## Fans line up to get first glimpse of Cats

By DWAYNE HUFF Staff Writer

For sophomore Chris Yates, this year's Midnight Madness was going to be different.

After the football game last year, Yates barely made it to UK's first practice after running to Memorial Coliseum.

practice and Coliseum.
"I made it in the last 10 rows of the Coliseum," Yates said. "So I decided to come earlier this year."
This year, Yates, along with fellow sophomore Tim Meade and freshman Chonda Harris, got in line at 4:30 p.m. only to find that they were not in the top 100 people in line.

That fact didn't bother a lot of

other people. The gates were not supposed to officially open until 8 last night, but anticipation created a huge line which stretched down Euclid Avenue, through the Hardee's parking lot and behind Memorial Coliseum.

As soon as the gates opened, eager fans rushed into two doors in the front of the Coliseum.

Yates wasn't worried. He said he is just looking forward to the start of the basketball season.

"I think that they will surprise a lot of people this year," he said. "I can see them winning 18 games this year."

Harris wasn't so optimistic about

year."
Harris wasn't so optimistic about
this year, instead focusing on next an

"If they do well on the road, they may win 18 games," Harris said about Yates' comment. "I'm reall looking forward to next year." Although their opinions differed on the team play, Harris and Yates both agreed on one thing.
"I' want to see (Jamal) Mashburn play," Harris said with excitement.
"There is no way that they can keep Mashburn out of the lineup," Yates added.
Although the trio waited for three

Yates added.

Although the trio waited for three and a half hours just to get into the Coliseum, they ween't even close to getting the "from Man" award for the longest wait.

That honor went to Gary Phelps and a group of his friends.

The group had been waiting out-

side the front door of Memorial Coliseum since 1:30 p.m. before they, along with countless other Big Blue fans, finally got their first glimpse of this year's version of the UK basketball team.

"I just love basketball," Phelps said. "Especially when it's Rick Ptino basketball."

Phelps and his companions Kim Robbins, Wendy Rice, Larry Rice, Stephen Rader and Piper Swanson were in the first group of students in line, and played games of spades to pass the time.

It was the seventh straight Midnight Madness for Rader, who grad-

## Home worth coming to for students, alumni

### Yelling like hell, crowd cheers on Cats, school

By MEREDITH LITTLE

UK fans were literally blue at last Friday night's cold, soggy Wildcat Roar, but the chilly temperatures didn't keep them from cheering the Cats on as they "Yelled Like Hell." About 4200 students, alumni and fans came out for the annual prehomecoming pep rally at Commowealth Stadium, moved this year from Thursday night to Homecoming Eve.

from Thursday night to Homecoming Eve.
Wildcat Roar organizers said although the weather probably kept some people home, the turnout was better than in past years.
"I know of a lot of parents who got to come to Wildcat Roar this year," because it was held on Friday, said organizer Tonya Mitchum. 'And the community college princesses got to come ... and some of the player's parents.
"It went better than I ever expected it to go," she said.

ed it to go," she said.

After the cheerleading squad led the crowd through several cheers, UK Football Coach Bill Curry urged them to carry those cheers over to the next day's homecoming

want you to save that enthum for tomorrow night," he said.

Saying it is "easy to talk about building championships," Curry emphasized the importance of stick-ing with the team even when losses

ing with the team even when we need you the most ... what we really want to do is turn the corner in about 25 hours right here," he said. "I think you're a fine student body," he said, telling fans to "stick here."

your time here and as alumni of this great university."

your time here and as alumni of this great university."

Although the football team was absent, outside linebacker Randy Holleran and injured quarterback Freddie Maggard spoke briefly.

Maggard repeated Curry's call for the crowd to bring that enthusiasm to the game, saying it is difficult for anyone who hasn't played out on the field to realize the difference student support can make.

"It's a great thrill for me and my teammates to have you come out and support us," Maggard said.

### **Dynamics** produce balance

The search for a balance be-tween emotion and ability ended for the UK football team Satur-

day.

And Coach Bill Curry can only

and coach Bill Curry can only

hope that some unknown factor won't enter in and tip the scales. Curry, if for just a brief mo-ment in this 1990 football season,

Curry, if for just a brief moment in this 1990 football season, has found the balance.

A couple of potential stars — fullback Terry Samuels and rover Larry Jackson — helped Curry and the team find it.

The big, rugged can-do Samuels scored both UK touchdowns and led the backfield in both rushing and receiving, while the smaller, lively Jackson ran the field like a wild man — a wild man with a strict purpose.

And when we search into the dynamics of UK's football team, we see that their performances were linked together, and that the connection made victory possible for UK.

First we have Samuels. A red-shirt freshman, he takes the game

shirt freshman, he takes the game seriously — he is into praying along with a sort of pre-game meditation to get what he wants out of a football game.

"Just prayed a whole lot," the huge, smiling Samuels said demurely in his "Win Together" is hirt."... I envisioned myself doing it and I went out and did it." When watching Samuels make the big plays and catch the passes that so many Cats were dropping, one thing shone through; the man knows action.

one thing stone unrough; the missing was the work and the work of the work of

"(Samuels) is the kind of player who tries to win the

player who tries to win the game."

And his determination wore off on the rest of the team. He, along with players like Randy Holleran, Al Baker and Jeff Brady, was a source of stability on a mostly unstable team. The team fed on his strength. And on his emotion. "Two of them (touchdowns) in the same night," Samuels said, realizing the magnitude of what he had done. "I was running around (in his touchdown celebrations) not knowing which way to go.

"... I like to come out there and give the team a boost, be and give the team a boost, be cause sometimes you get flat .. You have to roar and holler."

Jackson, a junior rover, felt it.
Unlike the solid-demeanored
Samuels, Jackson picked up the emotion emanating from his teammates and, like a lightning rod, internalized it.

Then he let it loose on the

Bulldogs.
"It was the team atmosphere that helped me more than anything," he said. "I felt it. This was one of the funnest games I've ever played in."
Fun, Jackson had. He electrified the field with his mad, flying exploits.

exploits.

He flew into MSU's backfield as they attempted to score from three yards out of the end zone and threw them for an eight-yard

loss.

He blew up the middle of the field to stop the talented punt returner Tony James in his flashy tracks. He batted a pass on a third down situation which led to one of UK's three blocked field

of UK's three biocket new goals.
He did these things with what he called "butterflies."
And that may have been UK's driving force — sheer nervous energy transformed into winning performance by a hard inner core of determination.
"It's contagious," Holleran said of the emotion that coursed through the Cats' veins.
We saw it as Gary Willis and Ves Saw it as Gary Gould blocked kicks. We saw it in deflicted passes by Brady and Jackson.

son.

All that along with some bumbling and a little stumbling. At the crucial moments, however, the line was held by the Cats.

The scale was steady.

Sports Editor Bob Norman is an English major and Kernel col-

## Unexpected events lead UK to victory

By DWAYNE HUFF

Need a stellar defensive play to stop a two-point conversion attempt that would have tied the game in the fourth quarter? Sure. How about three blocked field goal attempts? Easy. What about a big game from two first-time starters? No problem. Whatever the situation, UK was prepared to deliver in the Wildcats' 17-15 homecoming win over Mis-sissippi State.

prepared to deliver in the Wildcats' 17-15 homecoming win over Mississippi State.
With all these unexpected factors, however, UK still managed to nearly blow the game.
Take, for example, kicker Doug Pelfrey. He missed a 25-yard chipstot field goal that would have put the Cats in front 20-15 with 6:17 left in the game.
Or fullback Dale See. One rushing attempt, one fumble on UK's 36-yard line with 3:30 remaining in the first half.
In short, both teams made mis-

In short, both teams made mis-takes that left the game in doubt for the Cats until the final minute of the

the Cats until the final minute of the game.

"We've been telling Kentucky fans not to leave in the fourth quarter, but we didn't intend for it to be that interesting." Curry said in the post-game press conference. "We would like for it to be a little more dull in the last two or three minutes of the game."

Another factor that nearly led to UK's downfail was the defensive letdown in the second half.

Mississippi State quarterback Tony Shell picked apart the UK secondary for 309 yards white UK's defensive line was stood up at the line of scrimmage.

Shell hit Willie Harris for a 50-

shell hit Willie Harris for a 50yard touchdown pass that drew the Bulldogs to within a touchdown and a conversion at 17-9. Harris leapt

Invitational

take own

high to make a flying two-handed grab in the end zone just as Adrian Sherwood adjusted to make his belated attempt to break up the play. But kicker Joel Logan's extra-point attempt was wide and eventually came back to haunt the Bulldogs.

Shell struck again early in the fourth quarter when he hooked up with Jerry Bouldin on a 23-yard touchdown strike that burnt corner-back Chris Tolbert.

"We got a hold of a quarterback with a hot hand," Curry said. "We threw people at him. We had people in his face and we were able to stop him when it counted."

Luckily for UK, the more positive aspects of their play managed to nurse the Cats to its first Southeastern Conference win of the season and second win overall.

Once again UK's knack of batting down opposing team's field goal and punt attempts proved to be the deciding factor in the win.

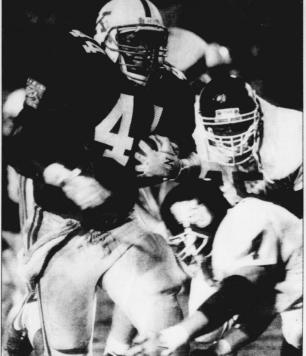

On two consecutive possessions in the second quarter, MSU came away with no points, thanks to Gary Willis and Jon Collins. Both blocked field-goal attempts. But Sats field goal attempt with 3-26 remaining in the fourth quarter that, if made, would have given MSU the lead.

"Just Stab and the adrenaline flowing." Couch said. "I about

the lead.
"I guess I had the adrenaline flowing," Couch said. "I about broke my hand, but it was worth it. I knew I was going to block it. I said 'I'm going to block it.' I told (defensive lineman Brad) Shuford that I was going to get it. I guess that's what it takes. You've got to believe."

believe."

UK also got some big play from first-time starters Terry Samuels and Larry Jackson. Samuels, making his first start at fullback, rushed for 52 yards on 11 carries and

Fullback Terry Samuels powers ahead against MSU. He scored both UK touchdowns in the game

caught seven passes for 57 yards and two touchdowns.

Jackson, the new starter at rover, made several key defensive plays in-blocked field goal attempts.

"Jackson has been playing better and better and better," Curry said. "He earned the starting job with tre-mendous work and a great attitude."

## Yancey to lead

By JEFF DRUMMOND

The UK womens' golf team won its second tournament of the fall season this weekend, cruising to 919-stroke victory in its own Lady Kat Invitational at Spring Lake Country Club.

UK shot a 303 (+7) in the final 18 belee of a sein photograph tournament.

holes of a rain-shortened tourna-ment to finish at 608. The Kats' SEC rival, Alabama, finshed second

"I'm really happy for Tonya (Gill)," said Coach Bettie Lou Evans. "She was a little down on herself with the way she played in Ohio, but she came through for us and had a wonderful tournament."

UK had four golfers in the top 10 and every Lady Kat finished within nine strokes of Gill. Lisa Weismeller finished fourth at 153 (+5). Jayne Lohr and Dolores Nava tied for fifth at 154 (+6) and Chris Miller placed in a tie for eighth at 157 (+9).

"This really shows the balance of

for lith at 154 (49).

This really shows the balance of our team," said Evans. "When you have four people in the top ten, it's tremendous. That's what it takes to win tournaments."

Evans said the victory was hard-earned considering the wet and windy conditions in which the tournament was played. "You can really get down and discouraged when the weather conditions are like that," she said.

The win marked the third time in four tournaments the Lady Kats have placed either first or second as the team continues to charge through its fall shedule.

"I'm really excited about the way we played." said Evans. "I'm especially pleased with the way we bounced back from last week."

The Lady Kats were disappointed with an eighth-place finish last week at Ohio State University despite playing against five of the top seven teams in the nation.

"I' felt we took a step backwards at Ohio State," said Evans. "... We had some really good competition here. I think this (win) was two steps forward for us and we regained some confidence."

# UK team

By JOHN KARMAN

As the UK tennis team begins another season, expectations are high — especially for junior John Yancey.

After all, Yancey returns from a season in which he became recognized as one of the nation's top players and eventually achieved All-American status. This year, he and partner lan Skidmore are ranked fourth in the country in doubles.

araked fourth in the country in doubles.

Despite last year's success, Yancey says he does not feel increased pressure at the heightened expectations for him this season.

"I've improved over the summer," the Grosse Pointe, Mich, native said. "I've played against the top schools for two years now. I'm not as nervous as before."

An improved Yancey anchors a team that returns seven of eight top players and is full of young talent. The team won its first tournament of the season at Ball Stateduring the first weekend of October.

during the first weekend of Octo-ber.

Head Coach Dennis Emery said
was "really pleased" with the
team's development so far and
better than last year."

Emery, who is in his ninth year
ac coach, said Yancey has the important role of promoting the
development of the team. In short,
Yancey said read the
team by example.

"He's a quiet team leader," said
Emery, "Everyone looks up to him
because of his ability."
Yancey said that he tries to offer
his leadership and experience to
the younger players—as he remembers a time when he wasn't
the seasoned, confident athlete he
is today.
"Yes been there before," said

the seasoned, confident athlete he is today.
"I've been there before," said Yancey, who has been playing tennis since he was 11 years old.
As Emery said, he played his freshman year on "raw ability" and made changes to improve his game as a sophomore.
Now, Emery said, Yancey is "executing better without thinking about the changes." He has reached a stage of reflex and pure

Junior tennis player John Yancey reaches to stroke a shot. Yancey, who was an All-American last season, is expected to lead the tennis team this season with his work ethic and ability.

response to the ball on the court.

Yancey agrees that his game has improved both in the mechanics of tennis and in his mental attitude to-

tentis and in his mental attitude to-ward the game.

"My ground strokes and serve have gotten better," Yancey said.
"I've also matured on the court, I'm a more mature player now." Emery describes Yancey as a very coachable player who is eager to leam."He wants to be a good pro," Emery said.

Emery also believes that Yancey.

Emery said.

Emery said so believes that Yancey has developed into a better practice player. "He's worked hard every day this year," said Emery.

Yancey credits this hard work with better conditioning this fall for both himself and the whole team. "Everybody's in a lot better shape," he said.

One area where Yancey worked particularly hard was on the outdoor track, where running has served as a major part of his

the outcoor dask, where training brasserved as a major part of his training process. Emery said that many of the younger players look to Yancey as a positive example because of his work ethic on the track. The coach said that Yancey is "doing it on guts" in working to improve his conditioning through running. Emery also praised the doubles team by saying that they were among the best in the country in 1989. ]

He also believes that 1990 will be a strong year for Yancey.

"He's capable of winning the NCAAs," and Emery, "He's capable of beating people and not just hoping they lose."

## UK falls to IU's star

By TIM WIESENHAHN

Staff Writer

UK senior James B. Kaiser hounded IU junior Bob Kennedy for nearly five miles Saturday before the 1988 NCAA cross country champion bolted to his second consecutive Indiana Cross Country Invitational championship.

Kaiser, who earned All-SEC honors last season, blitzed the 8,000-meter course in 24 minutes and 54 seconds, just 11 seconds behind Kennedy, leading UK to a fourth-place team finish.

Kaiser's outstanding performance was chood by fellow UK runner, freshman Glenn Franklin.

Pranklin finishhed 12th overall (25:41) and second for the Cats.

"I went out hard hoping to stay with Jim (B. Kaiser). "Franklin said. "That was the main idea, but it took it's toll."

Franklin said that although be gan dropping back after his grapple with Kaiser, he managed to attain a second wind and cruise to his best finish of the season.

Many of UK's best runners — in-

second wind and cruise to his best finish of the season.

Many of UK's best runners — including senior Bob Whelan — opted to train at UK rather than compete.

Senior Alan Thomas finished 30th (26:28), sophomore Damian Nally was 37th (26:33) and Rahid Derricks placed 65th (27:05), rounding-out UK's top five finishers.

LIK sophomore Christa Holms

ricks placed 65th (27:05), roundingout UK's top five finishers.
UK sophomore Christa Holms
guided the Lady Kats to a fifthplace team finish. Holms waltzed
over the 5,000-meter course Saturday in 18 minutes and 16 seconds:
Holms said this year she once
again didn't quite feel "with it."
"I wasn't loose or ready to run,"
Holms said, "At two K (kilometers)
I was basically dying."
Nevertheless, Holms ran well
enough to finish 10th overall.
Sophomore Dana Dietz finished
25rd overall and second for the
Lady Kats (18:57).
Sophomore Jennifer Kendall
shucked her early season sluggishness and finished 25th overall and
third for the Lady Kats (19:01).
Kendall, who missed being selected as an All-American last season
by two places and who underwent
life-threatening surgery last spring
to remove a softball-sized ovarian
cyst, said she is beginning to regain
her confidence.
"I'm finally seeing a sign of improvement — however small that
is," Kendall said.

## Cats get going late, oust Ole Miss

Despite a slow start, the UK volleyball team continued its quest for a Southeastern Conference title yesterday by defeating the University of Mississippi at Memorial Coliseum in four games.

"I was very disappointed with the way that we came out," said UK coach Kathy DeBoer after the 15-11, 11-15, 15-5, 15-9 victory. "We were flat."

UK raised its overall record to 15-6, 3-0 in the SEC, while Ole Miss fell to 7-5, 2-2 in the conference.

The Cats opened the first game looking confused as Ole Miss took an 11-8 lead, five of their scores

playing like indi-viduals instead of a team," UK captain and set-

DeBOER

said. "We were not communicating well. We did get better as the game went on though."

A controversial touch call on spike by UK's Carin Zielimski helped Ole Miss close the gap to 11-9 and turned the momentum in the Cats favor as Ole Miss John Blair was issued a yellow card for ex-

hands, If an official makes a call like that, they have to realize that that is going to happen because the officials are only human also."

In game two, UK was not as lucky to shift the momentum, and Mississippi coasted to a 15-11 win to the the match at one game. However, DeBoer was not going to let her team sit tidle as she took her team in the locker room during the five-minute break.

"I talk to them a little about what to do offensively, but really I challenged them to go back to the game that they felt comfortable with in scoring," DeBoer sid.

DeBoer's challenge paid off as UK switched gears and rode to a 15-5 victory in the third game. They had rougher time in the fourth game, but ousted the Rebels 15-9 to capture the match.

"Kentucky played the points that they needed to win the match. I thought that was the difference," Blair said.

UK's next match will be this Fraorie.

Blair said.

UK's next match will be this Friday against conference favorite Louisiana State University in Baton Rouge. DeBoer said the Wildcats would have to play hard from beginning to end in order upset a team of the Tigers' caliber.

"Like always, it will be a critical matchup," DeBoer said. "We're currently going to have a game plan that will allow us to win that game."

UK setter Laura Linder went up for a block against Mississippi State Friday night. The Cats beat the Bulldogs in three games and beat Mississippi yesterday in four games.

## Change in season helps dance excel

Homecoming weekend provided Excelsior, UK's campuswide dance, with the mixture of students, faculty and alumni that it has long sought. The event, held Friday night at Heritage Hall, owed much of its success to the increased interest shown by alumni, organizers said. The annual event now will be held during homecoming weekend every year.

year.

Excelsior Chairperson Melissa
Rose said alumni from Florida,
North Carolina, Oregon and New
York were among the estimated
crowd of 500.

crowd of 500.

The UK graduating class of 1940 also held its 50-year reunion at the

"We had no idea we'd get this kind of interest," Rose said. "I'm really pleased with the support of the alumni we had. I feel that the evening was a real success because of them."

UK President Charles Wethington attended the event and called it "a good move" to link Excelsior with homecoming.

"Combining it with homecoming makes it more accessible to the community," Wethington said. "It's a great evening. There's a good mix of people and a good crowd."

The crowd danced to the music of The Monarchs, a versatile band from Louisville playing '50s, '60s and '70s music.

Heritage Hall was decorated with blue and white balloons, and vintage and custom cars lined one wall.

"It's like high school all over again," said one student.
According to Leatha Lightsey, who has worked each Excelsior dance since the first one in 1988, there was a more diverse mixture of people in the crowd this year.

"I think the combination of having it with homecoming and the relaxed dress code made more people feel like they could come," said Lightsey.

The dance, previously a formal, was changed to cost-and-tie attire this year.

Some students attending this year said they came out of a sense of cu-

Anthony Mathis, a junior, said he was glad he decided to come.

"I had never been before and I thought it was a good opportunity to get involved in campus activities."
Mathis said. "It seemed like a good way to get in to the homecoming spirit. I'll definitely come again next year."

Debbie Powell, an electrical engineering junior, said she had heard friends talking about the event.

Proceeds from Friday's event will benefit the Excelsior Scholarship fund, which is awarded to needy mi-nority students based on academic standing and need.

## Iraq's fortunes turning on tides of trade

LONDON — Since its ancient days as the granary of the Middle East, Iraq's fortunes have turned on the tides of trade.

International sanctions have changed the rules, and now Baghdad urgently seeks ways to survive alone.

alone.

Exhorting farmers to grow more and citizens to eat less, Saddam Hussein's government is trying to wean Iraq from a deep dependence on imports that range from sugar to spare parts, U.S. and British analysts say.

With Iraq's veil of secrecy drawn even tighter since the invasion of Kuwait on Aug. 2, however, no out-siders have a clear picture of how its economy is faring.

Many analysts believe Iraq can

Many analysts believe Iraq can make do until the spring harvest, de-spite its pre-invasion economic straits and the increasing hardship

spite its potential paradship sanctions will cause.

"Assuming their ability to substitute, produce more and ration, it's conceivable they could last six months," said Sharif Ghalib of the Institute of International Finance in Washington, D.C.

It won't be easy, said Jonathan Crusce, who analyzes Iraq for the Middle East Economic Digest, because "they've been addicted too long" to imports.

Iraq once was home to the ancient civilization of Mesopotamia, which built an intricate irrigation system between the Tigris and Euphrates rivers. It is a developing country, but not a poor one.

but not a poor one.

Per capita annual income is equivalent to about \$3,000 and the Planning Ministry estimated the

1989 gross national product at \$66.19 billion, up from \$57 billion in 1988.

in 1988. With its abundant oil, water, and rain-fed farmlands of the north, Iraq is regarded as having the second greatest potential for economic development in the region, after Iran. Development has been hampered, however, by the costly eight-year war with Iran that began in 1980, rigid state economic controls and extreme dependence on imports and the oil sales needed to pay for them. Its foreign debt is estimated at \$75 billion.

This year, Iran was spending like.

billion.

This year, Iraq was spending liberally on the military and industrialization despite declines in the price of oil, which provided 96 percent of its income.

"The picture was one of a growing cash squeeze at a time when the Iraqis were trying to provide both guns and butter," said Ghalib, director of the Institute's African-Middle East division.

East division.

Since the invasion of Kuwait, Iraq has become virtually an island conomy, its foreign assets frozen and oil sales blocked by U.N. resolutions. In retaliation, it is refusing to repay all foreign debts.

Analysts say the lack of money shouldn't be a problem for Iraq, since there is little for it to buy, unless smuggling increases or the United Nations allows it to receive humanitarian food shipments. Iraq had about \$6.5 billion in gold

and foreign exchange at the time of the invasion, the Institute in Washington said, but it does not know how much of that was frozen abroad. The Iraqis are believed to have stolen \$1.6 billion in Kuwaiti gold and currency.

According to the analysts, the key to Iraq's future lies in its factories and fams, now dependent on imports. Iraq has progressed from making simple goods like bricks and bankets \$50 years ago to heavy industries, including a petrochemical plant.

ling sample govers ago to heavy industries, including a petrochemical plant.

Saddam has tried to expand domestic industry and farming. "Let us think of ourselves as a country without oil." he said in 1987.

In 1989, however, manufacturing accounted for only 14 percent of gross domestic product. The country depends heavily on foreign equipment, parts and expertise, as illustrated by the estimated I million foreign workers and relatives who were in Iraq.

Few details on industry are available, particularly because the war with Iran put civilian industry under military authority.

A forthcoming report by the Middle East Economic Digest says "There is no short-term way that Iraq can start or increase domestic output" of either spare parts or industrial equipment.

Despite Iraqi claims that babies might starve, the analysts say, no one has gone hungry because of the

cent of its food, however, and is vul-nerable.
"Extreme hardship will likely be apparent by the end of the year," ag-ricultural analyst Susan Epstein wrote in a Sept. 25 report for the U.S. Congress.
Still, with rationing and substitu-tions such as potatoes for rice and dates for sugar, the population of 17.4 million could last six months, she said. The departure of thousands of foreign workers also will help. No shortages are apparent so far. Vegetables, harvested in the fall, are plentiful and melons, dates and other fruits abound. This summer's wheat harvest was said to be double that in 1989, a drought year. Meat, other grains and several sta-pless are a problem. Rationing of cooking oil, sugar

ples are a problem.
Rationing of cooking oil, sugar
and bread began six weeks ago and,
two weeks later, allowances were reduced by up to half. Livestock and
chicken, an Iraqi favorite, depended
on imported grain and may have to
be slaughtered.
"Tables should not be crowded
with various types of food and fruit

"Tables should not be crowded with various types of food and fruit as they used to be," Saddam told Iraqii women Aug. 12.

His government has tried to in-pipe farmers by exempting them from military service and paying more for maize and other staples, the Digest reported.

## France, Lebanon quarrel

By RODEINA KENAAN Associated Press

BEIRUT, Lebanon — Lebanon and France quarreled yesterday over the fate of Gen. Michel Aoun, whose 11-month mutiny in the Christian heartland was crushed by a Syrtan-led military bliz.

Aoun remained inside the French Embassy, where he fled during Saturday's attack and was granted asylum.

Lebanese officials were insisting that the 55-year-old general remain in the country for possible trial on charges including the alleged theft of \$75 million from the state treasury.

of \$75 million from the state treasury.

Staccato bursts of machine-gun fire echoed across the pine woods surrounding the shell-shattered presidential palace in the Christian subruto of Baabda. Helmeted Syrian troops searched the hills for supporters of the defeated general.

The final casualty toll from the eight-hour crackdown on Aoun's enclave Saturday stood at 160 dead and 800 wounded, by police count.

The casualties included 32 Syrian soldiers killed and 85 wounded. Their bodies were flown to Damascus by two Syrian amy helicopters, police said.

Syrian soldiers will be Beint's Christian suburb of Hazminyh. Embassy guards mined the walls.

Syrian soldiers and troops of President Elias Hrawi's army besieged the embassy Saturday night, hours after Aoun and three senior aides took refuge there. The embassy compound also houses Ambassador Rene Ala's residence.

## Ben Vereen 'razzle dazzles' crowd

Assistant Arts Editor

Ben Vereen lighted up the stage with his presence last Wednesday night at the Singletary Center for the Arts Concert Hall as more than a thousand people gathered to see this gala benefit performance.

He sang and danced both familiar and unfamiliar tunes with the vigor and pizzaze people associate with the late Sammy Davis, Jr. Vereen, clad in a white shirt and black pants, was backed by his solid group of musicians and their guitars, drums, percussion instruments, saxophones and synthesizers. TheUK Jazz Ensemble, Vince DiMartino, Miles Osland and Dale E. Warren provided wonderful instrumentals throughout the concert as Vereen stretched his vocals to perform soul, funk and rock 'n roll, as well as slow ballads.

One of his most memorable renditions was of "Somewhere Over the Rainbow" from the well-known musical "The Wigart of Oz." With the

Rainbow" from the well-known mu-sical "The Wizard of Oz." With the sical The Wizard of OZ. With the expertise of a professional and the emotional range of an actor, Vereen brought out every possible feeling throughout the nuances in his songs. He caused many people to laugh, cry, and rejoice in this catharsis of a show.

show.

Also, he dedicated "Razzle Dazzle" to Davis Jr. as a tribute to the man who Vereen called his idol, his "Dad." As he began to wiggle his white-gloved fingers, he sang "Give

them razzle dazzle," and he did. Lights flashed spontaneously while he danced enveloping turns, com-bined with artistic flair and counte-

Lights flashed spontaneously while he danced enveloping turns, combined with artistic flair and counternance.

Wednesday night marked his birthday and perhaps that is why Vereen gave his all. He expressed rage and sorrow in a selection from "Les Miserables" and he displayed his religious sprituality in a song from the film "Jesus Christ Superstar." After one hour, Vereen still had energy to jump out into the crowd and share hugs and kisses on many individuals in the audience. Vereen added a thirty-minute encover at the end, using old tunes to liven the already enthusiastic spectators. One song, Ben E. King's "Stand By Me," was so invigorating that people in the audience began to clap and sing together. He managed to get more than a handful of standing ovations and he earned every one of them.

Before he was finished, Vereen applauded the UK students who performed the first half of the benefit concert. Of these groups, the most impressive was New Voices, directed by vibrant Roger Wesby. This coustanding mixture of voices sang the Claudio Monteverdi spiritual "Si ch io vorei morire/I Wanta Die Easy" with passion and feeling. Vereen reminded everyone that without support of the substanding mixture of voices sang the Claudio Monteverdi spiritual "Si ch io vorei morire/I Wanta Die Easy" with passion and feeling. ## Director Cimino fails in 'Desperate Hours'

By D.R. WILLIAMS

Michael Cimino became a respected film director with "The Deer Hunter," but became a household name with the greatest modern film fiasco, "Heaven's Gate."
That movie established Cimino as a man with little or no regard to the wise spending of film money and helped set the stage for the demise of United Artists as a single film studio.

Ever since this disaster, Cimino has been given more than enough

chances to show the greatness he had when "The Deer Hunter" was made. But three films later, Cimino continues to make the same mistakes and has added artistic irresponsibility to his list of offenses after releasing what many in hollywood consider his last-chance-for-success film, "Desperate Hours." Appropriate title, eh? Cimino's latest task seemed a simple one — take Joseph Hayes' novel and Broadway play, which was made into a Bogart flick in the '50s, and remake it with that talental actor of seturballs and shady dudes, Mickey Rourke as Michael Bosworth, the very intelligent, sad-

stic escaped convict who invades a suburban home because he needs a few hours out of the public eye. Of course, tensions run high, unlikely heroes emerge, and violence is always just below the surface, ready to explode. Unless Michael Climino does the film though.

First, the good news. Rourke is always good at rising above bad material and creating a memorable performance in a bad flick. This occurs in "Desperate Hours," since Rourke's first priority is to present a convincing bad guy, and he does it with flying colors.

However, he has a hard time looking very convincing among the many bad performances that occur

throughout the movie. Rourke's female partner-in-crime, played by Kelly Lynch, spends way too much time being hysterical. Her motives for letting Rourke control her and time being hysterical. Her motives for letting Rourke control her and time being hysterical. Her motives for letting Rourke control her and time and the mover clear. His male partners-in-crime always go for extremes that make them utterly inhuman; they either act bored and indifferent or psychotic and screaming.

Mimi Rogers, who after this movie will still be known as just Tom Cruise's ex-wife, has no acting range whatsoever. Lindsey Crouse plays the most irrational FBI agent the movies have ever seen, and that's intended as a compliment. Even Anthony Hopkins, a great and reliable British actor, can't get past the silly and cliche-ridden falogue.

Well, that's quite enough to curse a movie, and I haven't even started talking about Cimino. While many of the scenes don't have Cimino's usually overblown, over-budgeted lock, the few that do have an artificial appearance and stick out among the realistic scenes like sore thumbs. Cimino's camera work is filled with bad moving-camera shots, confusion camera work is filled with bad moving-camera shots, confusion camera work is filled with bad moving-camera work is filled with bad moving-camera

few of us," Kinney said.

He said the ABC plans to have undercover agents in bars later in the year, and it often investigates bars on weekends when UK or high school football teams have home

school football teams have home games.

"We check schedules ... and check nights where the most activities are occurring and target bars and liquor stores in the area of events," Kinney said.

But catching underage drinkers can be difficult, especially in establishments with live entertainment that allow people in who are under 21 but over 18.

"That's kind of ridiculous — it

21 but over 18.
"That's kind of ridiculous — it makes it real difficult to enforce the law," Kinney said, "... We know in a lot of cases people of age buy for people not of age."
Although the ABC often has had to direct its efforts toward curtailing use of fake IDs, Kinney said this year he has seen more people who present valid IDs belonging to other people.

present valid its veloringing as employed.

"Often there is some facial resemblance and it can be very difficult" to determine if the person presenting the ID is the one pictured on it, he said. In those cases, the undercover officer will ask the person to give their social security number and address. give their social and address.
"That's where they stumble," he

That's where they stuffice, he said.

The ABC then takes the ID and traces it to the actual owner, who can have his or her drivers license suspended if it was willingly given

"I hope that they at least win all of their home games," Robbins said. "And whatever wins that they get on the road will be fantastic."

Other groups huddled in circles on blankets playing UNO and eating, while others studied or listened to headphones to keep their minds off the long wait they faced before seeing their belowed Cats in this, the Big Blue New Year.

Pitino was scheduled to introduce the 1990-91 squad to a fired-up crowd at the Coliseum shortly after midnight this morning, capping off a night of festivities with a practice.

by the government and timber companies.

On a national level, the group is working to prevent the further destruction of the tropical rainforests, which once covered 14 percent of the earth's land but now make up only six percent. According to The Green Press, SAVE's monthly news letter, the forests are important to medicine and science and vital to ecology. At the current rate of destruction the rainforests will vanish by the year 2020.

"After the students are educated, we want them to try to do something about (the problem), such as write to companies, boycott products, do what they can do to help save a part of their world," Blackburn said. Robbins, a junior majoring in English education, is engaged to Phelps and they plan to be married in June of next year. She is hoping for a simpler goal from the Cats than her fiance.

forest in Oregon and Washington still exist, and less than four percent of the ancient redwood forest still exists in California, according to SAVE.

SAVE and other environmental groups are working to prevent the further destruction of these forests by the government and timber companies.

On a national level at the companies.

lege students are eligible to run for Homecoming Queen because they pay student activities fees.

Segneri said community college students have "interviewed for years and years and none have ever made the top 16."

"There are more students that go to community colleges than the main campus," Segneri said. "They just got out and voted."

Segneri said that about 10 percent of LCC students voted for a candidate this year, while only six percent of students at UK's main campus cast their ballots.

"I don't know if they don't care or think it's not important or their votes won't count," Segneri said. "People just didn't get out and vote this year."

Kelli Beth Wickline, representive of Farmhouse social fraternity, was first runner-up. Her sister, Brandi, won two years ago.

Also for the second consecutive

of Farmhouse social fraternity, was first runner-up. Her sister, Brandi, won two years ago.

Also for the second consecutive year, a homecoming queen candidate was disqualified for violating a contest rule.

Semifinalist Melissa Renee Monroe was disqualified from the finalist competition when her sponsor. Sigma Chi social fraternity, placed a personal advertisement in the Kentucky Kernel.

"I think I've been penalized for something totally beyond my control," Monroe said. "The rule is really unfair. It's so hard to keep everyone from submitting ads."
Rule number four states: "There will be absolutely no campaigning. No posters, ads, personal memos, editorials, or any other type of publicity is allowed and will be grounds for immediate disqualification. Your organization is responsible for introlifying all of your members of this contest rule."
"I placed the ad," said Fred Wienotifying an or this contest rule."

"I placed the ad," said Fred Wie-

why the candidate last year was usgualified."

The personal ad Sigma Chiplaced in the Kernel read: "KAT
Renee M. we are all pulling for you
for Homecoming Queen. The Brothers of Sigma Chi."

Wiedenhoefer said Monroe is
their chapter sweetheart and they
"thought it would be nice to show
her support."

"The Kernel can not police the
rules of other student agencies,"
said Mike Agin, Kernel general
manager and UK student media adviser.

viser.

Monroe was told by the board and by the Kernel that several other organizations attempted to place personals for candidates, but the personals were rejected by the Kernel because of contest rules.

"I'm a little bit upset," because other ads were screened, Wieden-

hoefer said. "Ours just happened to slip through."
"We'll no longer be involved in screening ask for homecoming can-didates," Agin said. "You can't have a foolproof system like that. This is the second year in a row we've had an incident."

Monroe emphasized that some-thing should be done to prevent more candidates from being disqual-ified.

"I want to make sure an

"I want to make sure another girl is not put through this kind of thing next year," she said. "It shouldn't have happened this year." The SAB executive board plans to hold a meeting with the Kernel and the homecoming committee to eval-uate the policy, Estes said.

"We will sit down to determine some plan of action," she said. "Ob-viously something needs to be done. Innocent people are getting hurt."

## Three new ways to survive college.

With Apple's introduction of three new Macintosh\* computers, meeting the challenges of college life just got a whole lot easier. Because now, everybody can afford a Macintosh.

The Macintosh Classic is our most affordable model, yet it comes with everything you need—including a hard disk drive. The Manuscost C combines color capabilities with affordability. And the Manuscost II is perfect for students who need a computer with extra power and expandability.

No matter which Macintosh you choose, you'll have a computer that lightens your work load without

giving you another tough subject to learn. Every Macintosh computer is easy to set up and even easier to master. And when you've learned one program, you're well on your way to learning them all. That's because thousands of available programs all work in the same, consistent manner. You can even share information with someone who uses a different type of computer-thanks to Apple's versatile SuperDrive, which reads from and writes to Macintosh, MS-DOS, OS/2, and Apple\*II floppy disks.

See the new Macintosh computers for yourself, and find out how surviving college just got a whole lot

For all of your computer needs visit

## University needs new library to move into 1990s

Chancellor for the Lexington Campus Robert Hemenway put it mildly when he said last week that UK's Margaret I. King Library is "difficult to use. It's not as modern a facility as we would like.'

If this were the 1920s, UK could boast of one of the best libraries in the nation. But this is the 1990s, and if UK expects to be considered a university of the 21st century, it must have a

When UK President Charles Wethington called for a new central library last week, he demonstrated that he understands that the library is the "heart" of the University.

Plans where and when the library will be built have not been

determined, but it was encouraging to see that Wethington has the idea on the top of his list of things to do.

Wethington said that UK hopes to present a plan to the Gen

eral Assembly in its 1992 session. With state and outside fundhe said that a new library should be opened by 1995

Talk to anyone who has tried to use King Library, and they will tell you in no time that 1995 cannot come soon enough.

Many faculty and students often have to go off campus, even out of the state, to complete many research projects because King Library simply is not equipped to serve the UK commun ty. Like many of the University's buildings and programs, the

library was neglected for years, as officials tried to cover up otacks. Now the holes are so big that a new building is needed. If UK expects to gain regional and national recognition as a great state university, that must change

Although Wethington was general about his plans for a ne library, at least he recognized that funding should come from the public and private sectors.

While it would be nice if the state's leaders understood the need for Kentucky to have a top-notch library, it would be an accomplishment to get them to partially fund the \$40 million needed to build a new library . The issue surely will test Wethers ington's political skills.

It is important, however, for the University not to rely on

Frankfort to solve all of its problems. As public officials continue to shirk their responsibilities, it is up to the private sector to pick up the slack and ensure that its community has a quality education offered to its citizens. If Kentucky businesses plan to compete in the 21st century, they will need a skilled and intelligent work force.

In the next few weeks, Wethington will appoint a committee to determine what UK's next library should be like. It is impossible to envision the future clearly, but the committee should take pains to ensure that UK's next main library will be able to adapt to changing times, unlike the stagnate King building.

If a library is the heart of a university, then UK is experienc-

ing a health crisis. University officials should act quickly to

#### Kernel Checklist

A weekly service of the Viewpoint Page to keep its readers abreast of the hot items of the universe

√Enough! Teaching Civic Virtue in the '90s. Scholar Robert Bellah summed it up in a speech last week when he said that our society needs to learn how to say ne sau that our society needs to learn now to say enough. A re-ordering of the nation's values will be re-quired for things to change, and that change must be spurred by universities and colleges. It is imperative for the University community to take the lead for Kentucky,

√No Direction. Interfraternity Council's Alcohol Policy. The Interfraternity Council is ready to change its mind once again concerning the alcohol policy. After voting to allow the central distribution of beer and hooch two weeks ago, the IFC is considering switching to a restrictive "bring your own booze" policy. Much of the motivation appears to be the result of IFC being hammered with criticism from the UK community. Tune in next week to see where IFC stands next.

√Pledging To Change. The End Of Pledging. Several UK fraternities have decided that someone's interest in their organization does not have to be tested by putting people through a semester of tests, also known as pledging. While forcing freshmen to clean up a house may be one way of demonstrating their allegiance to a fraternity, it is comforting to see that other chapters will take people's word for it

√President Wishy-Washy. George Herbert Walker Bush. George Bush is not unlike those girls that just can't say no — or yes. We feel compelled to criticize Bush for not making up his mind on the federal deficit thing, but he does not have much of a mind in the first place. Perhaps Vice President Dan "Golf Ball" Quayle was telling the nation something it didn't know when he said what a terrible thing it is to lose one's mind — or not to have a mind at all. The White House and Congress will discover that voters have half a mind and

VSpeak For Yourself. Wallace Wilkinson. Gov. Walace Wilkinson, who has distinguished himself as know ing very little about what higher education is all about criticized the nation's colleges and universities for no keeping up with the education reform movement that is sweeping nation. Wilkinson, you will recall, criticized higher education in 1988 for wanting money so it could affect change in society. Less than 14 months until his

√A Day At The Races. Keeneland and UK Football The annual high-brow Kentucky fall tradition of watching horses on Saturday afternoon and UK football Saturday night was re-enacted last weekend as thousands of would-be sophisticates got their tweed jackets and bi-noculars out of the closet. For outsiders, fall Saturday in the Bluegrass must be an interesting experience. For Lexingtonians, it's business as usual

## The trouble with fraternities is the IFC

recent debate on public tele-vision addressed the topic, "Be it resolved: government is not the solution to the problem, it is part of the problem." UK's fraternities could level a

similar charge against the Interfra-ternity Council. Part of the problem with the state of UK's fraternities is

Whit the state of the IFC voted to prohibit the IFC.

Last fall, the IFC voted to prohibit chapters to centrally distribute beverages containing no more than 40 percent alcohol, which for greeks is beer and hooch. Sorry, no liqueurs.

This semester the policy was revised, as a majority of IFC members eligible to vote decided that chapters should be allowed to make their own decision whether they want to serve beer and hootch at their parties.

their parties.

The return to a somewhat liberal alcohol policy was criticized by those swept up by the nation's Puritanical moral impulse that seeks to impose its rigid lifestyle on the rest

critics of the new alcohol policy argue that bad things are going to happen whenever a group of college students gather around a keg to discuss issues confronting society, like how to make the most money. Many like to point to the Brad Shipman story in which alcohol mixed with driving ended one life and ruined two others. Never mind that the three individuals involved in the accident were not at a greek function.

In fact, the only congestion that

in the accident were greeks. But that is like saying that the Republican Party promotes racism because David Duke is a member. Following last month's decision to liberalize the alcohol policy, IFC came under fire from all sides of the campus. Everyone from the administration to the media attacked the move as a sign of irresponsibility. At last week's IFC meeting, members discussed changing the policy once again by returning to last fall's restrictive alcohol policy. But before the campus chapter of the Moral Majority is declared the winner, the IFC should consider the perils of imposing a more rigid alcohol policy. Critics of the current alcohol policy contend that allowing chapters to choose to serve beer and hooch at parties will result in more alcohol-related accidents. Balderdash. It is a fallacy to assert that because frater-nities serve beer and hooch at parties fallacy to assert that because frater-nities serve beer and hooch at par-ties, problems will develop. Alcohol

ties, problems will develop. Alcohol does not, according to modern science, have the power to turn rational human beings into social maniacs.

Actions that people try to defend as alcohol-induced usually are immature individuals trying to shift the responsibility for their actions.

What IFC and similar organizations, including the University,

ought to do is to stress responsibility and the consequences of individual choice. Such a policy would be more in tune with the responsibility of higher education to prepare indi-viduals to make decisions when they

viduals to make decisions when they enter society with their diplomas.

A more restrictive alcohol policy may be a "step in the right direction"

— a common catchphrase used by the morally correct of IFC — but it does little to teach individuals the importance of making their own decisions

importance of making their own decisions.

From a practical side, allowing hapters to control the flow of alcohol provides for a better way to monitor alcohol abuse. If no outside alcohol is allowed into a party, then a chapter has the right to refuse to serve anyone who has drank one too many. Try telling someone that he cannot have another sip of his brew-sky when he paid for it. Of course, liberalism has tried to impose stranger rules and still defend them with a sober face.

Another reason fraternities should find a restrictive alcohol policy unacceptable is that it goes against the grain of the purpose of IFC.

If the greek community is to be strong, it must allow for diversity within its membership. If all chapters had similar lifestyles, the purpose of having separate houses

pose of having separate houses would be defeated. The campus may as well have one fraternity with

cision.

That issue is at the root of the controversy. Most of the UK fraternities are prohibited by their national accordance from controlly dis-

nities are prohibited by their national headquarters from centrally distributing alcohol, which they believe places them at a disadvantage in the recruiting game, better known in the greek vernacular as rush.

Chapters should not sell themselves short. If they truly believe in the ideals their fraternity stands for, then having a restrictive alcohol policy should not destroy their foundation or their believes or their observations.

icy should not destroy their founda-tion or their ability to survive.

What is most disturbing about the argument for a restrictive alcohol policy is that it seeks to penalize chapters for being different. It is as if no chapter would be allowed to be different from any other IFC mem-ber, and if one tried to assert the right of autonomy, it would suffer the wrath of the majority. Later this month, the motion to re-turn to a more restrictive alcohol policy will be considered. Fraterni-ties that value their individual rights should warn their brethren that if IFC attempts to impose its silly mor-ral code on them, they will with-draw their membership.

Perhaps then IFC will remember

its responsibility and cease trying to act as the campus' moral police force.

## Society does not understand what 'wrong' is

#### By Robert T. Williams

I have no problem with the Kernel's controversial cartoon series "Doggy Bag!!" To me, it is about as funny and thought-provoking as "Marmaduke" or "Dennis the Menace" — and just about as likely to have any influences on a "collegeage boy's" mind.

I do share letter-writer Julianne
I do share letter-writer Julianne

age boy's' mind.

I do share letter-writer Julianne
Unsel's belief that rape is not a joking matter. I share her outrage that it
is a growing problem, and I concede
that men are not often victims.
Women do rape, of source. There
is a facility at Pewee Valley, Ky.,
full of women who have committed
all kinds of violent crimes. And I've
known a few myself whose "moral
hygiene" wasn't quite up to mom's
standards.

But, I don't wish to quibble. I am riting because I resent being

blamed and damned because of my

blamed and damned because of my maleness.

I don't accept responsibility for what other men do. I don't believe, as Unsel and the prophet Jeremiah, that "when one man is guilty, all are responsible" any more than I believe that Squeaky Fromme represented average American female values. "Date rape" was not a recognized concept a generation ago — at least to the young people I grew up and socialized with. Drug and alcohol abuse, the "let's-party" approach to dating, were also not very prevalent. Today, we numb our inhibitions; we dull and diffuse that critical sense of individual responsibility — our conscience; we "entertain" our selves with music and/or movies which are pornographically violent and insensitive; and wonder whatever happened to honest, gentle, trusting relationships.

Cartoonist Kenn Minter is not re-sponsible for the way we, as individ-uals, have decided to live our lives, or the society that has resulted from those decisions.

those decisions.

We had better be looking at the bigger picture if we want to understand, and find ways to prevent crimes like date and acquaintance rape. Maybe there is something we need to learn from that wast majority of college women — 85 percent of so — who never become victims of this particular crime; and a similar majority, I believe, of college men who never commit it.

majority, 1 believe, to contage mea-who never commit it. Raging at men in general, or Minter in particular, isn't going to get the job done. We have to find a way to stop an epidemic of lawless-ness, selfishness and indulgence; to end and era of rampant runaway ir-responsibility.

we don't have a clear concept

for both sexes.

One woman's awareness brochure states: "It is not uncommon for a date or acquaintance rapist to be-lieve he had done nothing wrong. After raping a victim, the rapist may ask for a date or even often assis-tance in getting the the victim home safely."

In what kind of a society, under what kind of circumstances can someone commit a felonious sexual assault and not even realize that he has done something "wrong?"

Minter's cartoons may reflect, perhaps, a bit of this amorality and confusion; they didn't cause it. Let's attack the problem and spare the

The Kentucky Kernel is published on class days during the academic year and weekly during the summer session.

Third-class postage paid at Lexington, Kentucky 40511. Mailed subscription rates are \$40 per year.

Readers are encouraged to submit letters and guest opinions to the Kentucky Kernel in person or by mail.

Writers should address

Letters should be 350 words or less, while guest opinions should be 850 words or less.

We prefer all material to be type written and able-spaced, but others are double-spaced, but others are welcome if they are legible.

Writers must include their name, address, telephone number and major classificatio or connection with UK on all submitted material.

Frequent contributors can be limited so we may publish letters from as many writers as possible to edit all material

## Serial killer forces unwanted changes

fear.
"I can't go out in the street or open the door," said Lupe Reyes, a 23-year-old live-in baby sitter in University City. "Before, we could take the children out to play and we could take walks. But now we can't go out because of the fear that he's out there." "Sometimes the doors along the back used to be open," she said, mo-

San DIEGO — People used to closed:

Reyes, like so many other women leave their doors unlocked and take the kids for strolls along the city's quiet streets north of downtown. An mysterious serial killer who has claimed five female victims — and who police say will likely strike again — has driven people inside, behind locked doors and windows. There, some people have taken to bathing with revolvers nearby, aware that some of the victims were in the shower or had just gotten out when they were stabbed to death with their own kitchen knives.

Outside, the city's normally peaceful University City and Clairemont neighborhoods are filled with fear.

"I can't go out in the street or open the door," said Lupe Reyes, a 23-year-old live-in baby siter in University City, "Before, we could ske the children out to play and were filled with the proposed of the policy of the proposed o

Authorities speculate that Pamela Clark was killed because she happened to be home with her daughter.
The first victim was 20-year-old
Tiffany Paige Schultz, a San Diego
State University student who moonlighted as a nude dancer. She was slain in her Clairemont apartment in January.

April.

Experts have put together a profile of the killer that describes him file of the killer that describes him as a disorganized opportunist who probably picks his victims on the spot. They say the fact he uses the victims' own knives as weapons in-dicates the murders aren't well planned.

planned.

A maintenance man who interrupted the attack on Tarr described the killer to police as 14 to 23 years old, with a dark complexion, close-cropped hair and a medium build.

But aside from that information, authorities say they have little to go on.

"I don't think this person is going to leave town," Toneck said. "I be-

Many residents agree, adding they have taken precautions to protect themselves. Some people have even moved away.

"After the second murder there was a stream of moving trucks going up and down the street," said Victoria Ross, 27, who lives across the street from the apartment complex where Schultz was killed.

Ross stayed, but she has become far more cautious.

"Every time I come up the stairs I watch around the bend, thinking that since there were no signs of forced entry in any of the murders that maybe he waited (outside for his victims)," She said." I watch in every direction before I get out of the car."

She also keeps an eye out for strangers, notes the license plate numbers of cars in the neighborhood and studies newspaper stories about the killings.
