in charge of the first 18 tournaments held at the University. During his later association with UK he was manager of veterans housing projects after World War II.

• • •

IRV GOODE, center on the Wildcat football squad, and native of Florence, Kentucky was named on the All-America Team selected by the professional scouts on the basis of seasonal play. Goode played in the East-West game in San Francisco.

MISS MARGUERITE McLAUGHLIN, '03, Lexington, died November 26 at her home in Lexington after an illness of seven months. "Miss Margie," as she was affectionately known to hundreds of UK students, was the first woman to teach journalism in Kentucky and was a member of the University faculty for 38 years.

She was a member of the University of Kentucky Alumni Association from the time of her graduation and maintained a constant interest in all alumni activities. Twice—during World War I and World War II—she served as executive secretary. Her devotion and interest in UK students was demonstrated universally when she arranged to send a special edition of the Kernel to men and women in the service during World War II. Thousands of copies were mailed to Kentuckians in every theater of war.

For 30 years, from 1920 to 1950, she was a member of the Alumni Executive Committee and after 1950 she became an honorary life member. In recognition of her unselfish service to the Association, Alma Mater gave her its third annual award as "Alumna of the Year" in November, 1950.

Theta Sigma Phi, women's journalism honorary, dedicated a drawing room in the Enoch Grehan Journalism Building in her honor. She was a charter member of the organization and served as its faculty advisor until her retirement.

In 1953 Pope Pius XII presented Miss McLaughlin with the "Pro Ecclesia et Pontifice" award for "singular and distinguished service to the Catholic Church." It is the highest award that can be given to a Catholic layman.

A member of the Alumni Century Club, she was also a member of Mortar Board, the Lexington Altrusa Club, the National Association of Arts and Letters and the National Conference of Christians and Jews.

COTTON NASH
UK scoring ace

Homecoming 1961

James W. Hancock, Jr., '53, Morganfield, J. W. Jones, '26, Louisville, Mrs. Hancock and Mrs. Jones at alumni brunch held in the Student Union ballroom.

Bill Kingsbury, his mother, Mrs. Gil Kingsbury, and father, Gil Kingsbury, '33, Ft. Mitchell, call greeting to friends on mezzanine before alumni brunch.

Irene Morgan, '27, Louisville, Charles L. Morgan, '18, Brandenburg, Mrs. Morgan, and Mr. and Mrs. Herbert Liebman, '51, Frankfort enjoy a story which recalled their student days at UK.

William A. McKay, '53, Shelbyville, Mrs. McKay, O. L. McElroy, and Mr. McElroy, '27, Eminence, over good times at UK.

ORIE W. and is residing in
 JAMES W. Mass., former England Telephone Company, Boston, Falmouth, Massachusetts. He was a director of the American Telephone and Telegraph Company in Louisville prior to his communication work.
 DR. MEREDITH HILLS, New Jersey, was presented the 1951 Distinguished Achievement Award by the National Aeronautics and Space Administration in November, 1951. He completed United States Citizenship in 1948. His medal was presented by the engineering society. Dr. Kelly for his greatly inspired leadership in the United States.
 ALICE LILLY in December include a sister in Lexington, and Duck, Indiana.
 DR. HOWARD MARINO, California.
 VIRGIL MASONVILLE attorney in Florida in December, a son, James A. two brothers.
 MRS. MAMIE 13, Clearwater.

About The Alumni

1896-1920

ORIE W. HOLLAR, '12, has retired and is residing in St. Petersburg, Florida.

JAMES W. THOMPSON, '16, Weston, Mass., former chief engineer of the New England Telephone & Telegraph Company, Boston, has retired. A native of Falmouth, he began his career with American Telephone & Telegraph Co. in Louisville after his graduation from UK. He was a director of the Westerly Automatic Telephone Co., Westerly, Rhode Island prior to his retirement from the communications field.

DR. MERVIN J. KELLY, '16, Short Hills, New Jersey, retired board chairman of Bell Telephone Laboratories, received the 1961 Hoover Medal for "distinguished public service." The medal was presented by former President Herbert Hoover during a dedication ceremony in November at the recently completed United Engineering Center, United Nations Plaza, in New York. The Hoover medal was established in 1930 by four engineering societies. The citation hailed Dr. Kelly for "dedicated efforts" toward "greatly improved communications" and inspired leadership in the creation of a great United Engineering Center.

DEATHS

ALICE LILLY DUCK, 96, Lexington, in December after long illness. Survivors include a sister, Miss Margaret S. Duck, Lexington, and a brother, Charles Curtis Duck, Indianapolis, Ind.

DR. HOWARD C. YATES, '08, San Marino, California, in November.

VIRGIL MOORE, '09, former Madisonville attorney, at his home in Miami, Florida in December. Survivors include a son, James A. Moore, Philadelphia, and two brothers.

MRS. MAMIE TAYLOR SHOUSE, '13, Clearwater, Fla., and former native

of Lexington, after long illness, in December.

LEO J. SANDMANN, '14, Louisville, in December. An authority on admiralty law, he held three degrees from the University. Survivors include his wife, Mrs. Julia DeBoor Sandmann, his father, two sons and a daughter.

SAMUEL NEWTON COURTNEY, '15, Woodhaven, New York, of a heart attack last April. He is survived by his wife.

HARRY C. WILLIAMS, '15, Houston, Texas, recently. He is survived by his wife.

JOHN M. McROBERTS, '17, Lancaster, in December, after a year's illness. He is survived by his wife, Mrs. Mary May Walker McRoberts, and a sister.

GEORGE B. SHANKLIN, '11, Schenectady, New York, in November. He was formerly a consulting engineer with the General Electric Company. Survivors include his wife, Mrs. Lavinia van der Bogert Shanklin, a daughter and two sons.

1921-1930

H. E. "POP" GLENN, 22, Clemson, S. C., founder of the Engineering Experiment Station at Clemson College, has retired. He was a professor of civil engineering there for 37 years and served also as director of planning.

JOY PRIDE, '28, formerly of Lexington, is art director of McCormick-Mathers Publishing Co., Wichita, Kansas.

DEATHS

BAILEY BAXTER, '22, Waco, Texas, in December at his home in Waco. He was a native of Richmond and is survived by his wife, a daughter, and brother.

T. HEDGER OLIVER, '26, Trinidad, Texas on December 12. He was a native of Lexington and was plant superintendent of the Texas Power & Light Company in Trinidad. He is survived by his wife, Mrs. Edna Berkele Oliver.

REUBEN H. TAYLOR, '27, Lexington, in November. He is survived by two brothers and a sister.

PAUL R. SANDERS, '28, Charleston, S. C., in November.

F. A. WIEMAN, '29, formerly of Lexington, at his home in Oak Park, Ill. in January. He is survived by his wife, Mrs. Ruth McCarthy Wiemann, a daughter, two sisters, and a brother.

MRS. LUCILLE C. CHANSLOR, '30, Lexington, in January. Survivors include her husband, Isaac F. Chanslor, and a daughter, Mrs. Thomas J. Weathers, Lexington.

JOSEPH E. JOHNSON, JR., '28, Lexington, at his home in November. He is survived by his wife, Mrs. Margaret Williams Johnson, a daughter, Mrs. C. M. Price, Louisville, and two sons, Joseph E. Johnson III, and Graddy W. Johnson, Lexington.

EDD R. GREGG, former student, Louisville, in November, in Louisville. He was a former president of the Kentucky Chapter, American Institute of Architects. He is survived by his wife, Cissy Gregg, home consultant of the Courier-Journal.

BURGESS CAREY, former student, Lexington, in December, in Lexington. He was a partner in the Carey Construction Company and was chairman of the board of the Southern Amiesite Asphalt Co., Birmingham, Ala. He was the second University of Kentucky basketball player to be named an All-American. Survivors include his wife, Mrs. Charlotte Gilboy Carey; a daughter, Mrs. Robert A. Mason and a son, George B. Carey III, all of Lexington.

MRS. HAZEL J. SCUDDER, '54, Lexington, is superintendent of the Fort Benning, Ga. Dependent School System. She received a Master's degree in educational administration from UK and was a member of the History Department staff during World War II.

1931-1940

ROBERT D. HESS, '36, Metairie, Louisiana, has been promoted to vice president of the National Bank of Commerce, New Orleans. Mr. Hess joined the bank in 1954 as director of public relations. Active in civic affairs, he has served as president of the Advertising Club of New Orleans.

SHERMAN HINKEBEIN, '38, owner of Baynham's Evansville, Indiana, has been elected regional vice-president of the National Shoe Retailers Association. A member of the Alumni Century Club, he is a former captain of the UK football team.

HARRY M. ZIMMERMAN, '40, formerly of Louisville, has been named group manager of diversified divisions of the Seiberling Rubber Company, Akron, Ohio.

LOWELL S. PELFREY, '37, Inglewood, N. J., has been named Director of Research and Development for Trans-Sil Corporation, a subsidiary of Raytheon Company.

J. MILTON RUSH, '35, Louisville, is Manager of the Raleigh Premium Center for the Brown & Williamson Tobacco Company.

DEATHS

GEORGE THOMAS GESS, '36, Lexington, at his home, in October. He is survived by his mother, a son, and a brother.

MRS. WILLIAM B. ARDERY (Georgia Weedon), who attended the University in 1933, in Washington, D. C., in December. She is survived by her husband, two daughters and a son.

TROY SAVAGE, '38, in Frankfort, in November. He was an assistant attorney general for Kentucky and was a native of Hitchins. He is survived by his wife, Mrs. Hazel Hall Savage.

JOSEPH LAWRENCE HARRINGTON, '40, Jackson, Tenn., in an automobile accident, last April. He is survived by his wife and two children.

MRS. MARVIN STEWART (Martha Wilma Carlton, '33), Louisville, last June, in Louisville.

1941-1950

THOMAS M. NEWELL, '48, Helena, Montana, has joined the marketing department of Monsanto Chemical Company's Inorganic Chemicals Division at St. Louis.

MRS. LAURA PICKRELL BEVERLY, '48, is the new home economist with the Old Dominion Power Company in the Norton, Virginia district.

MILTON H. LEWIS, '44, Pineville, has been appointed assistant division manager of Kentucky Utilities Company.

J. A. CAYWOOD, '44, has been appointed chief engineer of the B&O Railroad with headquarters at Baltimore.

JOE LEHMAN, '44, Lexington has been appointed associate director of the News Bureau at Indiana University, Bloomington, Indiana. He was formerly assistant professor of English and director of college publications for Transylvania College.

CAPT. DEAN G. YOUNGMAN, '50, Owensboro, is a member of the 123d Armor's 2d Medium Tank Battalion which recently was recalled to active duty and assigned at Fort Stewart, Ga.

ROBERT O. MCGARY, '28, Westfield, New Jersey, has been elected president and chief executive officer of Buensod-Stacey Corporation, New York. He is a native of Owensboro.

Before going to active duty, he was employed by the General Electric Company at Owensboro.

W. C. PADON, '50, Paducah, has been named Director of Public Relations of the Kentucky Farm Bureau Federation in Louisville.

DR. CLAYTON L. THOMAS, '44, Wilbraham, Mass., has been appointed Research Associate of the College of Medicine of Cornell University and Assistant Attending Obstetrician and Gynecologist of New York Lying-In Hospital.

WAYNE DAUGHERTY, '49, Frankfort, is the new President of the Kentucky Society of Professional Engineers. He is a former vice-president of the Kentucky Chamber of Commerce.

DR. J. HAROLD GREENLEE, '44, Wilmore, Chairman of the Division of Biblical Literature and Professor of Testament Language in Asbury Theological Seminary, has been awarded a prize of five hundred dollars by the Christian Research Foundation, Inc. for his manuscript of a book entitled *New Testament Textual Criticism for Beginners*.

1951-1961

DR. ALFRED L. BARR, '57, of Arlington, Va., has been appointed an associate professor of agricultural economics and rural sociology at West Virginia University.

JAMES POYNTER, '60, of Danville is coaching football at Glasgow High School, Glasgow, Ky.

EMORY S. CONYERS, '61, Cynthiana and **A. J. POWELL**, '61, Newcastle, have received research assistantships at Ohio State University. Conyers is doing graduate work in soil physics and Powell is studying soil fertility.

DR. WILLIAM M. BASS, '56, is an assistant professor of physical anthropology at the University of Kansas, Lawrence.

DR. ROBERT C. NICHOLS, '54, formerly assistant professor of psychology at Purdue University, has been appointed a research associate by the National Merit Scholarship Corporation. He will conduct studies concerning the personality traits of intellectually talented students.

ROBERT DARLINGTON, '56, Lexington, a graduate student in the Department of Microbiology at the University of Mississippi Medical Center, received the first Strawinski Memorial Research Award at the December meeting of the South Central Branch of the American Society for Microbiology. He holds his B.S. and M.S. degrees in microbiology from UK and received this award for outstanding student research in microbiology.

DONALD E. MAYNARD, '58, of Rochester, New York, received a doctor of philosophy degree from Ohio State University in December.

LT. BOBBY R. BUCHANAN, '54, Waverly, Ky. has been assigned to the 100th Infantry Division of the Army, Ft. Chaffee, Ark.

LT. JOHN L. KUEGEL, '56, Owensboro, has also been assigned to the 100th Division of the Army, Ft. Chaffee, Ark.

LT. WENDELL R. TRUMBO, '59, Lexington, has been assigned as a U.S. Air Force planning engineer at the Air Force Electronic Systems Division, L. G. Hamscom Field, Mass.

DR. JAMES L. WYATT, '47, of Lexington has been named vice president for program development at the Armour Research Foundation of Illinois Institute of Technology, Chicago.

LT. JOHN C. BOSTON, JR., former student, is assistant operations officer at Cherry Point Marine Air Station. Lt. Boston is married to the former Lenore Meyer of Milwaukee, and they reside at Havelock, North Carolina. They are the parents of two daughters, Lori Jeanette and Leslie Hunter.

LT. MICHAEL L. VAUGHAN, '61, Ft. Mitchell, has entered U. S. Air Force pilot training at Reese AFB, Texas.

MRS. JOHN A. TERRILL, JR., (Courtney Noel), '56, a teacher at Yates Elementary School in Lexington, has been elected president of the Fayette County Education Association.

DAVID A. FLANAGAN, '60, Lexington is with Kentucky Utilities Company at Elizabethtown.

DR. CHARLES W. KENNEY, former student of Lexington, has opened an office in Lexington for the practice of general dentistry. He received his pre-dental training at UK and was graduated in 1959 from the Baylor University College of Dentistry in Dallas, Texas.

MARVIN G. HOSKINS, '58, Pineville, has accepted a position as a sales representative with Eli Lilly and Company in Atlanta.

MARRIAGES

NANCY JANE ADAMS, '45, Lexington and **Harris E. Willingham, Jr.**, Louisville, October, in Lexington.

CATHERINE ROWADY, '47, Winchester and **Samuel Newton Hamilton**, Xenia, Ohio, November, in Lexington.

DEATHS

MAURICE L. VAUGHN, '48, former resident of Maytown and Martin, October 20 in Oak Ridge, Tenn. Survivors are his wife, Mrs. Peggy Jo Allen Vaughn, three children, his parents, a brother and sister.

MRS. VIRGINIA SMITH STECH, '45, January, in Philadelphia. She was a resident of Lexington for many years and formerly taught at Lafayette High School. Survivors are her husband Charles Stech, Princeton, New Jersey, and her mother, Mrs. Blanche LaRue Smith, Lexington.

MRS. SUE ANNA THOMAS WALLACE, '47, in October at New Albany, Indiana. Survivors include her husband, three daughters, her parents, and a sister.

CHESTER A. ROSE, '41, of Louisville, July 15, in Louisville.

MILTON S. SMITH, '08, Arlington, Va., has been named chairman of the board of directors of Buensod-Stacey Corporation, a subsidiary of Aeronca Manufacturing Corporation. A member of the Alumni Century Club, Mr. Smith was one of the founders of Buensod-Stacey in 1935. He has spent a life-time in the air conditioning and refrigeration industries.

MARRIAGES

PHOEBE BECKNER ESTES, '59, Lexington and Alden Taylor Bryan, Cambridge, Mass., September 9, in Lexington.

Mary Margaret Campbell, Sharpsburg and **ROBERT DUANE EVANS, '60**, Harlan, December, in Sharpsburg.

CAROLYN KAY STROUD, '61, Lexington and **RAYMOND FRANCIS CONNELL, '56**, Paris, October in Lexington.

LYNNE TYLER, former student, Lexington and **GARRETT W. TYLER, '59**, Knoxville, Tenn., October in Lexington.

Mahala Napier, Lorain, Ohio and **RICHARD JOEL WRITT, '59**, Lexington, October, in Lorain.

Margaret Kay Bowman and **IVID MARION JOHNSON, JR., '59**, Potosi, Mo., October 9 in Webster Groves, Mo.

Betty Ann Withers, Lexington and **LT. WILLIAM H. GADDIE, '58**, Great Falls, Montana and formerly of Danville, Ky., October, in Lexington.

MARY LEAH RANKLEY, '59, Campbellsburg and Eugene Victor Atkinson, Lexington, November, in Campbellsburg.

VIRGINIA FINCEL, '61, Frankfort and **CARROLL MORRIS REDFORD, JR., '59**, Glasgow, November, in Frankfort.

EMAJO COCANOUGH, '61, and Richard Dwsley Carlton, both of Lebanon, December 17, in Lebanon.

JOYCE AILEEN RUSSELL, '61, Springfield, and Patrick Gray Caskey, former student, Lebanon, December, in Springfield.

Jeanne Maree Adams, Richmond and **SAM PRICE SIMPSON, '61**, Nicholasville, December, in Richmond.

SARABEL HIERONYMOUS, '61, and **THOMAS ERWIN TRUEMPY, '61**, both of Lexington, December, in Lexington.

BETTY ANN MARCUM, '61, Irvine and **LEWIS POPE McLEAN, '60**, Lexington, December, in Irvine.

Kathryn James, Huntsville, Ala., and **THOMAS W. REID, '59**, Louisa, December 2, in Huntsville.

BETTY JO BEE, '60, Lexington and **ENSIGN LOREN EDWARD ROYAL, '61**, Hartford, December 23, in San Diego, Calif.

PATRICIA LEE SCHOOLER, '61, Lancaster and Joe W. Terry, Cookeville, Tenn., December, in Nashville.

CAROLYN FRANCES HOUSTON, '61, Lexington and **WILLIAM DALE HESTER, '61**, Louisville, December 27, in Jellico, Tenn.

BETTY JO TUTTLE, former student, Versailles and **JERRY ALLEN RISK, '59**, Lexington, November 25, in Versailles.

SYDNEY CHRISTINE SMITH, '58, Lexington and Henry Dormitzer II, Cohasset, Mass., November 24, in Salem, Mass.

Myrtle Alice Caudill, Winchester and **AUBREY ETHERINGTON, JR., '59**, Lawrenceburg, November, in Winchester.

Mary Virginia Nave, former student, Frankfort, and **SIDNEY NOLAND**

CAPTAIN ROBERT H. BRADSHAW, '34, formerly of Flemingsburg, is the Senior Medical Officer on the Attack Carrier USS Forrestal. He has served as Senior Medical Officer to the Naval Station, Annapolis, Md., and has completed 20 years of service in the Navy. A member of the Alumni Century Club, he is married to the former Elizabeth L. Adams of Ewing, Kentucky and they have three daughters and a son, Robert, who is now enrolled at UK.

WHITE, '54, Lexington, November 2 in Lexington.

BARBARA SUE GREER, '61, Knott and Brad Nelson Walden, Vanceboro, November, in Lexington.

MARY ANN STEWART, former student, Lexington and **HILTON MCGROE WITHERS, '60**, Berry, November, in Lexington.

JOY C. DICKENS, '61, and **JAMES WALTER FOGG, '61**, both formerly of Lexington, November 11, in Trenton, N. J.

Joyce Anne Bartley, Eaton Rapids, Mich., and **LT. WILLIAM HOWARD KENNOY, '60**, Lexington, December, in Marshall, Mich.

DR. JOSEPH AUBREY BOYD, '47, a native of Oscar, Kentucky, has been appointed Vice President and Assistant to the President of Radiation, Inc., Melbourne, Florida. He received his Master's degree in Electrical Engineering from UK in 1949 and his doctorate from the University of Michigan in 1954. He was formerly Director of the University of Michigan Institute of Science and Technology.

DAVID W. YOUNG, '31, Homewood, Ill., received the 1961 Merit Award presented annually by the Chicago Technical Societies Council to a distinguished scientist in the Chicago area on the basis of his scientific and technical achievements and his contribution to civic betterment. Mr. Young received his Master's degree from UK in 1935. He has had a distinguished career in industrial research and is one of the leading inventors in the petroleum industry.

DR. HARRY R. WALKER, '35, Oakland, California, has been elected President of the Association of Bone and Joint Surgeons for 1961-62. He is also Regent for the Northern California Chapter, International College of Surgeons. A member of the Alumni Century Club, he is married to the former Elizabeth Leslie, '35.

BIRTHS

Frederick H. Pfarrer, III and Mrs. Pfarrer (DONNA KATHRYN LAWSON, '60) of Louisville, a daughter, Anne Lawson, December 8.

BILLY RAY LICKERT, '61 and Sue Pearce Lickert, of Lexington, a son, Ralph Richard, in November.

CARROLL COLEMAN CINNAMOND, '61 and CATHERINE GEORGE CINNAMOND, former student, of Louisville, twin daughters, Rebecca Carroll and Catherine Anne, September 28.

Samuel H. Norris and Mrs. Norris (ANNE OWEN, '60), Glasgow, a son, Steven Samuel, on July 4.

Robert William Udy and Mrs. Udy (ELEANOR FISH, '58), of Gainesville,

Florida, their first child, a daughter, in January.

D. Vertrees Hollingsworth and Mrs. Hollingsworth (ALICE BROADBENT, '60), of Cincinnati, a son, Eben Lewis, in January.

ARTHUR K. LINVILLE, '54 and Mrs. Linville of Salt Lake City, Utah, a daughter, Karen Gayle, on September 6.

CLIFFORD W. RANDALL, '59 and Mrs. Randall (PHYLLIS MAE AMIS, '60), of Portsmouth, Va., a son, Andrew Amis, on October 30.

DOUGLAS McCULLOUGH, '58 and Mrs. McCullough (ANNE MURPHY, '59), of Lexington, a son, Henry Cole, in December.

Nearly 480 students have enrolled for a television class in "Introduction to Physical Anthropology" according to Dr. C. E. Snow, professor of Anthropology and instructor for the course. This is the largest number of students ever to enroll in the course. The results of this course have been that students are more attentive and are therefore making better grades, Dr. Snow said. Television sets are located in the main studio of the University radio station and Memorial Hall.

During the 41 years of the presidency of Dr. James K. Patterson at UK, he signed only 896 diplomas. President Frank G. Dickey signs about twice that many each year.

ALUMNI! – REUNION DAY – JUNE 9, 1962

Come Back to UK in June!

GOLDEN ANNIVERSARY (50th)—Class of 1912

SUNDAY, JUNE 10

BACCALAUREATE—4:00 P.M., Memorial Coliseum

*RECEPTION—5:00 P.M., Maxwell Place, President and Mrs. Frank G. Dickey
Hosts: Alumni, seniors, parents and faculty are invited.

MONDAY, JUNE 11

95th ANNUAL COMMENCEMENT—
10:00 A.M., Memorial Coliseum
(All Times listed are Eastern Standard)

* The reception has been changed to Sunday in order to give the participants in the alumni programs a better opportunity to attend.

Detailed information will be mailed to all alumni in reunion classes. If any group wishes to plan a special party or get-together, please write to the Alumni Office, Room 124, SUB, University of Kentucky, Lexington, Ky., and so specify.

Alumni and alumnae, their husbands, wives, children, and friends are cordially invited to return to UK this June for a gala reunion.
