

Dear Dr. Rankin: -

Congratulations upon your recent achievement in the medical profession. What a wonderful heritage for your children! It is regrettable that none of your sons chose to follow in your footsteps. Heard all the details from Tommy & Maely on Sunday afternoon at Ferrys. It isn't often that Tommy expresses much enthusiasm but he simply beamed during the conversation.

May I also tell you how much I appreciate your interest in my children. Your frequent visits to West will always be remembered. Margaret Julia was so pleased that you took time to see her so soon after your return. In fact your friendship is treasured by my entire family.
