Dear Dr. Rankin:

When I heard the A M X A announcement Friday night and saw your face looking out at me from my N.Y. Times on Sat I was thrilled to pieces. The A. M. A. is greatly honored.

My brain is clear and I'm having a literary work period though I am still dogged by exhaustion and badly crippled with arthritis.

The old fatty tumor on my rib is getting so big that soon I shall really have to wear it in a basket. I'll trot down to see you next winter and let you have a look at it and my interiors.

My very warmest greetings to you and those dear to you.

Cordially and always gratefully

Rae G. Winslow
