Francis Building

Louisville, Kentucky

June 9, 1941.

Dr. Fred W. Rankin,
Lexington, Ky.

My dear Fred:

Congratulations on your selection as President of the American Medical Association. To see one of our own Kentucky doctors elevated to this highest position in American medicine is a great honor to the profession of Kentucky, and gives me great personal thrill. I know your work and leadership will be a credit to the organization, and your administration helpful and constructive.

On Monday June 16th, our Fifth District Medical Society will meet with the Jefferson County Medical Society at Liter's Park, just east of Louisville for a summer outing beginning at 4 P.M. We expect to have a first-class dinner, and a general good time, no scientific program. I will be delighted if you will come and be my personal guest.

Very cordially yours,

J. B. Lukins
J. B. Lukins, M. D.,
Councilor
