

The University Faculty met in the Assembly Room of Lafferty Hall, Monday, May 11, 1953 at 3:00 p.m., C.S.T. In the absence of President Donovan, Vice President Leo M. Chamberlain presided. Members absent were C. A. Anderson, H. W. Beers, H. H. Downing, Merton England, Carsie Hammonds, Fred Harris, Sarah B. Holmes*, George Lawson, W. L. Matthews, Jr., L. E. Meece*, D. M. Seath, A. E. Slesser, Lawrence Thompson, Kenneth Vanlandingham, Frank J. Welch, and H. E. Wetzel*.

The minutes of April 6, 1953 were read and approved.

Acting Associate Dean Steele presented for the College of Agriculture and Home Economics a recommendation for a new course and certain course changes which were approved by the Faculty as follows:

New Course

Agricultural Extension 101: Principles of Agricultural Extension (3)
Philosophy, history and development of Agricultural Extension; evaluation of instructional techniques; leadership training; and practice in use of Extension methods. Three lectures per week. Open to juniors, seniors and graduate students.
(Effective September, 1953)

Course to be Dropped (Effective September, 1953)

Agricultural Extension 101, Methods in Agricultural Extension (1)

(Note: Agricultural Extension 101, Principles of Agricultural Extension, 3 credits, is designed to fill a pressing professional need for those planning to engage in Agricultural Extension. It will also be useful to others interested in problems of rural leadership.)

Change in Credit

Change Animal Industry 128, Technical Control of Dairy Products, from three credits to four credits by the addition of a lecture period. The catalog description will be changed only to that extent, as follows:

An Ind 128, Technical Control of Dairy Products (4)
Various chemical and bacteriological tests used in the control of production or processing of dairy products. Offered in 1954-55 and alternate years. Lecture, 1 hour; lab, six hours. Prerequisite: An Ind 21, 123, 124.

Dean Slone presented for the College of Pharmacy a recommendation that the requirements for the degree of Bachelor of Science in Pharmacy be modified so that the total credit required would be 133 semester hours exclusive of military science and physical education. The University Faculty approved the recommendation from the College of Pharmacy.

Dr. William S. Ward read a report from the Committee on Planning and Policy as follows:

The Committee on Policy and Planning has made a preliminary examination of academic practices in several state universities.

and is of the opinion that the minimum requirements for academic success in the University of Kentucky are too low, not only ideally but in comparison with the majority of schools of comparable classification whose practices have been studied.

The Committee moves, therefore, that the Chairman of this Faculty appoint a committee to study the whole matter of minimum requirements for academic success in the University of Kentucky.

As a result of its inquiries into practices here and elsewhere the Committee suggests that among other aspects of the matter the special committee study the following:

- 1) The wisdom of requiring a minimum point standing in addition to the present requirement of merely making a passing grade in three-fourths of the normal load required by the various colleges. It is suggested that a graduated standing which ranges upward through the freshman, sophomore, and junior-senior years be considered.
- 2) The wisdom of modifying the present point system so that the grades of D and E are given different values, such as A equals 4, B equals 3, C equals 2, D equals 1, E equals 0; or A equals 3, B equals 2, C equals 1, D equals 0, E equals -1. One advantage of such a modification would be that an E would cease to be a more attractive grade (under certain circumstances) than a D.
- 3) The wisdom of calculating standings for graduation on the basis of all work attempted instead of on that portion of the work offered for graduation. (The committee understands that at present one method of computing standings is employed when a student wishes to join an organization, a more lenient one when he wishes to graduate.)
- 4) The wisdom of having the probation and suspension regulations placed on an automatic basis (rather than on a permissive basis, as at present) with the Committee on Scholarship and Attendance empowered to set the rule aside in such cases as may be deemed wise.

The Committee

Harold P. Adams
W. P. Garrigus
Sarah B. Holmes
Gladys Kammerer
Lawrence S. Thompson
William S. Ward, Chairman

The University Faculty voted approval of the recommendations of the Committee on Planning and Policy.

Dr. Scherago introduced Brigadier General Elbert DeCoursey, a member of the class of 1924. He stated that General DeCoursey who is the Director of the Armed Forces Institute of Pathology in Washington, D. C. would speak that evening on "Ionizing Radiation Injury to the Reticulo-endothelial System."

Dr. Chamberlain reported that President Donovan was improving rapidly and hoped to be able to return to the campus in the near future.

The Faculty adjourned.
