LEXINGTON, KY., MARCH 16, 1911

No. 27

ECHOES FROM THE EAST.

Great Meeting of Kentucky Alumni Association.

It is always fair weather when good fellows get together and those good fellows were together Saturday night, New York. It was the occasion of the annual banquet of the Kentucky Alumni Association of New York.

Covers were laid for twenty-two, and a more representative body of Kentuckians never met around a banquet table. That spirit of good fellowship which is always present when a bunch of Kentucky boys get together, ran high. Older men met younger men with a warm welcome. This warm welcome by the older men of the Alumni made the younger men feel that at last they were factors for pushing the cause of the University of Kentucky in the East. Some good speeches were made on this subject of pushing, the principal one being made by Mr. C. F. Blessing, of Swathmore.

Among the other things which were discussed, were the placing of our graduates in good positions in the East and that of a good College song.

The need of a song such as Yale, Princeton, and the other big Universities have was keenly felt as those men sat together at that banquet. They were men of action as well as of words, and at once took action to secure an appropriate song. They raised a subscription of a substantial sum to be paid for a song which some Alumnus or any one else would write; this song to be approved by the New York Alumni Association and adopted by the University authorities. The men present at the banquet seemed to prefer a song written to the tune of "My Old Kentucky Home," but the song need not be restricted to this tune alone.

At the business session, Mr. Frank Daugherty, '01, was elected president to succeed Mr. W. E. Freeman, '04. Mr. J. T. Musselman, '00, was re-elected treasurer.

Letters from President Barker and Professor Anderson, expressing their regrets that they could not be present, were read. A telegram was sent to President Barker, expressing appreciation for the interest he has taken in the New York Alumni.

The following men were present at

the banquet.

R. L. Weaver, '95.
J. T. Lyle, '96.
G. F. Blessing, '97.
J. T. Musselman, '00.
P. West, '01.
F. Daugherty, '01.
R. W. Ellis, '03.
P. W. Newman, '02 and '03
W. E. Freeman, '04.
A. A. Gordon, '04.
C. A. Bickel, '05.
H. M. West, '05.
A. Aiken, '05.
H. C. Robinson, '06.
A. T. Lewis, '06.
B. W. Bennett, '08.
L. L. Lewis, '07.
L. S. O'Roak, '00.
J. S. Carvin, '10.
G. P. Mills, '10.
L. C. Bridges, '10.
J. H. Hall, '10.
J. B. Shelby, '10.

Note—The boys of '10 wish to express their best wishes to all those connected with the University, especially to the Senior M. & E. Engineers. Here's hoping all of you come through both "Little Paul" and "Dope" and give Elam the merry "go-by".

Yours for Kentucky State,
L. C. BRIDGES, '10.

DEBATING TEAM AT WORK.

Busily Preparing For Big Inter-Collegiate Event in April.

The University Debating Team has at last been selected and have now gotten down to hard work, preparing itself for the coming debate with Central for the inter-collegiate championship of the state.

Owing to a misunderstanding with Central's representatives on the Executive Committee of the Debating Association, there has been considerable delay, working greatly to our disadvantage, but from the energetic manner in which the boys are getting into harness, we have great hopes of their bringing the championship back where it rightly belongs.

Our debaters are W. C. Shultz, a Senior education student from Ohio county, J. F. Bruner, also a Senior in education, from Daviess county, and J. O. Gill, a Junior law student from Marion, Crittenden county. None of the men have been members of the Inter-collegiate team before, but all

are experienced public speakers. Mr. Shultz and Mr. Gill both having won previous oratorical and declamatory contests and Mr. Bruner being his class orator with quite an enviable record in his Literary Society. All three are industrious, capable students and we need feel no hesitancy in trusting the banner of the University in their hands. They are being coached by Professor J. T. C. Noe, one of the ablest and best equipped men in the state for such a task.

The debate is to be held here in the latter part of April. The subject is, "Resolved, That the Amendment to the Constitution of the United States proposed by the Sixty-first Congress and granting to the Federal Government the power to lay and collect an income tax according to the principle of uniformity, should be ratified by the states."

State, having the choice of sides, took the negative, and we confidently expect a clear demonstration of the inadvisability of the adoption of the amendment. "When Greek meets Greek" in the University chapel next month.

BASE BALL PRACTICE GAMES.

L. H. S. About March 28.

COLTS LATER.

Now that the Coach is here, we will be able to have some practice games and we expect to indulge in a good many so as to get the team in good shape for the game with the University of Michigan on April 10th. Get this one idea firmly ensconced in your upper stories right now—we are going to win that game of base ball from Michigan. That's straight goods. Ask the Coach. In order to do this we must and will play a number of practice games. The first will probably be with Lexington High School Saturday, March the 25th. This will be followed the next week with a game with the Lexington Colts and also one with the St. Paul's School team. On April first we play Kentucky Wesleyan College on our field, followed by a game with Louisville Normal Training High School. Then comes Michigan.

These preliminary practice games should develop the men and put them in shape to play the greatest game of their lives against the greatest

team they have ever played. But remember one thing,—the large end of the score in this game is going to be ours.

KENTUCKIAN ALMOST READY FOR PUBLICATION.

Every One Working Hard.

The staff of the 1911 Kentuckian is working very faithfully and will undoubtedly get out an excellent annual this year. Editor-in-Chief Taylor and Business Manager Cassady, together with their able corps of assistants, have been unusually busy for some time and they all deserve especial credit and praise for the interest they have shown and the energy they have put forth to give to their class an annual of which it may be justly proud.

An enormous amount of labor and ingenuity is necessary for the publication of an annual, much more than the average student would ever expect and this the staff this year is showing to a creditable degree indeed, and this should be fully appreciated by the members of the Senior class.

In a few days now the work will all be in the hands of the printer and the character of the book will be definitely decided. But assuredly a worthy publication can be expected and the Class of '11 may feel sure that their interests have been well looked after.

Here's to the Staff of the '11 Kentuckian! Our hats off to the indefatigable workers.

"STROLLERS" BUSY.

Enthusiastic Performers for "Brown of Harvard."

GOOD TALENT DEVELOPED.

The "strollers" are now in the midst of their rehearsals and everything points to a successful production of "Brown of Harvard."

The following men are asked to report Saturday afternoon at 2:30 p. m. sharp:

Thiesing, Miles, Gude, Porter, Francis, Hedden, Hart, Blaker, Marx, Rolla Foster, J. M. Foster, Oosthuizen, Palmore, Collings, DeBow, E. H. Smith, Kohnhorst, R. J. Wilson, Baird Schimpler, Melton, Gower and Spinks.

COACH ENGLE ARRIVSS.

Immediately Starts Enthusiasm.

When the few brave heroes who faced the wintry blasts Wednesday reached the field, they were greeted by the welcome face and healthy form of Coach Engle.

"Pete" Scott was all smiles and immediately began cavorting around short in a manner that would have put Hans Wagner to shame in his palmerst days. Burrus on second got in the game and scopped them up in a way that indicates he will be a most valuable man this season. Even speedy Wall, the second, awoke to the realization that his bones and muscles possessed some slight animation and showed us that he knows how to handle the grass cutters in a superb style, even though he hails from the sticks of western Kentucky.

The mere presence of Engle put the fellows in a playing humor and, although the day was extremely raw and cold, they showed more speed, snap and ginger than they have shown at any time this year.

Those who were here last year know full Engle's ability as a coach. They remember well the fine team he developed from a most unpromising bunch of material. To those new students who have never seen him coach, we can only say go down and watch him. He will soon show you that he is the real goods when it comes to coaching a base ball team. Go down and hear him yell "Heads up" to "Pete" Scott about six times every afternoon. He is great; he is worth a trip to the field. Go down.

We are all glad that he has a fairly good bunch of old men to begin work on. With the new material, which he will soon whip into shape, added to the old, we should soon be able to present a formidable line-up on the diamond.

The Pipe in Germany.

Among the European smokers the meerschau and the porcelain bowl find favor with the German, and the rivalry between their respective merits affords a constant topic of controversy among the burghers or youths of the universities. The possession and becoming use of the pipe mark the transition from youth to manhood, and the rauchen rank being assumed, the pipe, which is its recognized emblem and representative, is seldom out of the hand of its owner.

Undying Fame.

"Far be it from me to boast braggingly ob mah fambly tree," said the colored man who was whitewashing our chicken coop, "but one ob mah relertives was—"

"General Washington's persona, body-servant, sah!" we interrupted meantly, but gleefully.

"He was no sich thing, sah," warmly retorted the colored man; "he was one of Misteh Jack Johnsing's most esteemed sparrin' pardnehs befo' de fight!"

NEW BASE BALL MATERIAL.

Fine Showing of New Men.

It is always exceptionally gratifying to see the much-talked-of good new material working out well and showing up in a manner that would be expected from their past reputations. It is seldom that such a thing happens, but such is the case in base ball this spring.

There is a bunch of very highly touted new men who are showing some swell form in this early practice. While the writer has only seen the new men work out very little, he has been particularly well impressed by the excellent manner in which they handle themselves.

Some of those who have attracted special attention are: Preston, Robinson, Beatty, Cotterell, Fairchild, Wesley, Moore, Lee, Wall and Woodson. There are several others whose names we do not know. These men are showing some real base ball class and will make some one hustle to keep them off the team. They handle themselves and the ball well and use their noodles along with their hands. The entire squad is the best ever seen here, far above the ordinary and from this bunch we are expecting to develop a team that will wallop Michigan, first and then win the State championship.

Come down on the field, fellows, and watch them work out. Show them that you are interested in them. Get a line on the team early and your interest will grow as the season advances.

RIOT AT UNIVERSITY LUNCH STAND.

On last Saturday about the fourth hour, a young couple were peacefully eating a light luncheon at the University Lunch Stand when in walked the father of the "he" lover and demanded the reason for absence from class. After many stuttering efforts the young man succeeded in convincing the parent that as a true Kentuckian he could not endure to see a fair maiden suffer for lack of nourishment. Whereupon instead of this father leaving, he proceeded to also partake of the repast.

Strange it has not been heard of on the campus.

Japanese Method of Cold Storage.

On a recent visit to the city of Takata, on the northwest coast of Japan, I had occasion to observe, what at first thought I imagined was a haystack, but on investigation found to be an immense mound of snow covered with straw matting. The purpose of this mound was to keep in cold storage, for consumption in summer, fish caught in the wintertime. This is the only method of cold storage employed in the rural districts in the northwest of Jaapn, where the snowfall is very deep in winter, and these stacks are to be seen in considerable numbers distributed in different parts of the country.—Strand Magazine.

Quick Justice.

A Yorkshireman was standing next to a representative of the Red Rose on the second day of the Blackpool flying meeting, when he remarked: "I understand that justice is meted out very quickly in these parts." "Quickly!" exclaimed the Lancastrian, "I should think it is. Why, mate, only yesterday an airman fell out of his aeroplane, and he was tried and sentenced to six months in jail before he hit the ground." "You don't say so! What was the charge?" "Vagrancy; he had no visible means of support."

TRY TO GET IN.

A KENTUCKY PIONEER.

Upon a hill side's rugged brow
Where lingering shadows thickly
gloomed,
In fading light I chanced upon
A lonely, fallen tomb.

The grave-grass quivered in the
breeze
That ever gently on did sweep,
Sighing its soft requiem
To charm death's solemn sleep.

The moss grown stone was crumbling
slow
To dust that heedless time may
claim,
And many a weary autumn gale
Had half effaced his name.

Rudely carved, his history
Unknown, unsung calls forth no
tear
For thus its fading symbols read
"A Kentucky pioneer."

None other name none other fame
Was chiseled on that lone grave
stone,
Perhaps time had erased the name
Forever more unknown.

Or was it that he slumbered where
The kindly hands of strangers
cast
His lonely bed, where cold and still
He, friendless, breathed his last?

What matters now? He calmly
sleeps
Where soft October's sunshine
streams
Through swaying boughs and solemn
shades;
Unmocked by fitful dreams.

What hopes, ambitions, dreams of
fame
Once stirred within that still pale
brow
No one can tell, we only know
That all is silent now.

What life blood ebbed from pining
hearts
For him who never more returned
Cannot be told, his mournful fate
Perhaps none ever learned.

Then resting in that shadowed grave,
Whom never sunrise wakes to fear,
We honor give, because he was
A Kentucky pioneer.

—W. C. S.

Astrakhan Lambs.

From Bokhara some million and a
half astrakhan skins are sent each
year to Europe and America. The
lambs whose skins are known as
astrakhan are specially bred for the
purpose, and some flocks contain as
many as 5,000 head. The skins are
roughly dressed before being exported.
Experiments have been made in the
breeding of lambs for astrakhan in
various parts of Asia and Europe, but
it is claimed that Bokhara alone
produces the best lambs for the purpose.

THE GARDEN OF MONTEZUMA

Important Discoveries Made in Beau-
tiful Pleasure Grounds of Early
Mexican Rulers.

That an unknown, highly cultured
people, of whom neither history, tra-
dition nor legend has preserved any
record, flourished in or near the val-
ley of Mexico and enjoyed spiced cho-
colate and aromatic beverages from
transplanted tropical fruits grown by
them in a marvelously built garden
at Oaxtepec from 1500 to 2000 years
ago is the latest theory of Guillermo
Tellez regarding the recently discov-
ered garden of Montezuma.

Mr Tellez applied to the depart-
ment of public instruction for a spe-
cial permit to make explorations in
the garden. He states that concern-
ing twenty-one successive caciques on
the land with codices in possession of
the national museum has led him to
believe that the garden has great anti-
quity.

He has been devoting a large part
of four years to studying the plants
found there. Through the inscription
he has been able to glean historical
data concerning twenty-one successive
caciques. Tropical trees, flowers and
fruits were transplanted from the
Isthmus of Tehuantepec and Central
America to this garden, and there
were grown cocoa, vanilla, parota,
yolloxochitl, mecaxochitl and another
rare flower which gives off its odor
in the night.

These plants and their friends were
ingredients of the delicious chocolates
which were the favorite beverage of
the Aztec lords when Cortes arrived.
The garden was visited by Acama-
pixtle and Ilhuicarlina, the second
named being identical with Monte-
zuma. It is claimed that Montezuma
Ilhuicarlina appropriated this beauti-
ful garden to his personal royal uses
and pleasure.

Not a Glass Child.

They were having a glass of beer on
the pavilion when all at once on the
walk below there was the sound of
crashing glass. They looked and saw
that a child of about eight months
had fallen prone upon the pavement
face down. His mother ran to pick
him up.

"He's a glass child," lamented the
woman who was drinking the beer,
"and he broke himself when he fell."

"No," said the man, and looking
again, she found that he was right.
It was not the child that was broken,
but a large bottle of milk which he
had held clasped to his bosom when
he fell face down.

Plenty of Room.

Supposing the whole population of
Great Britain stood at equal distances
from one another all over the land
surface of Great Britain, each would
be 85 yards from his next neighbors.

Invitations to the Party.

"What is the idea of this new polit-
ical party they are talking about?"
asked the studious woman.

"I don't know," replied Miss Cay-
enne, "but I suspect it is to be like
some of the parties with which we are
familiar—gotten up for the purpose
of snubbing somebody."

Care of the Eyes.

Keep the eyes cool and clean by
washing them once or twice a day in
rose water or in equal parts of witch
hazel and warm water. Keep the eye-
brows and eye lashes free from dust
by brushing them with a tiny eyebrow
brush. Eye strain and inflamed eye-
lids are two of the almost unavoidable
results of a summer holiday. Bathing
the lids in much diluted tea will erad-
icate the redness, while rest in a dark-
ened room with a bandage of cool tea
leaves placed across the eyes will re-
lieve the strain.

WHY NOT A CINDER PATH? The Idea, as we have before stated upon many occasions, is always interested in the welfare of our institution condemning where condemnation is needed and commending where commendation is due, it pursues the even tenor of its way contented it of service to the student body which it represents.

There is no doubt as to the rapid improvement and onward progress of the Kentucky State University, and yet a few things, which some deem of only minor importance, are being overlooked. Take the outdoor athletics, for instance. There has never been any great amount of interest exhibited by the student body in this sport. The exhibitions are never well attended and consequently the participants can never show up to as good advantage as they could if every student was present at the meets, yelling and urging them to victory. In every athletic contest the participants are exactly as the crowd makes them. If we are enthusiastic, the players will be energetic, if we are indifferent, they will be listless. It has always been thus and so it will ever remain.

If we would have a winning track team this year, we must provide the necessary facilities for training. At the present time it is almost enough to discourage anyone interested in this sport, to see the condition of our running path. This is all the more true when we reflect that T. U., Central, Georgetown, and Wesleyan have cinder tracks, while we have only clay.

There is all the difference in the world between a path of cinders and one of clay. If a rain occurs in the morning before a meet, the clay will not permit any high rate of speed for several days; on cinders the moisture has very little effect. Even when the clay path is perfectly dry, the cin-

ders are very much more satisfactory.

Now taking these things into consideration, there is no reason why, in a few weeks we can not have a fine track of cinders completely encircling the athletic field. We have the ashes from the boiler rooms—ashes that are thrown away as useless. We have a great many opportunities to procure cheap labor in getting the material on the ground and putting it down. This will mean a great deal toward victory in this branch of sport this year, and it will show the coach and the men that the institution is behind them, interested in their efforts, and anxious for their success.

So let us get busy. It is always easier to climb over a wall where one has a boost and in the same way it is also easier to come in under the wire ahead of the rest, when S. U. K. Y.'s Sky Rockets, and Well! Well's are thundering through the air.

State has seldom failed to win in the end, when the student body clamored for victory.

As the reader is doubtless aware The Idea is out late this week. The reason therefor can easily be explained as follows: First, the lack of material prevented the copy from going to the press at the usual time and, second, the type had to be twice set up, owing to a new printer being placed on the job.

This is the first time during the year of 1911, that the Staff has not contributed sufficient material. As a whole, the work has been exceedingly satisfactory and prompt and it is sincerely hoped that it will continue so.

The only possible way to have a live college paper is for every student to take an active interest in every issue and there is nothing so detrimental to it as appearing ir-

regularly. Thursday morning, at Chapel hour, is the proper time for the idea to come out and, if it is to be a success, Thursday morning must find it ready to be handed to the students.

Let us all work together for the sake of our institution. Let every one contribute as regularly as possible to every issue of the paper.

NOTICE!

The Tennis Club is now to become an organized body, governed by rules and regulations, such as any other organization.

They will hold their first meeting Friday, Chapel hour, in Prof. White's room, Main building, elect officers, and talk over plans for the coming year. A local tournament is assured and an inter-collegiate tournament is in prospect. All those interested, and who want to become a member of the Tennis Club, come to the meeting Friday. Remember the time and place—Friday, Chapel hour, in Prof. White's room. The following names have been handed in already:

Hobson, W. E.
Watson, J. R.
Oustheizen, J. P.
Wallace, W.
Haley, W.

Giltner, J.

HAMILTON NOTES.

Miss Mary Hafnah and Miss Mary Elizabeth Lackey spent the week end at the latter's house in Richmond, Kentucky.

Miss Mary Francis Paul left Saturday for her home in Glasgow, Kentucky.

Miss Marie Stamper returned from her home in Vanceburg, Kentucky, Saturday.

Miss Bailey has returned to Christiansburg, Kentucky, after spending several days with her sister, Vestina Bailey.

On March 11 the annual inter-class basket-ball games of Hamilton College were played in the Transylvania gymnasium. The captains of the three teams, senior, junior and sophomore, drew for the first game, which was played by the juniors and sophomores. The score was a close one, being 8 to 7 in favor of the juniors. The second game was played between the seniors and juniors, the former winning with the score of six to four. As each of the teams had won one game it was necessary that a third game be played. The score was nine to nothing in favor of the seniors. So the pink and green floats over Hamilton.

Well formulated plans have been made for the organization of a state mining society. This movement has been placed on foot by the local society of the College of Mining Engineering but it is not to be along the lines of an extension of this society. It will be a state-wide association of mining men of Kentucky and will include the local society and any other similar organizations in various sections of the commonwealth. The now-called Kentucky Mining Society of the University is simply father of the idea and is lending its influence in carrying out the materialization of these plans.

Already several prominent mining men of the state have signified their interest in the matter and the permanent success of the organization is simply a matter of a few months time. A date will soon be determined for a convention in Lexington in order to elect officers and draw up the final business details. This will be done by representative mining men in attendance from over the state and the sentiment of these men so far as can be determined to date is that there shall be a strong feature made of the annual conventions when men of national fame, some of whom are located in the state, shall address the assembly. These addresses and other papers will doubtless be issued in an annual publication. The movement is decidedly one of progress and is fostered and approved by the Dean of the College of Mining Engineering.

Mr. R. R. Atkins, Class '10, was a visitor at the Mining Department last week. Mr. Atkins is located with the Block Cannel Coal Company, at Cannel City, Ky.

The many friends of Mr. R. G. Stevens will be sorry to hear that he has quit school for the rest of this year. He has accepted a position with the Clinchfield Coal Corporation, at Dante, Russell county, Va.

Mr. Bill Thiesing has returned to his studies after a week's stay in Covington. It is rumored that Bill's services were demanded by the Police Court (for information write to the Covington Police Headquarters).

Mr. Student

What About A Fall Suit?

Of course, you have thought of it. But did you also think of the fact that we make suits equal to the best tailors at only about half of his price? We wish to call your special attention to the fact that we use nothing but pure wool goods. Give you the best make, absolutely guarantee the fit and permanent shape. And think again that all of these made to your measure for

UNION LITERARY SOCIETY.

Reciprocity Treaty Ably Discussed.

The program Saturday night was begun by the regular exercises of devotion, lead by L. E. Smith. Mr. Wesley read a very pleasing poem on the "College Girl." Folklore of Kentucky was handed at length by the young lawyer, J. A. Grace, after which S. Jackson spoke a few minutes on Fiddling Bob, of Tennessee.

Following this series of preliminaries the debate of the evening was entered upon with Messrs. Faulkner, Jeagle and L. E. Smith, as judges.

Mr. Jetton and G. R. Smith held strongly that the proposed reciprocity treaty with Canada should be recognized as a good thing for us all and should be ratified by the Senate.

Mr. Weaver and W. C. Wilson bitterly opposed the scheme, saying that it was rail-roaded through the House and now, to gratify further dishonest political ends, their opponents would rail-road it through the Senate.

The affirmative side of the question looked strong unanimously to the judges.

Prof. Jamison visited the society, as he has in the past, and with a short prayer helped in the exercises of devotion.

The members are always more than glad, they are delighted, to have Professor Jamison or any of the professors or students come up and enjoy a few hours of perfect freedom of speech; come where every man hath a voice and the privilege of its use without fear of contradiction.

After a short recess the officers for

the last term of the year were elected. The result of the votes (after all the precincts were heard from) is as follows:

President, O. H. Taylor; Vice President, L. E. Smith; Recording Secretary, Jeagle; Corresponding Secretary Weaver; Librarian, Wesley; Prosecuting Attorney, H. Moore; Treasurer, S. Jackson; Janitor, J. O. Lewis.

ON INSPECTION TRIP.

Junior Class in Mechanical and Electrical Engineering.

Visit Plants in Dayton, Cincinnati, &c.

Last Tuesday the Junior Mechanical and Electrical Engineers left on the annual inspection trip to the many machine plants in our neighboring state, Ohio.

The party is accompanied by Professors L. K. Frankel and A. M. Wilson, who will visit fifteen very large plants, seven in Cincinnati, four in Hamilton and four in Dayton, returning to Lexington on the 18th.

These trips have been taken from year to year, resulting in great advantage and instruction as well as an enjoyment worth mentioning to the men who take them.

The members of the party are: W. H. Ammerman, H. G. Korfhage, J. T. Lowe, H. B. Shoemaker, G. F. Meadows, H. F. Vogliotti, S. D. Sanders, A. F. Ramsey, S. J. Ridd, J. W. Early, J. R. Duncan, J. L. Edelen, J. H. Gaiser, H. C. Galloway, L. C. Hardesty, and R. L. Jones and G. C. Watkins, while Mr. J. J. Curtis will be instructor.

The Senior Mechanical and Electrical Engineers will take their trip to the North in a few days. They go to Chicago and various places and have a great amount of fun they tell us and we know the campus is astir with their stories when they return.

Sayre Notes.

Mary Spencer.

Miss Lizette Gibbons returned to Sayre Monday after an illness of several weeks at her home in Winchester.

Miss Agnes Ousley spent the week end at her home in Midway.

Miss Marion Young went home with Miss Willie McCubbin to spend from Friday to Monday.

Dr. J. M. Spencer is at home again after a stay in Chicago for several months in the interest of Sayre.

Miss Sarah Gibson Chenault was the guest of her sisters in the country from Friday to Monday. Miss Lillian

Saffel also accompanied her.

There is to be a pupils' recital in the Chapel of Sayre Tuesday evening. All are cordially invited.

A CHALLENGE.

Inasmuch as it has long been the custom here at K. S. U. and other universities to have annual class contests in the various branches of athletics, and since that is the only way to determine the supremacy of the two lower classes, the Sophomores hereby challenge the Freshmen Basketball team for a game to be played at such a time as may be agreed upon.

Mgr. Sophomore Basketball Team.

TRACK MEN NEEDED.

Poor Response to Call for Candidates.

EVERYONE IS URGED TO COME

The number of men who have reported for track work up to date has been very disappointing and unless there is a large increase in the number of candidates the prospects of a winning track team, this spring, will be decidedly bad.

Inasmuch as the athletic committee has given track athletics its support and hired a coach it seems as though it should be up to the students to give some evidence of their appreciation of the committee's attitude. The best way to show that appreciation is to come out for the team. The material for a strong team is in school.

The events on the track schedule will be an inter-class meet, and a handicap meet. Besides these there is a possibility of a dual meet with some one of the neighboring schools.

The athletic committee has decided to send those members of the track team to the Southern Inter-collegiate meet who have a fair chance of winning places.

It is sincerely hoped that every man in school, who has the least ability in the line of track work, will come out and do his share in helping Kentucky State to have a winning track team.

PATTERSON SOCIETY ELECTION.

Officers Chosen For Third Term.

Grover Cleveland Routt, President. On last Saturday night, the Patterson Society held the third term election. A good crowd was present and all the officers were chosen by acclamation.

Mr. Grover C. Routt was selected for the presidential chair.

Mr. Routt hails from the good old county of Henderson and is a Senior in the College of Agriculture. He has always taken a prominent part in the affairs of the society and has been one of its most valuable members.

The other officers are Vice President J. O. Gill; Secretary N. W. Utley; Corresponding Secretary Snoddy.

(Mariam C. Taylor.)

News—"Dunc" and Sprague went walking yesterday afternoon.

Miss Matie Cary was the guest of Miss Mary Rodes on Friday night, and of Miss Cary Williams on Saturday night.

Tuesday was a red letter day for "Aunt Lucy," and the young ladies were irrepressible. The alarm clock did good service, first in front of Dr. Snow's door and then under Mrs. Blackburn's chair. Insult was added to injury when Dr. Snow's hat was swiped and placed in the middle of the table. Poor Aunt Lucy!

Miss Rubye Fleming was in town on Monday, and Misses Hayden and Johnson were her guests for lunch.

Miss Helen Daugherty was the guest of Miss Mary Barret Smith and Miss Miriam Taylor from Friday to Monday.

Mr. Tinsley's father was visiting him the first of the week.

Mr. R. O. Perkins and Miss Armadilla Bright Eyes will be married the evening of the Senior Ball immediately after the termination of the Grand March.

L. Glanville Terrell went to Cincinnati last Friday to see the presentation of the Greek play "Antigone." He returned very enthusiastic.

Mr. J. F. Bruner went to Cincinnati Saturday to try to bring about a settlement of the Firemen's strike on the Queen and Crescent.

Rehearsals for "Brown of Harvard" are progressing rapidly.

Last Wednesday evening Bain Morrison entertained several of his legal friends at his home in Madison Place. Those gathered around the festive board were: J. A. Wilmore, Kid Bald, J. Crostwaithe, V. Y. Moore, W. H. Townsend, J. D. Reese, T. H. Burruss and E. Campbell. After the repast everybody went to the Hipp where each act was uproariously cheered. It was indeed an enjoyable occasion.

HAGERMAN NOTES.

Miss Lucile Gibbs spent the week end at her home in Richmond.

Miss Rebecca Irby of Paris, Kentucky, was the guest of Miss Clisby.

Mrs. Smith, son and daughter of Alaska, have been the guests of Mrs. B. C. Hagerman.

Mrs. Halford Watson and son of Chicago, are the guests of Professor and Mrs. B. C. Hagerman.

Miss Louise Warford spent Sunday with her father in Millersburg.

A number of the girls went to the matinee, Saturday afternoon to see "The Climax."

Miss Louise Van Arsdale spent the week end at her home on the Richmond pike.

Miss Gladys Byran is spending a few days at her home in Ashland.

Mrs. B. A. Lockhart spent from Friday until Monday with friends in Georgetown.

MUSICAL CLUBS TO GIVE CONCERT.

The University Glee and Mandolin Clubs To Perform in College Chapel.

MARCH 31 DATE OF MUSICAL.

The Glee and Mandolin Clubs will give their first program concert in Lexington on night of March 31. These organizations have been practicing faithfully and after giving their concert in Lexington will begin work on the concert tour which will take place the last of April.

The Mandolin Club will be the guests of the girls at Patterson Hall on tomorrow night, and for once they will serenade beneath the incandescent globe instead of the lazy moon as in the past.

HIPPODROME.

The Hippodrome struck its stride again this week and has a show which would be a credit to most any house in the land. There is more than enough to cram an hour full of variety, and it is extremely doubtful if the house has ever harbored a better bill; at least not this season.

The program opens up with Bromly and Bromly, a singing and talking team. Their singing is somewhat off but they have a good line of talk; some clever burlesque of the "London and the che-ild" variety, and the lady in the act is decidedly prepossessing.

The four Gardners have an offering which is just to the liking of the major portion of the Hippodrome audiences, which was evidenced by a storm of applause which forced the four people to respond again and again. Two attractive girls, a neatly dressed young man and a very docile dog make up the act which introduces some clever dancing, several bright singing numbers and some special scenery and electrical effects, which enhance the act to a great extent. The wardrobe used in the act is A1, and from start to finish, one seldom finds a more pleasing innovation.

Scintilla, a lady violinist, won the hearts of the Monday audiences with out evident effort with a sweet personality and the splendid manner in which she plays a choice program of familiar selections. Miss Scintilla has a wonderful control of the violin, and her work will doubtless be a source of much pleasure to local mu-

sic lovers.

Schepp's Animal Circus is the best yet. Aside from the genuine worth of the act as an exhibition of sterling intelligence of the animal used, a rich vein of comedy runs throughout the act and puts it in a class as an animal circus which no other act has ever reached here. The premier feature of the circus is the bucking pony, "Harry", which so far has proven to be unridable.

—NOTICE—

Y. M. C. A. Election.

The election of officers of the Y. M. C. A. for next year will be held immediately after the regular meeting Tuesday evening, March 21st. A full attendance of all Y. M. C. A. members is earnestly and urgently requested. Please make a special effort to be there.

WHO? WHO? SAID THE OWL.

The much used allusion to Trojan valor and industry might well be applied to some of Cupid's recent tricks. He certainly works hard, and is undaunted by provoking circumstances.

Mr. Browning would have been serenely happy if only he could have had

"the time and the place
and the loved one all together."

Many another man has thought as much.

This must have been the thought of the young people who were discovered at the entrance to the New Chemistry Building last Friday afternoon vainly trying to leave each other. Whatever may have been the state of mind of this happy pair, the fact remains: Cupid works like a Trojan.
