Dear Fred:

We were disappointed not to be able to stay in Chicago long enough to see you at the College of Surgeons. We got out there on a Monday, and had to leave Friday morning before you got there for your inaugural address Friday evening. From what I hear it was fine, and we were very sorry to miss it.

We had been to Memphis previous to going to Chicago to see our twin grandchildren. Our youngest daughter in May had twins consisting of a boy and a girl, and of course the grandparents had to go by and see them.

A month or two ago in Blowing Rock, I ran up with a doctor from Kentucky who told me that he had seen you not too long before that and that you were doing well. We certainly were delighted to hear it, and hope that the improvement is continuing.

I often think what a friend you were to me in the early days at Rochester, and only wish there were something I could do to show you how much I do appreciate it.

Sincerely yours,

*W. H. Sprunt*
