Dear Doctor Rankin:-

Out of a grateful heart
for past favors, I wish to extend my congratulations
to you, for the highest professional honors, that
could be bestowed upon you or any one, in your election
as president of the American Medical Association.

Through your patience and professional
skill you have enabled me to enjoy twelve years or more
of useful happy life as I will soon be 77 and am busy
professionally, every day.

With best wishes for a long and useful
life and much happiness for you and yours,

I remain sincerely yours.
